CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Navel Orange Reg. 356, Amdt. I]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation increases the quantity of California-Arizona Navel oranges that may be shipped to fresh market during the weekly regulation period December 5-11, 1975. The quantity that may be shipped is increased due to improved market conditions for Navel oranges. The regulation and this amendment are issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 907.

§ 907.656 Navel Orange Regulation 356.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for an increase in the quantity of oranges available for handling during the current week results from changes that have taken place in the marketing situation since the issuance of Navel Orange Regulation 356 (40 FR 56670). The marketing picture now indicates that there is a greater demand for Navel oranges than existed when the regulation was made effective. Therefore, in order to provide an opportunity for handlers to handle a sufficient volume of Navel oranges to fill the current market demand thereby making a greater quantity of Navel oranges available to meet such increased demand, the regulation should be amended, as hereinafter set forth.

(3) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of Navel oranges grown in Arizona and designated part of California.

(b) *Order, as amended.* The provisions in paragraph (b) (1) (i) and (iii) of § 907.656 (Navel Orange Regulation 356) (40 FR 56670) are hereby amended to read as follows:

- "(i) District 1: 1,520,000 cartons;
- "(iii) District 3: 80,000 cartons."

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: December 10, 1975.

CHARLES R. BRADER,
Acting Director, Fruit and Vegetable
Division Agricultural
Marketing Service.

Title 12—Banks and Banking

CHAPTER III—FEDERAL DEPOSIT INSURANCE CORPORATION

SUBCHAPTER A—PROCEDURE AND RULES OF PRACTICE

[25011]

PART 303—APPLICATIONS, REQUESTS, AND SUBMITTALS

Delegation of Authority To Act on Certain Applications

1. Section 303.11 of the rules and regulations of the Federal Deposit Insurance Corporation (12 C.F.R. § 303.11) provides for the delegation of authority from the Corporation's Board of Directors (hereinafter the "Board") to the Director of the Corporation's Division of Bank Supervision and, where confirmed in writing by the Director of the Division of Bank Supervision, to the Corporation's Regional Directors, to act on certain applications and requests from insured State nonmember banks.

2. The Board has decided to amend § 303.13 of the rules and regulations of the Federal Deposit Insurance Corporation

which provides for other delegations matters pursuant to Sections 17 and 17A of authority. The amendment delegates authority to the Director of the Division of Bank Supervision and, where confirmed in writing by the Director, to the Regional Directors, to act on disclosure of the Securities Exchange Act of 1934 (15 U.S.C. 78) and Part 341 of the Corporation's rules and regulations in this chapter.

3. Section 303.13 is amended to read as follows:

§ 303.13 Other delegations of authority.

(b) *'Disclosure law and regulations.* Except as provided in paragraph (c) of this section, the Board of Directors has delegated to the Director of the Division of Bank Supervision, or, where confirmed in writing by the Director of the Division of Bank Supervision, to the Regional Director of the Region in which the applicant bank is located, the authority on behalf of the Board of Directors to act on disclosure matters under and pursuant to sections 12, 13, 14, 17 and 17A of the Securities Exchange Act of 1934 (15 U.S.C. 78) or Parts 335 and 341 of the Corporation's rules and regulations in this chapter.

(c) *Limitations on delegation.* Authority to act on disclosure matters under paragraph (b) of this section is not delegated by the Board of Directors when such matters involve:

(5) Exemption from registration requirements pursuant to Section 17A(c) (1) of the Securities Exchange Act of 1934 (15 U.S.C. 73q-1(c) (1)).

4. The rule making procedures set forth in the Administrative Procedure Act (5 U.S.C. §§ 553 (b) and (d)) and the rules and regulations of the Federal Deposit Insurance Corporation (12 C.F.R. §§ 302.1, 302.2, and 302.5) with respect to notice, public participation, and deferred effective date were not followed in connection with these amendments because they constitute rules of internal Corporation practice and procedure and are not substantive in nature.

5. *Effective date.* These amendments shall become effective immediately.

By order of Board of Directors, December 9, 1975.

FEDERAL DEPOSIT INSURANCE
CORPORATION,
[SEAL] ALAN R. MILLER,
Executive Secretary.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 14877; Amdt. 39-2463]

PART 39—AIRWORTHINESS DIRECTIVES Scheibe-Flugzeugbau Model Bergfalke II/55 and III Gliders

Amendment 39-2334 (40 FR 33008), AD 75-17-29, which requires replacement of a safety pin in the elevator control connection on certain Scheibe-Flugzeugbau Model Bergfalke II/55 and III glid-

ers, references a manufacturer's service bulletin. After issuing Amendment 39-2334, the Federal Aviation Administration determined that the service bulletin was incorrectly identified in the text of the AD. The FAA has also determined that the replacement requires no special instructions and that reference to a service bulletin is not necessary. Therefore, the AD is being superseded by a new AD that requires the replacement of a safety pin in the elevator control connection with a washer and a cotter pin on certain Scheibe Bergfalke II/55 and III gliders without reference to a service bulletin.

Since this situation requires immediate adoption of this regulation, notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

This amendment is made under the authority of Sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (14 CFR § 11.89), § 39.13 of Part 39 is amended by adding the following new airworthiness directive:

SCHEIBE FLUGZEUGBAU GMBH, Applies to Model Bergfalke II/55 and III gliders, certificated in all categories, equipped with loose connecting bolt between the elevator push-pull rod and elevator control lever.

Compliance is required as indicated, unless already accomplished.

To ensure a reliable elevator control connection, within the next 10 hours' time in service after the effective date of this AD, replace the safety pin (Fokker needle) at the connecting bolt between the elevator push-pull rod and the elevator control lever with an aviation quality washer and cotter pin.

This supersedes Amendment 39-2334 (49 FR 33008), AD 75-17-29.

This amendment becomes effective December 29, 1975.

Issued in Washington, D.C. on December 8, 1975.

J. A. FERRARESE,
Acting Director,
Flight Standards Service.

[Docket No. 15240; Amdt. 39-2464]

PART 39—AIRWORTHINESS DIRECTIVES Britten Norman Ltd. Models BN-2A and BN-2A MK III Airplanes

There have been reports of the rivets that secure the mass balance clamp unit to certain ailerons becoming detached on Britten Norman BN-2A and BN-2A MK III airplanes that could result in the loss of the balance weights with possible resultant aileron flutter.

Since this condition is likely to exist or develop in other airplanes of the same type design, an airworthiness directive is being issued to require repetitive inspections of the mass balance clamp unit for looseness on certain BN-2A and BN-2A MK III airplanes and modification of the unit, if necessary.

Since this situation requires immediate adoption of this regulation, notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

This amendment is made under the authority of Sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR § 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

BRITTEN NORMAN, LTD. Applies to Britten Norman Models BN-2A (Islander) and BN-2A MK III (Trislander) airplanes, all series, certificated in all categories with alleron P/N NB-24-301/302 (BN-2A), or P/N NB-24-379/380 (BN-2A MK III) installed, except those airplanes altered in accordance with Britten Norman Modification NB/M/627. Compliance is required as indicated.

To detect detachment of rivets securing the mass balance clamp unit to certain allerons and to prevent possible failure of the alleron mass balance attachment, accomplish the following:

(a) Prior to first flight of each day after the effective date of this AD, inspect the attachment of the alleron mass balance clamp unit for looseness in accordance with the "Inspection" paragraph of Britten Norman Service Bulletin No. BN-2/SB.67, dated October 24, 1973, or an FAA-approved equivalent.

(b) If loose attachments are found during an inspection required by paragraph (a) of this AD, before further flight, modify the alleron and the mass balance clamp unit in accordance with the "Rectification" paragraph of Britten Norman Service Bulletin No. BN-2/SB.67, dated October 24, 1973, or an FAA-approved equivalent.

(c) The inspections required by paragraph (a) of this AD may be discontinued upon the incorporation of the modification specified in paragraph (b) of this AD.

This amendment becomes effective December 29, 1975.

Issued in Washington, D.C., on December 8, 1975.

PART 39—AIRWORTHINESS DIRECTIVES
Scottish Aviation Limited Model HP-137
MK.1 Jetstream Airplanes

Pursuant to the authority delegated to me by the Administrator (14 CFR § 11.89), an airworthiness directive was issued on October 24, 1975, and made effective immediately as to all known United States operators of Scottish Aviation Ltd. Model HP-137 MK.1 Jetstream Airplanes. The directive required the periodic inspection, reinforcement, and replacement, as necessary, of the

outer flap assembly on Model HP-137 MK.1 Jetstream Airplanes.

Since it was found that immediate corrective action was required, notice and public procedure thereon were impracticable and contrary to the public interest and good cause existed for making the airworthiness directive effective immediately as to all known U.S. operators of Scottish Aviation Ltd. Model HP-137 MK.1 Jetstream Airplanes by individual telegrams dated October 24, 1975. These conditions still exist and the airworthiness directive is hereby published in the FEDERAL REGISTER as an amendment to § 39.13 of Part 39 of the Federal Aviation Regulations to make it effective as to all persons.

This amendment is made under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

SCOTTISH AVIATION LTD. Applies to Model HP-137 MK.1 Jetstream airplanes, certificated in all categories.

For airplanes with 500 or more total landings, on the effective date of this AD, compliance is required before further flight, unless already accomplished within the last 50 landings, (except that the airplane may be flown in accordance with FAR §§ 21.197 and 21.199 to a base where the work can be performed, provided that the flaps remain in the fully retracted position for the duration of the flight) and thereafter at intervals not to exceed 50 landings since the last inspection.

For other airplanes, compliance is required prior to the accumulation of 500 total landings and thereafter at intervals not to exceed 50 landings since the last inspection.

To prevent possible flap separation from the airplane accomplish the following:

(a) Visually inspect the outer end of each outer flap for cracks along the lower flange of the end rib and rib doubler using a magnifying glass with a minimum of 5-power, or by using an FAA-approved equivalent method.

NOTE: During the inspection required by paragraph (a) particular attention should be paid to the bend of doubler and heel of rib flange.

(b) For access to the area to be inspected in accordance with paragraph (a) of this AD—

(1) Remove the four counter sunk head bolts from the outer flange and cut the four anchor nuts from the support pads; and

(2) Lift the support pads and cut the anchor nut rivets flush with the flange of the doubler.

(c) If cracks are found during the inspection required by paragraphs (a) and (b) of this AD, replace the affected outer flap assembly with a new or serviceable outer flap assembly of the same part number or an FAA-approved equivalent.

(d) Re-install the support pads and counter sunk bolts using stiff nuts, Kaylock EH10-3, or equivalent, and plain washers to replace anchor nuts.

NOTE: For future improved ease of access, it is permissible to reverse the three bolts on the flap hinge arm.

NOTE: It is requested that findings be reported to Chief, Aircraft Certification Staff, FAA European Region, AEU-100, APO New York, N.Y. 09667. (Reporting approved by Bureau of Budget under BOB No. 04-R-0174).

[Civil Aviation Authority (CAA), United Kingdom mandatory inspection message No.

77432, dated October 17, 1975, applies to this same subject.]

This amendment is effective on December 15, 1975, as to all persons except those persons to whom it was made immediately effective by telegram dated October 24, 1975, which contained this amendment.

Issued in Washington, D.C. on December 8, 1975.

PART 39—AIRWORTHINESS DIRECTIVES
Pilatus Aircraft Ltd. Model PC-6/A
Airplanes

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring reinforcement of the U-shaped channel of the engine mount to fuselage attachment on PC-6/A airplanes with Astazou engine installations manufactured by Pilatus Aircraft Ltd. was published in the FEDERAL REGISTER on August 1, 1975, (40 FR 32343).

Interested persons have been afforded an opportunity to participate in the making of the amendment. No objections were received.

This amendment is made under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

PILATUS AIRCRAFT LTD. Applies to Pilatus Model PC-6/A airplanes up to and including S/N 659 (all variants) with Astazou engine installations manufactured by Pilatus Aircraft Ltd.

NOTE: This AD does not apply to Pilatus Model PC-6/A airplanes manufactured by Fairchild Hiller.

Compliance required within the next 100 hours' time in service after the effective date of this AD, unless already accomplished.

To prevent failure of the engine mount to fuselage attachment, reinforce the U-channel, P/N 6201.992, by installing a steel plate, P/N 112.35.06.337, to each U-channel lug and rework the engine strut heads, P/N 6501.106, in accordance with paragraph 2.2 of Pilatus Aircraft Ltd. Service Bulletin No. 83A dated February 1971, or an FAA-approved equivalent.

This amendment becomes effective on January 14, 1976.

Issued in Washington, D.C., on December 8, 1975.

RULES AND REGULATIONS

[Docket No. 14880; Amdt. 39-2467]

PART 39—AIRWORTHINESS DIRECTIVES**British Aircraft Corporation BAC 1-11
200 and 400 Series Airplane**

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring inspection and deactivation of oxygen systems until alterations are made on BAC 1-11 200 and 400 series airplanes was published in the FEDERAL REGISTER on August 6, 1975, (40 FR 33050).

Interested persons have been afforded an opportunity to participate in the making of the amendment. No objections were received. One comment noted that the reference to FAR 91.31 in the notice should be FAR 91.32, and the AD has been changed accordingly.

This amendment is made under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

BRITISH AIRCRAFT CORPORATION. Applies to BAC 1-11 200 and 400 series airplanes certificated in all categories, equipped with H.F. radio systems that do not have BAC Modifications PM 4412 Part (a) or Part (b) and Modification PM 4424 incorporated.

Compliance is required as indicated:

To prevent hazardous arcing at the H.F. antenna tuning unit connector post in the vicinity of the oxygen system, accomplish the following:

(a) Within the next 25 hours' time in service, after the effective date of this AD, comply with the following:

(1) Unless accomplished within the last 25 hours' time in service, inspect the H.F. antenna lead-in cable at the antenna, the antenna tuning unit (A.T.U.) connectors, the tuning unit and all adjacent wiring and oxygen piping in the immediate vicinity for signs of overheating damage or arcing, and replace damaged parts with parts of the same part numbers, or FAA-approved equivalent parts.

(2) Remove and discard the rubber overshoe fitted at the A.T.U. connector post.

(3) Attach a placard on the instrument panel in full view of the pilot reading:

"The passenger oxygen system control valve must remain in the OFF position. Conduct operations in accordance with FAR 121.329 or 91.32, as applicable."

(b) Repeat the inspection required by paragraph (a) (1) of this AD at intervals not to exceed 50 hours' time in service from the last inspection until paragraph (c) of this AD is complied with, at which time the inspection interval may be increased not to exceed 200 hours' time in service from the last inspection.

(c) The placard required by paragraph (a) (3) of this AD may be removed and the inspection interval prescribed in paragraph (b) may be established upon completion of the following:

(1) Compliance with the provisions of British Aircraft Corporation Alert Service Bulletin 23-A-PM 4346 dated April 5, 1971, paragraph numbers 3.1, 3.2, 3.3, 3.4, 3.5, 3.7, 3.8, 3.9, 4.3, 4.4, 4.5, or FAA-approved equivalents.

(2) Alteration of the oxygen system in accordance with BAC Modification PM 4412 Part (a) and Part (b), or an FAA-approved equivalent.

This amendment becomes effective on January 14, 1976.

Issued in Washington, D.C., on December 8, 1975.

PART 39—AIRWORTHINESS DIRECTIVES**British Aircraft Corporation Viscount Series
700 and 810 Airplanes**

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring inspections for fatigue cracks and replacement and reworking of the landing flap torque shaft assemblies, as appropriate, on British Aircraft Corp. Viscount 700 and 810 series airplanes was published in the FEDERAL REGISTER on August 6, 1975 (40 FR 33049).

Interested persons have been afforded an opportunity to participate in the making of the amendment. No objections were received.

This amendment is made under the authority of Sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

BRITISH AIRCRAFT CORPORATION. Applies to British Aircraft Corp. (BAC) Viscount Model 700 and 810 series airplanes.

Compliance is required as indicated, unless already accomplished.

To prevent possible fatigue failure of the No. 1 and 2 landing flap torque shaft assemblies, accomplish the following:

(a) For No. 1 torque shaft assemblies (LH and RH), comply with the following:

(1) Torque tubes fitted to torque shaft assemblies for which total landings can be determined and which have accumulated in excess of 28,000 landings but not more than 28,000 landings on the effective date of this AD may remain in service for 2,000 additional landings with no special inspections after which time they must be replaced with new torque tubes of the same part number in accordance with paragraph (a) (5) of this AD.

(2) Torque tubes fitted to torque shaft assemblies for which the total landings can be determined and which have accumulated in excess of 28,000 landings on the effective date of this AD may be continued in service, subject to the inspection requirements of paragraph (a) (4) of this AD, for 2,000 additional landings after which they must be replaced with new torque tubes of the same part number in accordance with paragraph (a) (5) of this AD.

(3) Torque tubes fitted to torque shaft assemblies for which total landings cannot be determined must use in lieu thereof the total landings on the aircraft on which they are installed and comply with either para-

graph (a) (1) or (a) (2) of this AD as applicable.

NOTE: If total landings on the aircraft are not known, an operator may substitute a value for total landings established by dividing the total aircraft hours by the average flight length for the particular aircraft, subject to the approval of the assigned FAA Inspector.

(4) Torque tubes fitted to torque shaft assemblies may remain in service for 2,000 additional landings in accordance with paragraph (a) (2) of this AD, subject to the following conditions:

(1) Within 50 landings after the effective date of this AD and thereafter at intervals not to exceed 50 landings until replaced in accordance with paragraph (a) (2) of this AD, inspect the torque tubes in accordance with 2.2.1 of Alert PTL No. 290 (700 series) or Alert PTL No. 158 (810 series), both dated August 23, 1972, or an FAA-approved equivalent. If any cracks are found in the torque tubes as a result of this inspection, before further flight, replace the torque tubes with new parts of the same part numbers in accordance with paragraph (a) (5) of this AD.

(1) Within 500 landings from the effective date of this AD and thereafter at intervals not to exceed 500 landings until replaced in accordance with paragraph (a) (3) of this AD, remove the torque shaft assemblies and inspect and rework in accordance with paragraph 2.2.2 of Alert PTL No. 290 (700 series) or Alert PTL No. 158 (810 series), both dated August 23, 1972, or an FAA-approved equivalent. Where an inspection required by this paragraph coincides with an inspection interval specified in paragraph (a) (4) (1) of this AD, the inspection conducted in accordance with this paragraph is considered as showing compliance with the inspection required by paragraph (a) (4) (1) of this AD. If any cracks are found in the torque tubes or end fittings as a result of this inspection, replace cracked parts with new parts of the same part numbers in accordance with the assembly instructions specified in paragraph (a) (5) of this AD.

(5) Torque tubes replaced in accordance with any provisions of this AD must be assembled to the torque shaft assembly in accordance with Figure 2 of Alert PTL No. 290 (700 series) or PTL No. 158 (810 series), both dated August 23, 1972, or an equivalent approved by the Chief, Aircraft Certification Staff, FAA, c/o American Embassy, APO New York 09687.

(6) Replacement torque tubes installed in accordance with the provisions of this AD must be replaced within 20,000 landings from new. Thereafter inspect replacement torque tubes in accordance with paragraph 2.3 of Alert PTL No. 290 (700 series) or Alert PTL No. 158 (810 series), both dated August 23, 1972, or an FAA-approved equivalent.

(b) For No. 2 torque shaft assemblies (LH and RH), comply with the following:

(1) For torque tubes fitted to torque shaft assemblies, for which total landings can be determined, within 500 landings after the effective date of this AD or before accumulating 28,500 landings, whichever occurs later, and thereafter at intervals not to exceed 500 landings, inspect the torque tubes in accordance with paragraph 2.4.1 of Alert PTL No. 290 (700 series) or Alert PTL No. 158 (810 series), both dated August 23, 1972, or an FAA-approved equivalent.

(2) Within 1,500 landings after the initial inspection required by paragraph (b) (1) of this AD, and thereafter at intervals not to exceed 2,000 landings from the last inspection, remove the torque shaft assemblies and inspect the torque tubes and end fittings for cracks in accordance with paragraph 2.4.2 of Alert PTL No. 290 (700 series) or Alert PTL No. 158 (810 series), both dated August 23,

1972, or an FAA-approved equivalent. Where an inspection required by this paragraph coincides with an inspection interval specified in paragraph (b) (1) of this AD, the inspection conducted in accordance with this paragraph is considered as showing compliance with that required by paragraph (b) (1) of this AD.

(3) If cracks are found as a result of the inspections conducted in accordance with paragraphs (b) (1) or (b) (2) of this AD, before further flight, replace the cracked parts with new parts of the same part number. Where new torque tubes are installed as a result of the inspections specified in paragraphs (b) (1) and (b) (2) of this AD, the repetitive inspections required by paragraphs (b) (1) and (b) (2) must be initiated upon accumulating 28,000 landings on the new torque tubes.

(4) Torque tubes fitted to torque shaft assemblies for which the total landings cannot be determined, must use in lieu thereof the total landings of the aircraft on which they are installed for the purpose of complying with paragraph (b) (1) of this AD.

NOTE: If total landings of the aircraft are not known, an operator may substitute a value for total landings established by dividing the total aircraft hours by the average flight length for the particular aircraft, subject to the approval of the assigned FAA Inspector.

This amendment becomes effective on January 14, 1976.

Issued in Washington, D.C., on December 8, 1975.

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On November 3, 1975 a notice of proposed rule making was published in the FEDERAL REGISTER (40 FR 51058) stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the Heber, Arizona Transition Area.

Interested persons were given 30 days in which to submit written comments, suggestions or objections. No objections have been received and the proposed amendment is hereby adopted without change.

Effective date. This amendment shall be effective 0901 g.m.t., January 29, 1976.

(Sec. 307(a) of the Federal Aviation Act of 1958, as amended, (49 U.S.C. 1348(a)), and of Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).)

Issued in Los Angeles, California on December 5, 1975.

JESS SPECKERT,
Acting Director, Western Region.

In § 71.181 (41 FR 440) the description of the Heber, Arizona transition area is amended to read as follows:

That airspace extending upward from 12,000 feet MSL bounded by a line beginning

at latitude 34°39'00" N., longitude 111°39'00" W. to latitude 34°43'00" N., longitude 111°24'00" W., to latitude 34°43'00" N., longitude 110°20'00" W., thence south via longitude 110°20'00" W. to the north edge of V190N, thence west and southwest via the north and northwest edges of V190N to latitude 34°03'30" N., longitude 111°05'00" W. to latitude 34°10'00" N., longitude 111°30'00" W. to latitude 34°10'00" N., longitude 111°43'00" W., to point of beginning.

This amendment is proposed under the authority of Sec. 307(a) of the Federal Aviation Act of 1958, as amended, (49 U.S.C. 1348(a)), and of Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Los Angeles, California on October 24, 1975.

[Release No. 34-11888]

PART 200—ORGANIZATION; CONDUCT AND ETHICS; AND INFORMATION AND REQUESTS

Amendment of Rules Delegating Authority To Grant Exemptions Under Rule 10a-1 Under the Securities Exchange Act of 1934

The Securities and Exchange Commission hereby announces the amendment of Section 200.30-3 (17 CFR 200.30-3) of the Commission's Statement of Organization; Conduct and Ethics; and Information and Requests to delegate to the Director of the Division of Market Regulation, to be performed by him or under his direction by such person or persons as may be designated from time to time by the Chairman of the Commission, until the Commission orders otherwise, the additional authority and function of granting exemptions under paragraph (f) of Rule 10a-1 (17 CFR 240.10a-1(f)).

The text of the amendment to the Commission's regulations with respect to delegated authority follows:

17 CFR 200.30-3 is amended by adding a new paragraph (a)(16) thereto to read as follows:

§ 200.30-3 Delegation of authority to Director of Division of Market Regulation.

(16) Pursuant to Rule 10a-1(f) [§ 240.10a-1(f)] to grant requests for exemptions from Rule 10a-1;

The Commission finds that the foregoing amendment relates solely to agency organization, procedure or practice and that notice and procedures under the Administrative Procedure Act (5 U.S.C. 553(b)(3)(B)) are unnecessary. Accordingly, the foregoing action, which was taken pursuant to Pub. L. 87-592, 76 Stat. 394 (15 U.S.C. 78d-1, 78d-2), becomes effective immediately.

By the Commission.

Dated: November 28, 1975.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER E—ANIMAL DRUGS, FEEDS, AND RELATED PRODUCTS

PART 558—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

Subpart B—Specific New Animal Drugs for Use in Animal Feeds

LINCOMYCIN

The Commissioner of Food and Drugs has evaluated a supplemental new animal drug application (34-085V) filed by the Upjohn Co., Kalamazoo, MI 49001, proposing that finished feeds prepared from premixes containing lincomycin as the sole drug need not satisfy all the requirements of section 512(m) of the Federal Food, Drug, and Cosmetic Act. The supplemental application is approved, effective December 15, 1975.

Lincomycin as the sole drug premix meets the uniform criteria in 1971 Bureau of Veterinary Medicine memoranda for administrative waiver of the ministerial requirements of section 512(m) of the act. The pertinent provisions of the memoranda indicate that waiver is appropriate if:

1. The feeding of 1.5X to 2X level of the product in the finished feed does not have an impact on the tissue residue picture, i.e., an impact on an existing withdrawal period or tolerance.

2. The product is not a known carcinogen or is not classed with a family of known carcinogens.

3. Appropriate documentation covering animal safety is on file. This will not require additional data since this documentation is by definition a part of the new animal drug application (NADA).

4. The margin of safety to the animal and the consumer is such that the product label does not have to contain a statement such as "Use as the sole source of * * *"

5. Data are on file to demonstrate that the product is efficacious over the approved range. This data should generally satisfy current standards for the demonstration of efficacy.

6. Except under special circumstances, the product has been used at least 3 years in the target species without significant complaints related to or associated with it. Applications of this criterion require a review of the available Drug Experience Reports.

The 1971 memoranda make explicit that because waiver of the ministerial requirements of section 512(m) of the act is permitted only for specific efficacy claims or at specific levels of the drugs, distinct products with corresponding labeling for those claims or levels should exist. This is necessary to cover those premixes that can be made into finished feeds with various concentrations of drugs.

The foregoing criteria established in the 1971 memoranda constitute an interim agency policy that is under review. The Bureau of Veterinary Medicine is preparing a proposed regulation for publication in the FEDERAL REGISTER, based on the criteria listed above, governing waiver of the 512(m) requirements for the finished feed. In waiving the ministerial requirements of section 512(m), the agency has not waived the current good manufacturing practice regulations under Part 225 (21 CFR Part 225) for feed mills mixing such feeds.

In accordance with § 514.11(e)(2)(ii) (21 CFR 514.11(e)(2)(ii)) of the animal drug regulations, a summary of the safety and effectiveness of data and information submitted to support the approval of this application is released publicly. The summary is available for public examination at the office of the Hearing Clerk, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, Monday through Friday from 9 a.m. to 4 p.m., except on Federal legal holidays.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner (21 CFR 2.120), § 558.325 is amended by redesignating the present paragraph (e) as paragraph (f) and adding a new paragraph (e) to read as follows:

§ 558.325 Lincomycin.

(e) *Special considerations.* Finished feeds containing lincomycin as the sole drug and conforming to the requirements of this section are not required to comply with the provisions of section 512(m) of the Federal Food, Drug, and Cosmetic Act.

Effective date. This order shall be effective December 15, 1975.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i).)

Dated: December 5, 1975.

C. D. VAN HOUWELING,
Director,
Bureau of Veterinary Medicine.

CHAPTER II—DRUG ENFORCEMENT ADMINISTRATION, DEPARTMENT OF JUSTICE

PART 1308—SCHEDULES OF CONTROLLED SUBSTANCES

Exempt Chemical Preparations

The Acting Administrator of the Drug Enforcement Administration has received applications pursuant to Section 1308.23 of Title 21 of the Code of Federal Regulations requesting that several chemical preparations containing controlled substances be granted the exemptions provided for in Section 1308.24 of Title 21 of the Code of Federal Regulations.

The Acting Administrator hereby finds that each of the following chemical preparations and mixtures is intended for laboratory, industrial, education, or special research purposes, is not intended for general administration to a human being or other animal, and either (a) contains no narcotic controlled substances and is packaged in such a form or concentration that the package quantity does not present any significant potential for abuse, (b) contains either a narcotic or non-narcotic controlled substance and one or more adulterating or denaturing agents in such a manner, combination, quantity, proportion or concentration, that the preparation or mixture does not present any potential for abuse, or (c) the formulation of such preparation or mixture incorporates methods of denaturing or other means so that the controlled substance cannot in practice be removed, and therefore the preparation or mixture does not present any significant potential for abuse. The Acting Administrator further finds that exemption of the following chemical preparations and mixtures is consistent with the public health and safety as well as the needs of researchers, chemical analysts, and suppliers of these products.

Therefore, pursuant to section 202(d) of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 812(d)), and under the authority vested in the Attorney General by sections 301 and 501(b) of the Act (21 U.S.C. 821 and 871(b)) and delegated to the Administrator of the Drug Enforcement Administration by Section 0.100 of Title 28 of the Code of Federal Regulations (see FR 18380, July 2, 1973), and further, having been duly designated as Acting Administrator by Order No. 607-75 of the Attorney General, dated May 30, 1975, in accordance with the authority stated therein, and pursuant to the authority delegated to the Acting Administrator by Section 0.132(d) of Title 28 of the Code of Federal Regulations, the Acting Administrator of the Drug Enforcement Administration hereby orders that Part 1308 of Title 21 of the Code of Federal Regulations be amended as follows:

Title 24—Housing and Urban Development
 CHAPTER II—OFFICE OF ASSISTANT SECRETARY FOR HOUSING PRODUCTION AND MORTGAGE CREDIT—FEDERAL HOUSING COMMISSIONER (FEDERAL HOUSING ADMINISTRATION)

SUBCHAPTER B—MORTGAGE AND LOAN INSURANCE PROGRAMS UNDER NATIONAL HOUSING ACT

[Docket No. R-75-316]
 INTEREST RATES APPLICABLE TO MORTGAGE INCREASES BETWEEN INITIAL AND FINAL ENDORSEMENT

Mortgage Insurance
 On February 13, 1975, a document was published in the FEDERAL REGISTER (40

FR 6647) as an interim rule which amended Parts 205, 207, 213, 220, 221, 232, 235, 236, 242, and 244 of Title 24 of the Code of Federal Regulations (and Parts 227, 231, and 234 through incorporation by reference) to provide that the interest rate on an increase in a mortgage over and above the amount which the Secretary committed to insure at initial endorsement may be at the maximum interest rate allowable at the time of the Secretary's approval of the increase. Interested persons were given 60 days to comment before publication of the final rule. No comments were received.

However, due to wide fluctuations in the maximum interest rate permitted by HUD during recent months, situations have arisen where mortgagees were unwilling to fund mortgage increases at interest rates less than the greater of that in effect at the time of (1) initial endorsement of the mortgage, (2) the application for the increase, or (3) the approval by HUD of the increase. These situations occur when interest rates decline from the time of the initial endorsement or the application for increase in mortgage amount to the time of the HUD approval of the increase. However, the interim rule did not take into account the situation of a rate declining between initial endorsement of the mortgage and approval of the increased mortgage amount.

The positive effect desired by the interim rule only applies in a mortgage market in which interest rates are increasing. Therefore, the final rule, in order to have the desired effect of making the funding of mortgage increases pos-

sible, is designed to apply in the mortgage market in which interest rates are either increasing or decreasing.

This final rule takes into account the fluctuations in the mortgage market so that the purpose of the interim rule to make mortgage increases possible will be accomplished.

The Department has determined that an Environmental Impact Statement is not required with respect to this rule. The Finding of Inapplicability is available for inspection at the Office of the Rules Docket Clerk, Office of the General Counsel, Room 10245, Department of Housing and Urban Development, 451 Seventh Street SW., Washington, D.C. 20410.

Accordingly, Subchapter B is amended to read as follows:

PART 205—MORTGAGE INSURANCE FOR LAND DEVELOPMENT

Subpart A—Eligibility Requirements

A new paragraph is added to the end of § 205.50 to read as follows:

§ 205.50 Maximum interest rate.

The amount of any increase approved by the Commissioner in the mortgage amount between initial and final endorsement in excess of that which the Commissioner had committed to insure at initial endorsement, shall bear interest at the rate agreed upon by the mortgagor and the mortgagee which rate shall not exceed the greater of: (a) the maximum interest rate established by the Secretary and in effect at the time the mortgage was initially endorsed, (b) the maximum interest rate established by the Secretary and in effect at the time the application for a mortgage increase was received by the Commissioner, or (c) the maximum interest rate established by the Secretary and in effect at the time the increase is approved by the Commissioner.

PART 207—MULTIFAMILY HOUSING MORTGAGE INSURANCE

Subpart A—Eligibility Requirements

A new paragraph (c) is added to § 207.7 to read as follows:

§ 207.7 Maximum interest rate.

(c) The amount of any increase approved by the Commissioner in the mortgage amount between initial and final endorsement in excess of that which the Commissioner had committed to insure at initial endorsement, shall bear interest at the rate agreed upon by the mortgagor and the mortgagee which rate shall not exceed the greater of: (1) the maximum interest rate established by the Secretary and in effect at the time the mortgage was initially endorsed, (2) the maximum interest rate established by the Secretary and in effect at the time the application for a mortgage increase was received by the Commissioner, or (3) the maximum interest rate established by the Secretary and in effect at the time the increase is approved by the Commissioner.

PART 213—COOPERATIVE HOUSING MORTGAGE INSURANCE**Subpart A—Eligibility Requirements—Projects**

A new paragraph (c) is added to § 213.10 to read as follows:

§ 213.10 Maximum interest rate.

(c) The amount of any increase approved by the Commissioner in the mortgage amount between initial and final endorsement in excess of that which the Commissioner had committed to insure at initial endorsement, shall bear interest at the rate agreed upon by the mortgagor and the mortgagee which rate shall not exceed the greater of: (1) the maximum interest rate established by the Secretary and in effect at the time the mortgage was initially endorsed, (2) the maximum interest rate established by the Secretary and in effect at the time the application for a mortgage increase was received by the Commissioner, or (3) the maximum interest rate established by the Secretary and in effect at the time the increase is approved by the Commissioner.

PART 220—URBAN RENEWAL MORTGAGE INSURANCE AND INSURED IMPROVEMENT LOANS**Subpart C—Eligibility Requirements—Projects**

A new paragraph (c) is added to § 220.576 to read as follows:

§ 220.576 Maximum interest rate.

(c) The amount of any increase approved by the Commissioner in the mortgage amount between initial and final endorsement in excess of that which the Commissioner had committed to insure at initial endorsement, shall bear interest at the rate agreed upon by the mortgagor and the mortgagee which rate shall not exceed the greater of: (1) the maximum interest rate established by the Secretary and in effect at the time the mortgage was initially endorsed, (2) the maximum interest rate established by the Secretary and in effect at the time the application for a mortgage increase was received by the Commissioner, or (3) the maximum interest rate established by the Secretary and in effect at the time the increase is approved by the Commissioner.

PART 221—LOW COST AND MODERATE INCOME MORTGAGE INSURANCE**Subpart C—Eligibility Requirements—Moderate Income Projects**

A new paragraph (c) is added to § 221.518 to read as follows:

§ 221.518 Maximum interest rate.

(c) The amount of any increase approved by the Commissioner in the mortgage amount between initial and final endorsement in excess of that which the Commissioner had committed to insure at initial endorsement, shall bear interest at the rate agreed upon by the mort-

gagor and the mortgagee which rate shall not exceed the greater of: (1) the maximum interest rate established by the Secretary and in effect at the time the mortgage was initially endorsed, (2) the maximum interest rate established by the Secretary and in effect at the time the application for a mortgage increase was received by the Commissioner, or (3) the maximum interest rate established by the Secretary and in effect at the time the increase is approved by the Commissioner.

PART 232—NURSING HOMES AND INTERMEDIATE CARE FACILITIES MORTGAGE INSURANCE**Subpart A—Eligibility Requirements**

A new paragraph (c) is added to § 232.29 to read as follows:

§ 232.29 Maximum interest rate.

(c) The amount of any increase approved by the Commissioner in the mortgage amount between initial and final endorsement in excess of that which the Commissioner had committed to insure at initial endorsement, shall bear interest at the rate agreed upon by the mortgagor and the mortgagee which rate shall not exceed the greater of: (1) the maximum interest rate established by the Secretary and in effect at the time the mortgage was initially endorsed, (2) the maximum interest rate established by the Secretary and in effect at the time the application for a mortgage increase was received by the Commissioner, or (3) the maximum interest rate established by the Secretary and in effect at the time the increase is approved by the Commissioner.

PART 235—MORTGAGE INSURANCE AND ASSISTANCE PAYMENTS FOR HOME OWNERSHIP AND PROJECT REHABILITATION**Subpart D—Eligibility Requirements—Rehabilitation Sales Projects**

A new paragraph is added to the end of § 235.540 to read as follows:

§ 235.540 Maximum interest rate.

The amount of any increase approved by the Commissioner in the mortgage amount between initial and final endorsement in excess of that which the Commissioner had committed to insure at initial endorsement, shall bear interest at the rate agreed upon by the mortgagor and the mortgagee which rate shall not exceed the greater of: (a) the maximum interest rate established by the Secretary and in effect at the time the mortgage was initially endorsed, (b) the maximum interest rate established by the Secretary and in effect at the time the application for a mortgage increase was received by the Commissioner, or (c) the maximum interest rate established by the Secretary and in effect at the time the increase is approved by the Commissioner.

PART 236—MORTGAGE INSURANCE AND INTEREST REDUCTION PAYMENTS FOR RENTAL PROJECTS**Subpart A—Eligibility Requirements for Mortgage Insurance**

A new paragraph is added at the end of § 236.15 to read as follows:

§ 236.15 Maximum interest rate.

The amount of any increase approved by the Commissioner in the mortgage amount between initial and final endorsement in excess of that which the Commissioner had committed to insure at initial endorsement, shall bear interest at the rate agreed upon by the mortgagor and the mortgagee which rate shall not exceed the greater of: (a) the maximum interest rate established by the Secretary and in effect at the time the mortgage was initially endorsed, (b) the maximum interest rate established by the Secretary and in effect at the time the application for a mortgage increase was received by the Commissioner, or (c) the maximum interest rate established by the Secretary and in effect at the time the increase is approved by the Commissioner.

PART 242—MORTGAGE INSURANCE FOR HOSPITALS**Subpart A—Eligibility Requirements**

A new paragraph is added to the end of § 242.33 to read as follows:

§ 242.33 Maximum interest rate.

The amount of any increase approved by the Commissioner in the mortgage amount between initial and final endorsement in excess of that which the Commissioner had committed to insure at initial endorsement, shall bear interest at the rate agreed upon by the mortgagor and the mortgagee which rate shall not exceed the greater of: (a) the maximum interest rate established by the Secretary and in effect at the time the mortgage was initially endorsed, (b) the maximum interest rate established by the Secretary and in effect at the time the application for a mortgage increase was received by the Commissioner, or (c) the maximum interest rate established by the Secretary and in effect at the time the increase is approved by the Commissioner.

PART 244—MORTGAGE INSURANCE FOR GROUP PRACTICE FACILITIES**Subpart A—Eligibility Requirements**

A new paragraph (c) is added to § 244.45 to read as follows:

§ 244.45 Maximum interest rate.

(c) The amount of any increase approved by the Commissioner in the mortgage amount between initial and final endorsement in excess of that which the Commissioner had committed to insure at initial endorsement, shall bear interest at the rate agreed upon by the mortgagor and the mortgagee which rate shall not exceed the greater of: (1) the maximum interest rate established by the Secretary

and in effect at the time the mortgage was initially endorsed, (2) the maximum interest rate established by the Secretary and in effect at the time the application for a mortgage increase was received by the Commissioner, or (3) the maximum interest rate established by the Secretary and in effect at the time the increase is approved by the Commissioner.

Effective date. These amendments are effective on December 15, 1975.

(Sec. 7(d) Department of Housing and Urban Development Act (42 U.S.C. 3535(d)).

It is hereby certified that the economic and inflationary impacts of this regulation have been carefully evaluated in accordance with OMB Circular A-107.

DAVID S. COOK,
Assistant Secretary for Housing
Production and Mortgage
Credit—Federal Housing Com-
missioner.

Title 25—Indians

CHAPTER I—BUREAU OF INDIAN AFFAIRS, DEPARTMENT OF THE INTERIOR
SUBCHAPTER U—ELECTRIC POWER SYSTEM

PART 233—SAN CARLOS INDIAN IRRIGATION PROJECT, ARIZONA
Revision and Rates

DECEMBER 5, 1975.

This notice is published in the exercise of rulemaking authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2. The authority to issue regulations is vested in the Secretary of the Interior by 5 U.S.C. 301 and sections 463 and 465 of the Revised Statutes (25 U.S.C. 2 and 9).

Beginning on page 42884 of the September 17, 1975, FEDERAL REGISTER (40 FR 42884), there was published a notice of proposed rulemaking to revise Part 233 of Subchapter U, Chapter I, Title 25 of the Code of Federal Regulations. The purpose of the proposed revision is to provide additional power revenue to meet the increased cost of purchased power and to meet the increased cost of operating and maintaining the power system. The revision was proposed pursuant to the authority contained in section 5 of the Act of June 7, 1924 (43 Stat. 475, 476), and the Act of March 7, 1928 (45 Stat. 200, 210).

The public was given until October 17, 1975, to submit written comments, suggestions, or objections regarding the proposed revision.

After consideration of all such relevant matter presented by interested persons, the revision as so proposed is hereby adopted with the following changes:

1. In paragraph (c) of § 233.51, the phrase, "\$4 per month" is changed to read "\$4.50 per month." This change was made to remedy a typographical error in the printing of proposed rates.

2. After the first sentence in section 233.53(a) the paragraph shall read: "The Project will own and operate the lighting system and provide normal lamp replacement. Other maintenance and repairs shall be made at customer's expense."

This change was made for the sake of clarity.

Effective date. These regulations shall become effective January 14, 1976. (Catalog of Federal Domestic Assistance Program No. 15.106, Indian Lands—Irrigation, Construction, Maintenance, Operation and Related Power Systems.)

MORRIS THOMPSON,
Commissioner of Indian Affairs.

AUTHORITY: The provisions of this Part 233 issued under Sec. 5, 43 Stat. 476, 45 Stat. 210, 211; 5 U.S.C. 301.

§ 233.1 Effective date; changes.

The regulations in this part are approved for the conduct of the electric power system of the San Carlos Project, Arizona, referred to in this part as the Project. The regulations in this part shall become effective with the first billings made after the first day of the second calendar month which begins after the date of publication in the FEDERAL REGISTER. The regulations in this part are subject to change by the proper authority and such changes shall apply to all contracts then and thereafter in effect.

§ 233.2 Authority of Project Engineer.

The Project Engineer is responsible for the operation of the electric power system and the enforcement of the regulations in this part. He is authorized to carry out and enforce the regulations either directly or through the Power Manager or other Project employees designated by him.

§ 233.3 Disputes.

Any aggrieved party may file with the Project Engineer a written complaint regarding the application of the regulations. Within fifteen days after its receipt, the Project Engineer shall render a written decision thereon and serve a

copy thereof on the aggrieved party. Within fifteen days from receipt of such decision, the aggrieved party may take an appeal to the Commissioner of Indian Affairs who shall render his decision within sixty days and his decision shall be final. Pending the determination of an appeal, electric service shall be continued, except in cases which the question of the existence of dangerous conditions on the premises of the consumer is involved, provided the consumer pays the amount of each bill for electric service prior to the time when it becomes delinquent. If the question of the amount of the bill is involved in an appeal, the consumer shall be deemed to have paid the bill under protest and the payment shall be held in a special deposit account until the final decision has been made.

§ 233.4 Applications; contracts.

In order to contract for the delivery of power, a written application for service under this part accompanied by the required cash deposit and guarantee of the required minimum revenues to the Project, shall be filed with the Project Engineer. Upon acceptance by him, the application will become a contract. In general, such application will be accepted where service lines exist. When special terms and conditions are involved in contracting for service, the Project Engineer shall require the execution of a form of contract in which such terms and conditions are fully set forth. Each contract involving the construction of a new extension shall be for a period of at least one year, but if the consumer vacates the premises, he shall be liable for the unpaid guaranteed revenue only to the extent that it is not liquidated by the succeeding occupant of the premises. The Project Engineer is authorized to reject applications which he deems to be adverse to the best interests of the Project.

§ 233.5 Deposits.

A cash deposit in an amount equal to twice the estimated monthly bill, but in no case less than \$30.00 will be required from each applicant. Any cash deposit, less the amount of any unpaid bills, shall be refunded after the termination of service. Before extensions are constructed each applicant must deposit an amount sufficient to cover his portion of the required minimum charges for a period of not less than one year, and must otherwise establish his credit and satisfy the Project Engineer of his intention to take service and his ability to meet the guarantee.

§ 233.6 Extensions.

(a) The length of an extension constructed at the expense of the Project shall not exceed the following:

In urban areas:	Feet
Single-phase extensions	----- 100
3-phase extensions	----- 80
In rural areas:	
Single-phase extensions	----- 330
3-phase extensions	----- 210

(b) The length of an extension shall include the horizontal length of both the primary and secondary circuits exclusive

of the service drops. Insofar as practicable, all extensions shall be constructed along established highways. The prospective consumer, or consumers, shall furnish or procure satisfactory rights-of-way necessary for the lines and other facilities of the Project incidental to the furnishing of service. The Project Engineer may decline to construct any extension which, in his opinion, will be excessive in cost, or detrimental to the best interest of the Project, or for which funds are not available.

§ 233.7 Installation or extension financed by consumer.

If funds, material or labor are not otherwise available for an installation or extension, or if an extension to a prospective consumer will require new construction beyond the distances specified in § 233.6, the consumer or prospective consumer may, after executing an appropriate contract satisfactory to the Project Engineer, construct the needed installation or extension, or deposit funds estimated to be sufficient to pay for the construction. Such installations or extensions shall be built in accordance approved by the Project Engineer. All extensions when constructed shall be and remain the property of the United States.

§ 233.8 Temporary service.

Temporary service refers to service to circuses, bazaars, fairs, construction works, and other activities or businesses of such a nature that service to the premises occupied by them will probably be discontinued within five months. An applicant for temporary service shall be required to deposit with the Project Engineer a sum of money equal to the estimated cost of installing and removing the necessary facilities and also an additional sum equal to the estimated bill for electrical service: *Provided, however*, That such additional sum need not be greater than three times the estimated monthly bill. After termination of service, there shall be refunded any amount remaining on deposit, in excess of the actual cost of installing and removing facilities, plus the unpaid amount of bills for electric power and energy, as determined by the Project Engineer.

§ 233.9 Type of service.

Service for lights and the usual domestic and other appliances, including motors of less than seven and one-half horsepower shall be single phase, nominally 115 or 230 volts and two or three wire, except when special approval for another type of service has been obtained from the Project Engineer. Three-phase service at suitable voltage may be furnished for motor installations of seven and one-half horsepower and over, provided a three-phase circuit of the required voltage and capacity is available where the service is desired. All service will be sixty cycle.

§ 233.10 Service connections.

On each new service the consumer shall provide and maintain a service entrance at a location convenient to the

lines of the project, and all connections from the service entrance to the meter base and from the meter base to the main line circuit breaker or distribution center. The meter will be furnished by the United States. The meter socket will be furnished and installed by the consumer and in a suitable location, preferably on the outside of the building, or service pole, where the meter will be accessible to the meter reader at all times. Except for underground service installations, the meter socket shall not be more than 7 feet nor less than 5 feet above the ground or floor. For underground service installations, the meter shall be mounted a minimum of 3 feet above the ground or floor. The entire service installation must be satisfactory to the project engineer and must conform to the provisions then in force of the National Electrical Code of the National Board of Fire Underwriters for Electric Wiring and Apparatus. When alterations of a consumer's premises make it necessary to move an existing meter loop, the consumer may be required to install a meter socket in the new loop, located in conformity with the stipulations of this section. When an inspection is required by municipal ordinance, the project engineer shall require a certificate of inspection and approval by the municipal inspector before connecting a new service.

§ 233.11 Connection methods.

Service to a consumer's premises will ordinarily be supplied by means of overhead conductors. A consumer may at his own expense provide for an underground service. Such a underground service must be installed in accordance with the provisions of the National Electrical Code and shall be terminated on the pole at a location and in the manner directed by the Project Engineer. No connection from the circuits of the Electrical Power System to a consumer's service entrance shall be made except by the Project or its agents.

§ 233.12 Multiple meter installations.

In the case of new installations in multiple-occupancy buildings such as apartment houses in connection with which more than one meter in a building is required, the meters shall be assembled at one central location. Each meter shall be clearly marked so as to make it possible to identify the consumer.

§ 233.13 Consumer responsibility.

The consumer shall furnish, install and maintain at his own risk and expense in good and safe condition all protective devices, electric wires, lines, machinery, apparatus, and appliances which may be required or used for receiving and consuming electric energy obtained from the Project. The consumer shall be responsible for conforming to the regulations of the National Board of Fire Underwriters and to any other regulations applicable to his installation.

§ 233.14 Change of equipment.

In the event that a consumer proposes to make any material change in the

amount, size or character of the electrical equipment installed on his premises, he shall immediately give written notice of his intention to the Project Engineer.

§ 233.15 Apparatus detrimental to service.

The Project Engineer may refuse to supply loads of a character detrimental to the system, or to service to other consumers, and he may require the installation of suitable corrective devices.

§ 233.16 Motor starting equipment.

Motors having a rated capacity of three horsepower or more shall be provided with such starting and overload equipment as may be required by the Project Engineer.

§ 233.17 Service discontinued.

The Project Engineer may discontinue electric service to any consumer who shall continue to use appliances or apparatus detrimental to the Electric Power System after he has been notified to correct the condition and has failed to do so within a reasonable time.

§ 233.18 Bills for service.

Meters will normally be read and bills for electric service will be rendered at regular intervals. Payments by consumers should be made in person or remitted by check or money order, payable to the order of the Treasurer of the United States, and mailed to the designated office of the Project.

§ 233.19 Special bills.

Special bills, removal bills, bills for temporary service, bills rendered when premises are vacated or bills rendered to persons discontinuing services are due on representation.

§ 233.20 Connect, reconnect, and accounting charges.

A nonrefundable service establishment fee of \$7.50 will be charged each time the Project is requested to establish or reestablish electric service to the customer's delivery point. The charge will be included in and rendered with the first month's bill for electricity after connection or reconnection service. An accounting charge of \$5 will be made when a check is returned unpaid by a bank because of insufficient funds or other reasons. This charge will be in addition to any other applicable charges and will appear on the next month's bill for electricity.

§ 233.21 Delinquent bills.

Bills for electric service will be delinquent if not paid on or before the tenth day following the date of issue of a bill showing arrears. When such delinquency occurs, the Project Engineer shall discontinue service and service shall not be restored until the consumer has paid all bills then due plus a reconnection charge of \$10.00 and had made the deposit required under § 233.5. Discontinuance of service for delinquency shall not relieve the consumer of liability for minimum monthly payments guaranteed by him under his contract.

§ 233.22 Discontinuance by consumer.

Notice of his desire to have service disconnected shall be given by the consumer at least two days in advance. In the absence of such notice the consumer will be held liable for payment of all electrical energy furnished to such vacated premises until service is discontinued. Final bills may be paid by application of the consumer's guarantee deposit to the extent that they are covered thereby. Any surplus remaining in the deposit will be returned to the consumer after the contract is terminated. Where the deposit is insufficient, the consumer will be billed for the difference which shall be immediately due and payable.

§ 233.23 Fraud; tampering.

Service shall be discontinued by any consumer, or to any premises at any time when, in the opinion of the Project Engineer, such action is necessary to protect against abuse, fraud, or theft. Tampering or in any way interfering with meters, transformers, poles, conductors, or any part of the property of the Project is prohibited and is subject to prosecution pursuant to law.

§ 233.24 Compensation of employees.

All employees are strictly forbidden to demand or accept any personal compensation for services rendered to a consumer, or any gratuity by reason of rendition of services.

§ 233.25 Hardship cases.

The Project Engineer may relax temporarily strict enforcement of a regulation when in his judgment such enforcement would work undue hardship upon a consumer, but all such cases shall be reported promptly to the Commissioner of Indian Affairs with an explanation by the Project Engineer of the reasons for taking such action. The Commissioner of Indian Affairs may cancel the action taken by the Project Engineer.

§ 233.26 Interruptions to service.

The United States will furnish energy continuously so far as reasonable diligence will permit. But the United States, its officers, agents or employees, assume no liability for damages due to interruptions of service to the consumer.

§ 233.27 Contingent upon appropriations.

All contracts are subject to appropriations made by Congress from year to year of monies sufficient to perform the work or render the service provided therein. No liability shall accrue against the United States by reason of the lack of appropriations.

§ 233.51 Rate Schedule No. 1—Residential Rate.

(a) *Application of Schedule.* This schedule is applicable to single phase or

three-phase service for residences and small, noncommercial users. Unless specifically permitted by the contract, use must be limited to the consumer's own premises and power supplied must not be resold. If more than one meter is required by the customer's installation or for the customer's convenience, bills will be independently calculated for each meter.

(b) *Monthly rate.* (1) \$4.50, which includes the use of 50 kilowatt hours.

(2) 5 cents per kilowatt for the next 100 kilowatt hours.

(3) 3 cents per kilowatt hour for the next 350 kilowatt hours.

(4) 1.5 cents per kilowatt hour for all additional kilowatt hours.

(c) *Minimum bill.* The minimum bill shall be \$4.50 per month except when a higher minimum bill is stipulated in the contract.

(d) *Fuel adjustment.* An adjustment shall be added to each KWH used equal to the estimated average fuel adjustment (rounded to the nearest \$.0001) paid by the Project to Project's power suppliers.

§ 233.52 Rate Schedule No. 2—General rate.

(a) *Application of schedule.* This schedule is applicable to single phase or three-phase electric service for all purposes except residences and small, noncommercial users. Unless specifically permitted by the contract, use must be limited to the consumer's premises and the power supplied must not be resold. If more than one meter is required by the customer's installation, or for the customer's convenience, bills will be independently calculated for each meter.

(b) *Monthly rate.* (1) First 50 kilowatt hours, four dollars and fifty cents.

(2) 5 cents per kilowatt hour for the next 350 kilowatt hours.

(3) 3 cents per kilowatt hour for the next 600 kilowatt hours.

(4) 1.6 cents per kilowatt hour for the next 9000 kilowatt hours.

(5) When use is 10,000 kilowatt hours or more: First 10,000 kilowatt hours \$184. Additional kilowatt hours at 1.6 cents per kilowatt hour.

(6) Less a credit of 0.3 cents per kilowatt hour for each kilowatt hour above 200 times the billing demand (50 KW min).

(c) *Minimum bill.* The minimum bill shall be \$1.00 per month per kilowatt of billing demand, except where the customer's requirements are of a distinctly recurring seasonal nature. Then the minimum monthly bill shall not be more than an amount sufficient to make the total charges for the twelve (12) months ending with the current month, equal to twelve times the highest monthly minimum computed for the same twelve month period. However, no monthly billing shall be less than \$4.50.

(d) *Contract demand.* Each contract for 50 KW or over shall state the number of kilowatts which the customer expects to require and desires to have reserved for his service. This quantity is called the contract demand.

(e) *Actual demand.* The actual demand for any month shall be the average amount of power used during the period of 15 consecutive minutes when such average is the greatest for the month as determined by suitable meters, or, if meters are unavailable, the actual demand shall be connected load or such portion of the connected load as the Project Engineer may determine to be appropriate based on available information as to the customer's use of connected lights, appliances, and equipment, or from check metering.

(f) *Billing demand.* The billing demand for a month shall be the contract demand or the actual demand for the month, whichever is greater.

(g) *Fuel adjustment.* An adjustment shall be added to each KWH used equal to the estimated average fuel adjustment (rounded to the nearest \$.0001) paid by the Project to Project's power suppliers.

§ 233.53 Rate Schedule No. 3—Street and Area Lighting.

(a) *Application.* This rate schedule applies to service for yard lighting, lighting streets, alleys, thoroughfares, parks, schoolyards, industrial areas, parking lots, and similar areas where dusk-to-dawn service is desired. The Project will own and operate the lighting system and provide normal lamp replacement. Other maintenance and repairs shall be made at customer's expense.

(b) *Monthly rate.* (1) Lamps:

	Each		
	1	2 to 5	5 or more
200 watts or less, incandescent (2,500 lumens or less).....	3	3.00	3
175 watts mercury vapor (approximately 6,500 lumens).....	5	4.50	4
250 watts mercury vapor (approximately 10,000 lumens).....	6	5.50	5
400 watts mercury vapor (approximately 18,000 lumens).....	8	7.00	6

The minimum term of a service contract will be 12 months, payable in advance. The advance payment may be waived in special cases by the Project Engineer. Installation charges, the cost of wood poles or special steel, aluminum,

or other supports, special fixtures, and the cost of underground service, will be charged as determined by the Project Engineer.

Title 29—Labor

CHAPTER V—WAGE AND HOUR DIVISION, DEPARTMENT OF LABOR

PART 602—THE LEATHER, LEATHER GOODS AND RELATED PRODUCTS INDUSTRY IN PUERTO RICO

Wage Order

Pursuant to sections 5, 6, and 8 of the Fair Labor Standards Act of 1938 (52 Stat. 1062, 1064, as amended (29 U.S.C. 205, 206, 208)), including the Fair Labor Standards Amendments of 1974 (Pub. L. 93-259; 84 Stat. 35), and Reorganization Plan No. 6 of 1950 (3 CFR 1949-53 Comp., p. 1004), and by means of Administrative Order No. 638 (40 F.R. 18519), the Secretary of Labor appointed and convened Industry Committee No. 127-C for the Leather, Leather Goods and Related Products Industry in Puerto Rico, referred to the Committee the question of the minimum rate or rates of wages to be paid under sections 6 (a), (b) and (c) of the Act to such employees, and gave notice of a hearing to be held by the Committee.

Subsequent to an investigation and a hearing conducted pursuant to the notice, the Committee has filed with the Administrator of the Wage and Hour Division of the Department of Labor a report containing its findings of fact and recommendations with respect to the matters referred to it.

Accordingly, as authorized and required by section 8 of the Fair Labor Standards Act of 1938, Reorganization Plan No. 6 of 1950, and 29 CFR 511.18, the recommendations of Industry Committee No. 127-C are hereby published, revising §§ 602.1 and 602.2 of Part 602, Title 29, Code of Federal Regulations. The increases in future wage rates prescribed by section 6(c) of the 1974 Fair Labor Standards Amendments are set forth in this wage order.

As revised, §§ 602.1 and 602.2 read as follows:

§ 602.1 Definition.

The Leather, Leather Goods and Related Products Industry in Puerto Rico

is defined as follows: (a) The curing, tanning, or other processing of hides, skins, leather, or furs, and the manufacture of products therefrom; the manufacture from artificial leather, fabric, plastics, paper or paperboard, or similar materials of trunks, suitcases, brief cases, wallets, billfolds, coin purses, card cases, key cases, cigarette cases, watch straps, pouches, tie cases, toilet kits, checkbook covers, sport and athletic gloves and mittens, belts (except fabric belts), and like articles; and the manufacture of baseballs, softballs, footballs and basketballs covered with leather, artificial leather, fabric, plastics, or similar materials: *Provided, however*, That the industry shall not include any product or activity included in the jewelry and miscellaneous products manufacturing industry; the women's outerwear, needlework, and miscellaneous fabricated textile products industry; the rubber footwear industry; the non-rubber footwear industry; the gloves and mittens industry; or the rubber and fabricated plastic products industry, as defined in the wage orders for those industries in Puerto Rico.

§ 602.2 Wage rates.

Wages at rates not less than those prescribed in this section shall be paid under section 6(c) of the Fair Labor Standards Act of 1938 by every employer to each of his employees in each of the classifications in the industry who in any workweek is engaged in commerce or in the production of goods for commerce or is employed in an enterprise engaged in commerce or in the production of goods for commerce as those terms are defined in section 3 of the Act.

(a) *Pre-1961 coverage classifications*: The classifications in this paragraph (a) apply to all activities in the industry to which Section 6 of the Act would have applied prior to the Fair Labor Standards Amendments of 1961.

(1) *Hide curing classification*. (i) The minimum wage for this classification is \$1.975 an hour effective until April 30, 1976. Under section 6(c) the rate will be increased by \$0.15 an hour on May 1, 1976 and on May 1 of each subsequent year until the mainland rate is reached (section 6(c) (2)).

(ii) This classification is defined as the salting and other curing of hides and skins and operations incidental thereto, except when such operations are performed as an integral and continuous part of leather tanning.

(2) *Belts classification*. (1) The minimum wage for this classification is \$1.975 an hour effective until April 30, 1976. Under section 6(c) the rate will be increased by \$0.15 an hour on May 1, 1976 and on May 1 of each subsequent year until the mainland rate is reached (section 6(c) (2)).

(ii) This classification is defined as the manufacture of apparel belts made of leather, artificial leather, plastics, paper or paperboard, or similar materials (except fabric).

(3) *Baseballs and softballs classification*. (i) The minimum wage for this classification is \$1.825 an hour effective

until April 30, 1976. Under section 6(c) the rate will be increased by \$0.15 an hour on May 1, 1976 and on May 1 of each subsequent year until the mainland rate is reached (section 6(c) (2)).

(ii) This classification is defined as the manufacture of baseballs and softballs covered with leather, artificial leather, fabric, plastics or similar materials.

(4) *Sporting and athletic goods*. (1) The minimum wage for this classification is \$1.865 an hour effective until April 30, 1976. Under section 6(c) the rate will be increased by \$0.15 an hour on May 1, 1976 and on May 1 of each subsequent year until the mainland rate is reached (section 6(c) (2)).

(ii) This classification is defined as the manufacture of sporting and athletic goods other than baseballs and softballs.

(5) *Other products and activities classification*. (1) The minimum wage for this classification is \$1.80 an hour effective until April 30, 1976. Under section 6(c) the rate will be increased by \$0.15 an hour on May 1, 1976 and on May 1 of each subsequent year until the mainland rate is reached (section 6(c) (2)).

(ii) This classification is defined as the manufacture of all products and activities not included in any other pre-1961 coverage classification in the industry.

(b) *1961 coverage classification*. (1) The minimum wage for this classification is \$2.00 an hour effective until April 30, 1976. Under section 6(c) the rate will be increased by \$0.15 an hour on May 1, 1976, and on May 1 of each subsequent year until the mainland rate is reached (section 6(c) (2)).

(2) This classification is defined as all activities in the industry which were brought within the purview of Section 6 of the Act solely by reason of the Fair Labor Standards Amendments of 1961.

(c) *1966 coverage classification*. (1) The minimum wage for this classification is \$1.975 an hour effective until April 30, 1976. Under section 6(c) the rate will be increased by \$0.15 an hour on May 1, 1976 and on May 1 of each subsequent year until the mainland rate is reached (section 6(c) (2)).

(2) This classification is defined as all activities in the industry to which Section 6 of the Act applies solely by reason of the Fair Labor Standards Amendments of 1966.

(Secs. 5, 6, 8, 52 Stat. 1062 and 1064, as amended; 29 U.S.C. 205, 206, 208).

Effective date. The effective date of this revision is December 31, 1975.

Signed at Washington, D.C. this 10th day of December, 1975.

PART 603—THE GLOVES AND MITTENS INDUSTRY IN PUERTO RICO

Wage Order

Pursuant to sections 5, 6, and 8 of the Fair Labor Standards Act of 1938 (52

Stat. 1062, 1064, as amended (29 U.S.C. 205, 206, 208)), including the Fair Labor Standards Amendments of 1974 (Pub. L. 93-259; 84 Stat. 35), and Reorganization Plan No. 6 of 1950 (3 CFR 1949-53 Comp., p. 1004), and by means of Administrative Order No. 638 (40 F.R. 18519), the Secretary of Labor appointed and convened Industry Committee No. 127-D for the Gloves and Mittens Industry in Puerto Rico, referred to the Committee the question of the minimum rate or rates of wages to be paid under sections 6 (a), (b) and (c) of the Act to such employees, and gave notice of a hearing to be held by the Committee.

Subsequent to an investigation and a hearing conducted pursuant to the notice, the Committee has filed with the Administrator of the Wage and Hour Division of the Department of Labor a report containing its findings of fact and recommendations with respect to the matters referred to it.

Accordingly, as authorized and required by section 8 of the Fair Labor Standards Act of 1938, Reorganization Plan No. 6 of 1950, and 29 CFR 511.18, the recommendations of Industry Committee No. 127-D are hereby published, revising § 603.2 of Part 603, Title 29, Code of Federal Regulations. The increases in future wage rates prescribed by section 6 (c) of the 1974 Fair Labor Standards Amendments are set forth in this wage order.

As revised, § 603.2 reads as follows:

§ 603.2 Wage rates.

Wages at rates not less than those prescribed in this section shall be paid under section 6(c) of the Fair Labor Standards Act of 1938 by every employer to each of his employees in each of the classifications in the industry who in any workweek is engaged in commerce or in the production of goods for commerce or is employed in an enterprise engaged in commerce or in the production of goods for commerce as those terms are defined in section 3 of the Act.

(a) *Pre-1961 coverage classifications:* The classifications in this paragraph (a) apply to all activities in the industry to which Section 6 of the Act would have applied prior to the Fair Labor Standards Amendments of 1961.

(1) *Hand-sewing on fabric and leather gloves classification.* (i) The minimum wage for this classification is \$1.32 an hour effective until December 31, 1975. Under section 6(c) the rate will be increased to \$1.38 an hour on January 1, 1976, by \$0.12 an hour on May 1, 1976 and by \$0.15 an hour on May 1, 1977 and on May 1 of each subsequent year until the mainland rate is reached (sections 6(c) (2) and 6(c) (3)).

(ii) This classification is defined as the operations of hand-sewing, hand-embroidering, hand-embellishing, ornamental hand-stitching, hand-drawing of threads, and similar hand operations involving decorative effects on fabric and leather gloves (gloves or mittens manufactured from woven or knitted fabric or leather or from leather in combination

with other material), except mending, repairing, sewing of labels, tacking, and similar operations on fabric or leather gloves that are wholly or chiefly machine-sewn.

(2) *Other products and activities classification.* (i) The minimum wage for this classification is \$1.91 an hour effective until April 30, 1976. Under section 6(c) the rate will be increased by \$0.15 an hour on May 1, 1976 and on May 1 of each subsequent year until the mainland rate is reached (section 6(c) (2)).

(ii) This classification is defined as all products and activities not included in the other pre-1961 coverage classification.

(b) *1961 coverage classification.* (1) The minimum wage for this classification is \$1.91 an hour effective until April 30, 1976. Under section 6(c) the rate will be increased by \$0.15 an hour on May 1, 1976 and on May 1 of each subsequent year until the mainland rate is reached (section 6(c) (2)).

(2) This classification is defined as all activities of employees covered by Section 6 of the Act only by reason of the Fair Labor Standards Amendments of 1961.

(c) *1966 coverage classification.* (1) The minimum wage for this classification is \$1.91 an hour effective until April 30, 1976. Under section 6(c) the rate will be increased by \$0.15 an hour on May 1, 1976 and on May 1 of each subsequent year until the mainland rate is reached (section 6(c) (2)).

(2) This classification is defined as all activities of employees covered by section 6 of the Act only by reason of the Fair Labor Standards Amendments of 1966.

(Secs. 5, 6, 8, 52 Stat. 1062 and 1064, as amended; 29 U.S.C. 205, 206, 208).

Effective date. This revision is effective December 31, 1975.

**PART 608—THE HANDKERCHIEF, SCARF,
AND ART LINEN INDUSTRY IN PUERTO
RICO**

Wage Order

Pursuant to sections 5, 6, and 8 of the Fair Labor Standards Act of 1938 (52 Stat. 1062, 1064, as amended (29 U.S.C. 205, 206, 208)), including the Fair Labor Standards Amendments of 1974 (Pub. L. 93-259; 84 Stat. 35), and Reorganization Plan No. 6 of 1950 (3 CFR 1949-53 Comp., p. 1004), and by means of Administrative Order No. 638 (40 FR 18519), the Secretary of Labor appointed and convened Industry Committee No. 128-B for the Handkerchief, Scarf, and Art Linen Industry in Puerto Rico, referred to the Committee the question of the minimum rate or rates of wages to be paid under sections 6 (a), (b) and (c)

of the Act to such employees, and gave notice of a hearing to be held by the Committee.

Subsequent to an investigation and a hearing conducted pursuant to the notice, the Committee has filed with the Administrator of the Wage and Hour Division of the Department of Labor a report containing its findings of fact and recommendations with respect to the matters referred to it.

Accordingly, as authorized and required by section 8 of the Fair Labor Standards Act of 1938, Reorganization Plan No. 6 of 1950, and 29 CFR 511.18, the recommendations of Industry Committee No. 128-B are hereby published, revising § 608.2 of Part 608, Title 29, Code of Federal Regulations. The increases in future wage rates prescribed by sections 6 (a), (b) and (c) of the 1974 Fair Labor Standards Amendments are set forth in this wage order.

As revised, § 608.2 reads as follows:

§ 608.2 Wage rates.

Wages at rates not less than those prescribed in this section shall be paid under section 6(c) of the Fair Labor Standards Act of 1938 by every employer to each of his employees in each of the classifications in the industry who in any work-week is engaged in commerce or in production of goods for commerce or is employed in an enterprise engaged in commerce or in the production of goods for commerce as those terms are defined in section 3 of the Act.

(a) *Pre-1961 coverage classifications:* The classifications for which pre-1961 coverage apply to all activities in the industry to which section 6 of the Fair Labor Standards Act would have applied prior to the Fair Labor Standards Amendments of 1961.

(1) *Oblong scarves classification:* (i) The minimum wage for this classification is \$2.00 an hour for the period ending April 30, 1976. Under section 6(c) the rate will be increased by \$0.15 an hour on May 1, 1976 and on May 1, of each subsequent year until the mainland rate is reached (section 6(c) (2)).

(ii) This classification is defined as all work in the handkerchief, scarf, and art linen industry in Puerto Rico on oblong scarves.

(2) *Other products and activities classification:* (i) The minimum wage for this classification is \$1.40 an hour for the period ending April 30, 1976. Under section 6(c) the rate will be increased by \$0.15 an hour on May 1, 1976 and on May 1 of each subsequent year until the mainland rate is reached (section 6(c) (2)).

(ii) This classification is defined as all products and activities not included in the oblong scarves classification of pre-1961 coverage.

(b) *1961 coverage classification.* (1) The minimum wage for this classification is \$2.10 an hour for the period ending December 31, 1975. Since the mainland rate has been attained, the rate specified in section 6(a) (1) now applies, namely, \$2.30 an hour after December 31, 1975 (section 6(c) (5)):

(c) 1966 coverage classification. (1) The minimum wage for this classification is \$2.00 an hour for the period ending December 31, 1975. Since the mainland rate has been attained, the rates specified in section 6(b) now apply, namely, \$2.20 an hour during the year ending December 31, 1976; and \$2.30 an hour thereafter (section 6(c) (5)).

(Secs. 5, 6, 8, 52 Stat. 1062 and 1064, as amended; 29 U.S.C. 205, 206, 208).

Effective date. This revision is effective December 31, 1975.

Signed at Washington, D.C. this 10th day of December, 1975.

PART 609—THE WOMEN'S AND CHILDREN'S UNDERWEAR AND WOMEN'S BLOUSE INDUSTRY IN PUERTO RICO

Wage Order

Pursuant to sections 5, 6, and 8 of the Fair Labor Standards Act of 1938 (52 Stat. 1062, 1064, as amended (29 U.S.C. 205, 206, 208)), including the Fair Labor Standards Amendments of 1974 (Pub. L. 93-259; 84 Stat. 35), and Reorganization Plan No. 6 of 1950 (3 CFR 1949-53 Comp., p. 1004), and by means of Administrative Order Nos. 638 (40 FR. 18519) and 639 (40 FR. 40537), the Secretary of Labor appointed and convened Industry Committee No. 128-A for the Women's and Children's Underwear and Women's Blouse Industry in Puerto Rico, referred to the Committee the question of the minimum rate or rates of wages to be paid under section 6 (a), (b) and (c) of the Act to such employees, and gave notice of a hearing to be held by the Committee.

Subsequent to an investigation and hearing conducted pursuant to notice, the Committee has filed with the Administrator of the Wage and Hour Division of the Department of Labor a report containing its findings of fact and recommendations with respect to the matters referred to it.

Accordingly, as authorized and required by section 8 of the Fair Labor Standards Act of 1938, Reorganization Plan No. 6 of 1950, and 29 CFR 511.18, the recommendations of Industry Committee No. 128-A are hereby published, revising § 609.2 of Part 609 Title 29, Code of Federal Regulations. The increases in future wage rates prescribed by sections 6 (a), (b) and (c) of the 1974 Fair Labor Standards Amendments are set forth in this wage order.

As revised, § 609.2 reads as follows:

§ 609.2 Wage rates.

Wages at rates not less than those prescribed in this section shall be paid under section 6(c) of the Fair Labor Standards Act of 1938 by every employer to each of his employees in each of the classifica-

tions in the industry who in any workweek is engaged in commerce or in the production of goods for commerce or is employed in an enterprise engaged in commerce or in the production of goods for commerce as those terms are defined in section 3 of the Act.

(a) Pre-1961 coverage classification. (1) The minimum rate for this classification is \$1.84 an hour for the period ending April 30, 1976. Under section 6(c) the rate will be increased by \$0.15 an hour on May 1, 1976 and on May 1 of each subsequent year until the mainland rate is reached (section 6(c) (2)).

(b) 1961 coverage classification. (1) The minimum wage for this classification is \$2.10 an hour for the period ending December 31, 1975. Since the mainland rate has been attained, the rate specified in section 6(a) (1) now applies, namely, \$2.30 an hour after December 31, 1975 (section 6(c) (5)).

(c) 1966 coverage classification. (1) The minimum wage for this classification is \$2.00 an hour for the period ending December 31, 1975. Since the mainland rate has been attained, the rates specified in section 6(b) now apply, namely, \$2.20 an hour during the year ending December 31, 1976; and \$2.30 an hour thereafter (section 6(c) (5)).

PART 615—THE MEN'S AND BOYS' CLOTHING AND RELATED PRODUCTS INDUSTRY IN PUERTO RICO

Wage Order

Pursuant to sections 5, 6, and 8 of the Fair Labor Standards Act of 1938 (52 Stat. 1062, 1064, as amended (29 U.S.C. 205, 206, 208)), including the Fair Labor Standards Amendments of 1974 (Pub. L. 93-259; 84 Stat. 35), and Reorganization Plan No. 6 of 1950 (3 CFR 1949-53 Comp., p. 1004), and by means of Administrative Order No. 638 (40 F.R. 18519), the

Secretary of Labor appointed and convened Industry Committee No. 127-A for the Men's and Boys' Clothing and Related Products Industry in Puerto Rico, referred to the Committee the question of the minimum rate or rates of wages to be paid under sections 6 (a), (b) and (c) of the Act to such employees, and gave notice of a hearing to be held by the Committee.

Subsequent to an investigation and a hearing conducted pursuant to the notice, the Committee has filed with the Administrator of the Wage and Hour Division of the Department of Labor a report containing its findings of fact and recommendations with respect to the matters referred to it.

Accordingly, as authorized and required by section 8 of the Fair Labor Standards Act of 1938, Reorganization Plan No. 6 of 1950, and 29 CFR 511.18, the recommendations of Industry Committee No. 127-A are hereby published, revising §§ 615.1 and 615.2 of Part 615, Title 29, Code of Federal Regulations. The increases in future wage rates prescribed by section 6(c) of the 1974 Fair Labor Standards Amendments are set forth in this wage order.

As revised, §§ 615.1 and 615.2 read as follows:

§ 615.1 Definition.

The Men's and Boys' Clothing and Related Products Industry in Puerto Rico is defined as follows:

The manufacture from any material of men's and boys' clothing, furnishings, accessories, and related products: *Provided, however,* That the industry shall not include the manufacture of handle made straw hats, gloves, hosiery, footwear, belts (except fabric), sweaters, handkerchiefs, scarves, mufflers, or any product or activity included in the children's dress and related products industry in Puerto Rico; the military hats and caps industry in Puerto Rico; or in the women's and children's underwear and women's blouse industry in Puerto Rico.

§ 615.2 Wage rates.

Wages at rates not less than those prescribed in this section shall be paid under section 6(c) of the Fair Labor Standards Act of 1938 by every employer to each of his employees in each of the classifications in the industry who in any work-week is engaged in commerce or in the production of goods for commerce or is employed in an enterprise engaged in commerce or in the production of goods for commerce as those terms are defined in section 3 of the Act.

(a) *Pre-1961 coverage classifications:*

The classifications in this paragraph (a) apply to all activities in the industry to which Section 6 of the Act would have applied prior to the Fair Labor Standards Amendments of 1961.

(1) *Work clothing and separate trousers classification.* (i) The minimum wage for this classification is \$1.92 an hour effective until April 30, 1976. Under section 6(c) the rate will be increased

Subsequent to an investigation and a hearing conducted pursuant to the notice, the Committee has filed with the Administrator of the Wage and Hour Division of the Department of Labor a report containing its findings of fact and recommendations with respect to the matters referred to it.

Accordingly, as authorized and required by section 8 of the Fair Labor Standards Act of 1938, Reorganization Plan No. 6 of 1950, and 29 CFR 511.18, the recommendations of Industry Committee No. 127-B are hereby published, revising §§ 687.1 and 687.2 of Part 687, Title 29, Code of Federal Regulations. The increases in future wage rates prescribed by section 6(c) of the 1974 Fair Labor Standards Amendments are set forth in this wage order.

As revised, §§ 687.1 and 687.2 read as follows:

§ 687.1 Definition.

The Hosiery Industry in Puerto Rico is defined as follows: (a) The manufacture and processing of hosiery, including, among other processes, the knitting, seaming, looping, dyeing, clocking, and all phases of finishing hosiery, but not including the manufacture or processing of yarn or thread.

§ 687.2 Wage rates.

Wages at rates not less than those prescribed in this section shall be paid under section 6(c) of the Fair Labor Standards Act of 1938 by every employer to each of his employees in each of the classifications in the industry who in any workweek is engaged in commerce or in the production of goods for commerce or is employed in an enterprise engaged in commerce or in the production of goods for commerce as those terms are defined in section 3 of the Act.

(a) *Pre-1966 coverage classifications.* The classifications in this paragraph (a) apply to all activities in the industry to which section 6 of the Act would have applied prior to the Fair Labor Standards Amendments of 1966.

(1) *Women's hosiery classification.* (i) The minimum wage for this classification is \$1.88 an hour for the period ending April 30, 1976. Under section 6(c) the rate will be increased by \$0.15 an hour on May 1, 1976 and on May 1 of each subsequent year until the mainland rate is reached (section 6(c) (2)).

(ii) This classification is defined as the manufacture and processing of women's hosiery, both seamless and full-fashioned, including among other processes knitting, seaming, looping, dyeing, clocking, and all phases of finishing.

(2) *Other hosiery classification.* (i) The minimum wage for this classification is \$1.67 an hour for the period ending April 30, 1976. Under section 6(c) the rate will be increased by \$0.15 an hour on May 1, 1976 and on May 1 of each subsequent year until the mainland rate is reached (section 6(c) (2)).

(ii) This classification is defined as the manufacture of all other hosiery, including men's and children's hosiery and women's socks, and involving such processes as knitting, seaming, looping, dyeing, clocking, and all phases of finishing.

(b) *1966 coverage classifications.* The classifications in this paragraph (b) apply only to those activities in the industry to which section 6 of the Act applies solely by reason of the Fair Labor Standards Amendments of 1966.

(1) *Women's hosiery classification.* (i) The minimum wage for this classification is \$1.88 an hour for the period ending April 30, 1976. Under section 6(c) the rate will be increased by \$0.15 an hour on May 1, 1976 and on May 1 of each subsequent year until the mainland rate is reached (section 6(c) (2)).

(ii) This classification is defined as the manufacture and processing of women's hosiery, both seamless and full-fashioned, including among other processes knitting, seaming, looping, dyeing, clocking, and all phases of finishing.

(2) *Other hosiery classification.* (i) The minimum wage for this classification is \$1.695 an hour for the period ending April 30, 1976. Under section 6(c) the rate will be increased by \$0.15 an hour on May 1, 1976 and on May 1 of each subsequent year until the mainland rate is reached (section 6(c) (2)).

(ii) This classification is defined as all activities in the hosiery industry, except those activities included in the women's hosiery classification.

(Secs. 5, 6, 8, 52 Stat. 1062 and 1064, as amended; 29 U.S.C. 205, 206, 208).

Effective date. This revision is effective December 31, 1975.

Southerly 13,200.0 feet, along shore of Chiniak Bay at mean high tide to Corner No. 4 of U.S. Survey No. 1674; north 1,585.32 feet along east boundary of U.S. Survey No. 1674 to Corner No. 5 thereof; west 242.22 feet, along north boundary of U.S. Survey No. 1674 to Corner No. 6 thereof; N. 37°45' E., 1,267.0 feet, along southeast boundary of U.S. Survey No. 626; N. 52°15' W., 3,007.6 feet; N. 37°45' E., 3,285.0 feet to point of beginning; containing 728 acres.

TRACT 2

A right-of-way 100 feet wide for an access roadway the centerline of which is described as follows:

Beginning at a point on the west boundary of the tract above described, from which Corner No. 15 of U.S. Survey No. 626 bears N. 37°45' E., 3,065.0 feet, thence by metes and bounds: N. 47°52' W., 285.0 feet; S. 60°15' W., 213.8 feet; S. 89°59' W., 158.8 feet; S. 89°25' W., 201.8 feet; S. 76°13' W., 459.8 feet; S. 74°33' W., 493.8 feet; N. 48°47' W., 144.8 feet; N. 31°09' W., 166.8 feet; N. 66°14' W., 84.8 feet; N. 10°12' E., 201.8 feet; N. 01°30' E., 368.8 feet; N. 66°58' W., 663.8 feet; N. 35°07' W., 214.8 feet; N. 27°33' E., 275.0 feet; to a point near the east end of the board walk to the dock on the shore of St. Paul Harbor, containing 9 acres.

2. By virtue of the authority vested in the Secretary of the Interior by section 22(h) (4) of the Act, the Secretary has determined that none of the lands described in paragraph 1 which are within 2 miles of the city of Kodiak are subject to selection by any Native village or regional corporation under any provisions of said Act because of their location within 2 miles of the boundary of the city limits of Kodiak, as set forth in section 22(1) of the Act, and any withdrawals of the lands for such selection are hereby terminated.

3. Public Land Order No. 5353 of July 17, 1973, which withdrew lands pending determination of the eligibility of the village of Woody Island, is hereby revoked as to the lands described in paragraph 1 of this order, which are within 2 miles of the city of Kodiak.

4. All of the lands described in paragraph 1 which are within 2 miles of the city of Kodiak are hereby made available for withdrawal by the Secretary for possible selection by the Natives of Kodiak in accordance with section 14(h) of the Act and regulations 43 CFR 2650.6 and 2653.7.

5. The lands described in paragraph 1 which are within 2 miles of the city of Kodiak are withdrawn by Public Land Order No. 5180, as amended, for classification and protection of the public interest. All of the lands described in paragraph 1 which are outside of a line 2 miles from the boundary of the city of

Kodiak are within the section 11(a) withdrawal for the village of Woody Island.

6. Prior to any conveyance of the lands described in paragraph 1, the lands shall be subject to administration by the Secretary of the Interior under the applicable laws and regulations, and his authority to make contracts and to grant leases, permits, rights-of-way or easements shall not be impaired by this order. Applications for leases under the Mineral Leasing Act, as amended, 30 U.S.C. 181-287 (1970) will be rejected until this order is modified or the lands are appropriately classified to permit mineral leasing.

Containing approximately 1,410 acres.

2. By virtue of the authority vested in the Secretary of the Interior by section 22(h) (4) of the Act, and in reliance upon a resolution filed by the Teller Native Corporation, relinquishing any right to select the lands described in paragraph 1, the withdrawal under section 11(a) (1) of the Act for the village of Teller is hereby terminated as to the lands described in paragraph 1 of this order.

3. The purpose of this order is to delete certain lands from the section 11(a) (1) withdrawal for the village of Teller and add those lands to the deficiency withdrawal for the village of King Island.

4. Prior to any conveyance of the lands described in paragraph 1 of this order, the lands shall be subject to administration by the Secretary of the Interior under the applicable laws and regulations, and his authority to make contracts, to grant leases, permits, rights-of-way, or easements shall not be impaired by this order. Applications for leases under the Mineral Leasing Act, as amended, 30 U.S.C. 181-287 (1970), will be rejected until this order is modified or the lands are appropriately classified to permit mineral leasing.

JACK O. HORTON,
Assistant Secretary of the Interior.

CHAPTER IV—FEDERAL MARITIME COMMISSION

[No. 72-41]

PART 551—TRUCK DETENTION AT THE PORT OF NEW YORK

Postponement of Effective Date

Final rules in this proceeding adopting General Order 35 were published in the FEDERAL REGISTER November 10, 1975 (40 FR 52385) to be effective December 10, 1975. Counsel for the New York Terminal Conference and the NYSA-ILA Contract Board have now requested a 180-day extension of the effective date, citing difficulties involved in amending tariffs to conform to the new rules and the need to educate personnel of those affected by the rules. Counsel for Middle Atlantic Conference oppose the requests.

We are of the opinion that additional time to comply with the rules is needed, but are confident such compliance will not require the full six months requested. Accordingly, it is ordered that the final rules in this proceeding shall be effective April 8, 1976. Tariffs required to be filed by these rules shall be filed sufficiently in advance of the effective date to meet applicable notice requirements.

By the Commission.

FRANCIS C. HURNEX,
Secretary.

Title 47—Telecommunication
**CHAPTER I—FEDERAL
 COMMUNICATIONS COMMISSION**

[Docket No. 20467; RM-2403]

PART 73—RADIO BROADCAST SERVICES

**FM Broadcast Stations; Table of
 Assignments; Green Bay, Wis.**

1. The Commission now considers the substitution of FM Channel 253 for FM Channel 252A at Green Bay, Wisconsin, and modification of the license of Green Bay Broadcasting Company ("WDUZ") to specify operation on Channel 253 in place of Channel 252A, as proposed in the Notice, 40 Fed. Reg. 20651, adopted herein on April 29, 1975. WDUZ, petitioner in this proceeding and licensee of WDUZ(AM) and WDUZ-FM at Green Bay, commented in support of the proposal. No one else has commented, nor has anyone objected to the proposal.

2. Green Bay (pop. 87,809), seat of Brown County (pop. 158,244), now has three full-time AM stations, a Class A FM station licensed to petitioner, and a Class C FM station licensed to one of the other AM licensees. It is a major city engaged in paper manufacturing, food processing, agricultural trading, and shipping.

3. FM Channel 253 was assigned to Green Bay in our original FM Table of Assignments,¹ but was later removed and replaced by Channel 252A because mileage separation limits required 253 to be located 38 miles from Green Bay.² Present assignments and other circumstances now permit a Channel 253 transmitter to be located as close as 12 miles to Green Bay. WDUZ asserts that restoration of Channel 253 to Green Bay will eliminate the intermixture of Class C and Class A stations at Green Bay which operate on the two channels assigned there. Furthermore, WDUZ comments that a new service would be provided to substantial areas.

4. WDUZ complied with our request for new *Roanoke Rapids* and *Anamosa*³ showings using the site specified in its supplemental petition. Based on a 100 kW station with an antenna 500 feet above average terrain, WDUZ shows no first FM service, but a second FM service to 612 persons in an area of 31 square miles. This would also be the second full-time aural service to this area, which now receives only a religious format FM station from Suring, Wisconsin. WDUZ states that upgrading its present facility from Class A to Class C will increase its signal to serve an additional 3,434 miles in which 276,962 persons reside.

5. As discussed in the Notice, the proposal does not have a significant effect on future channel assignments for surrounding communities because of the ample number of channels that are

available. Adoption of the proposal would not require any other changes in the Table of Assignments.

6. We find merit in WDUZ's arguments. Adoption of the proposal would result in a new service to substantial areas, a second aural service to an underserved area, and elimination of intermixture at Green Bay. Our reasons for removing Channel 253 no longer exist. The population of the Green Bay area is in excess of other communities with Class C stations, and our Class A assignments are usually reserved for smaller towns.⁴ WDUZ has made a sufficient showing that Green Bay is in need of another Class C assignment, and that its proposal would be in the public interest.

7. We therefore find that it is in the public interest to replace Channel 252A at Green Bay, Wisconsin, with Channel 253 and to modify the license of Green Bay Broadcasting Company for WDUZ-FM to specify operation on Channel 253 in place of Channel 252A. No Show Cause Order is necessary because petitioner itself sought the modification. Canadian concurrence has been received for the change in assignment at Green Bay, Wisconsin.

8. Authority for the action taken herein is contained in Sections 4(i), 5(d) (1), 303, 307(b) and 316 of the Communications Act of 1934, as amended, and Section 0.281(b) (6) of the Commission's Rules.

§ 73.202 [Amended]

9. In view of the foregoing facts and public interest finding, it is ordered, That, effective January 15, 1976, the FM Table of Assignments, Section 73.202(b) of the Commission's Rules, is amended, insofar as the city listed below is concerned, to read as follows:

City:	Channel No.
Green Bay, Wisconsin.....	253, 268

10. It is further ordered, That effective January 15, 1976, the license held by Green Bay Broadcasting Company for Station WDUZ-FM, Green Bay, Wisconsin, IS MODIFIED to specify operation on Channel 253 in lieu of Channel 252A subject to the following conditions:

(a) The licensee shall inform the Commission in writing by no later than January 15, 1976, of its acceptance of this modification.

(b) The licensee may continue to operate on Channel 252A under its outstanding authorization until it is ready to operate on the new frequency.

(c) The licensee shall submit to the Commission by February 16, 1976, all necessary information complying with the applicable technical rules for modification of authorization to cover the operation of Station WDUZ-FM on Channel 253 at Green Bay, Wisconsin.

(d) Ten days prior to commencing operation on Channel 253, the licensee shall submit the same measurement data normally required in an application for an FM broadcast station license.

⁴ See § 73.206(a) (2), F.C.C. Rules.

(e) The licensee shall not commence operation on Channel 253 until the Commission specifically authorizes it to do so.

11. It is further ordered, That this proceeding (Docket 20467, RM-2403) is terminated.

(Secs. 4, 5, 303, 307, 48 stat., as amended, 1066, 1068, 1082, 1083; 47 U.S.C. 154, 155, 303, 307.)

Adopted; December 3, 1975.

Released: December 9, 1975.

**PART 89—PUBLIC SAFETY RADIO
 SERVICES**

**PART 93—LAND TRANSPORTATION
 RADIO SERVICES**

Order

1. On July 2, 1974, the Commission allocated the channel 157.450 MHz to the Special Emergency Radio Service for one way paging operations (Docket 19880, FCC-74-707 published in the Federal Register on July 16, 1974). However, the Commission action did not delete the reference to this channel in the section it was previously listed under. (Available previously for developmental operation in the Land Transportation Radio Services).

2. On May 28, 1975, the Commission allocated the frequency 159.480 MHz to the Petroleum Radio Service for oil spill operations. (Docket 20027, FCC 75-611 published in the Federal Register on June 10, 1975). Again the action taken did not delete reference to this channel in the section it was previously listed under. (Available previously for developmental operation in the Public Safety and Land Transportation Radio Services).

3. This Order is issued to correct the rules by deleting § 89.101(f) and by deleting the two frequency bands 157.-450-157.4625 and 159.480-159.4875 MHz in § 93.204(b). Persons authorized for developmental operations on these channels may continue to operate for the balance of their license term.

4. Inasmuch as this Order is to clarify an action previously taken, the prior notice and effective date provisions of the Administrative Procedure Act (5 U.S.C. 553) do not apply. Authority for this amendment is contained in Sections 4(i) and 303(r) of the Communications Act of 1934 as amended, and in § 0.231(d) of the Commission's Rules and Regulations.

5. Accordingly, it is ordered, effective December 17, 1975, that §§ 89.101(f) and 93.204(b) are amended as set forth below.

I. Part 89 of the Commission's Rules is amended as follows:

§ 89.101 [Amended]

1. Section 89.101 is amended by deleting paragraph (f) and adding the word Reserved.

II. Part 93 of the Commission's Rules is amended as follows:

1. Section 93.204(b) is revised as follows, and the frequency bands 157.450-157.4625 and 159.480-159.4875 MHz are deleted.

§ 93.204 Frequencies available for assignment.

(b) The frequency band 33.00-33.01 MHz is available for assignment to base stations and mobile stations in any of the Land Transportation Radio Services for developmental operation only, using any type of emission other than pulsed emission. The bandwidth occupied by the emission of each such station must be contained at all times within the assigned frequency band.

PART 95—CITIZENS RADIO SERVICE
PART 97—AMATEUR RADIO SERVICE
Order Regarding Canadian Applications

In the matter of amendment of Parts 95 and 97 of the Commission's Rules to eliminate the requirement for the furnishing of a United States address by certain Canadian applicants requesting permission to operate a radio station in the United States.

1. Under the terms of two agreements between the United States and Canada (TIAS No. 2508 and No. 6931), Canadian citizens licensed in the Canadian Amateur, General, and Land Mobile Radio Services are permitted, under prescribed terms and conditions, to operate their radio stations in the United States.

2. The Rules are being amended to reflect the intent of these agreements by permitting Canadian licensees in the Amateur and General Radio Services to make application for permits to operate their stations in the United States without furnishing the Commission with an address in the United States to which correspondence and documents may be directed.

3. The amendments adopted herein are procedural in nature; and hence, the prior notice, procedure, and effective date provisions of the Administrative Procedure Act, 5 U.S.C. § 553, are not applicable.

4. In view of the foregoing, IT IS ORDERED, effective December 17, 1975, that Parts 95 and 97 are amended as set

forth below. Authority for this amendment appears in sections 4(i) and 303 of the Communications Act of 1934, as amended.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303.)

Adopted: December 2, 1975.

Released: December 8, 1975.

FEDERAL COMMUNICATIONS
COMMISSION.

[SEAL] VINCENT J. MULLINS,
Secretary.

Parts 95 and 97 of Chapter 1 of Title 47 of the Code of Federal Regulations are amended as follows:

1. Section 95.14 is revised to read as follows:

§ 95.14 Mailing address furnished by licensee.

Except for applications submitted by Canadian citizens pursuant to agreement between the United States and Canada (TIAS No. 2508 and No. 6931), each application shall set forth and each licensee shall furnish the Commission with an address in the United States to be used by the Commission in serving documents or directing correspondence to that licensee. Unless any licensee advises the Commission to the contrary, the address contained in the licensee's most recent application will be used by the Commission for this purpose.

2. Section 97.42 is revised to read as follows:

§ 97.42 Mailing address furnished by licensee.

Except for applications submitted by Canadian citizens pursuant to agreement between the United States and Canada (TIAS No. 2508 and No. 6931), each application shall set forth and each licensee shall furnish the Commission with an address in the United States to be used by the Commission in serving documents or directing correspondence to that licensee. Unless any licensee advises the Commission to the contrary, the address contained in the licensee's most recent application will be used by the Commission for this purpose.

Title 50—Wildlife and Fisheries

CHAPTER I—U.S. FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 28—PUBLIC ACCESS, USE AND RECREATION

Chincoteague National Wildlife Refuge

The following special regulations are issued and are effective during the period January 1, 1976 through December 31, 1976.

§ 28.28 Special regulations, public access, use, and recreation; for individual wildlife refuge areas.

VIRGINIA

CHINCOTEAGUE NATIONAL WILDLIFE REFUGE

Entry into the refuge is permitted between the hours of 4:00 a.m. to 10:00 p.m.

daily for the purposes of sightseeing, nature study, wildlife observation, photography, hiking, beachcombing, sunbathing, and fishing, including clamming and crabbing, as posted. Swimming and surfing are permitted along the entire refuge beach. Lifeguards are not provided. Entry into the refuge by boat is permitted at the designated public use area at Tom's Cove Hook and Assateague Point.

Operation of registered motor vehicles and bicycles is permitted on designated access roads, trails, and parking areas. Riding of horses and other saddle animals is permitted only along the shoulder of the access road to the Coast Guard crossover and thence along the beach southward from that point. Off-road travel by oversand vehicles is permitted only on designated routes within the public use area at Tom's Cove Hook. Pets must remain in vehicles at all times.

Fishermen who hold special overnight beach-fishing permits issued jointly by the Superintendent, Assateague Island National Seashore, and the Refuge Manager, Chincoteague National Wildlife Refuge, may remain on the refuge between the hours of 10:00 p.m. and 4:00 a.m. on the dates for which such permit is issued.

Organized youth-group and backpack camping is permitted by advance reservation only in National Park Service operated campsites located on the refuge. Permits may be obtained from the Superintendent, Assateague Island National Seashore.

Picnicking is permitted at Tom's Cove Hook in areas designated by the National Park Service.

The possession of any drugs or substances, or immediate precursors, identified in Schedules I, II, III, IV, or V of Part B of the Controlled Substances Act, 21 U.S.C. 812, or any drugs or substances added to these schedules pursuant to the terms of the Act, is prohibited on the refuge unless such drugs or substances were obtained in accordance with law. Presence in the refuge when under the influence of a controlled substance to a degree that may endanger oneself or another person or property, or may interfere with another person's enjoyment of the refuge is prohibited.

The refuge, comprising approximately 9,840 acres, is delineated on a map available from the Refuge Manager, Chincoteague National Wildlife Refuge, P.O. Box 62, Chincoteague, Virginia 23336, and from the Regional Director, U.S. Fish and Wildlife Service, Post Office and Courthouse Building, Boston, Massachusetts 02109.

The provisions of this special regulation supplement the regulations which govern recreation on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 28, and are effective through December 31, 1976.

WILLIAM C. ASHE,
Acting Regional Director
U.S. Fish and Wildlife Service.

DECEMBER 5, 1975.

PART 33—SPORT FISHING

National Bison Range

The following special regulations are issued and are effective on date of publication in the Federal Register.

§ 33.5 Special regulations; sport fishing, for individual wildlife refuge areas.

MONTANA

NATIONAL BISON RANGE

Sport fishing on the National Bison Range, Moiese, Montana, is only permitted along the portions of the Jocko River as posted. These open areas are delineated on maps available at refuge headquarters, one-half mile east of Moiese, Montana. Sport fishing shall be in accordance with all applicable State regulations.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1976.

NINEPIPE NATIONAL WILDLIFE REFUGE

(Headquarters National Bison Range, Moiese, Montana)

Sport fishing is permitted in accordance with special regulations. Entire refuge is open from July 15, until beginning of waterfowl hunting season, and before July 15, on west and north shore lines from picnic area to Allentown bridge, except central portion of north shore (nine-tenths of a mile), as posted. Entire refuge is closed during migratory waterfowl hunting season. Ice fishing is permitted after the closure of waterfowl hunting season until March 1. Sport fishing shall be in accordance with all applicable State regulations.

The provisions of this special regulation supplement the regulations which

govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1976.

Special Regulations: Ninepipe National Wildlife Refuge.

1. Off shore islands are closed to fishing and trespass.
2. Use of boats is prohibited.
3. Vehicles must be parked at designated areas.
4. Motorized travel on the ice is prohibited.
5. No ice fishing shelters may be left overnight.

PABLO NATIONAL WILDLIFE REFUGE

(Headquarters National Bison Range, Moiese, Montana)

Sport fishing is closed on Pablo Reservoir during the migratory waterfowl hunting season. It is open during the balance of the year, in accordance with special regulations, on the north and east shore lines from inlet canal to south end of dam as posted. Ice fishing is permitted after the closing of the waterfowl hunting season. Sport fishing shall be in accordance with all applicable State regulations.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1976.

Special Regulations: Pablo National Wildlife Refuge.

1. Off shore islands are closed to fishing and trespass.
2. Use of boats is prohibited.
3. Vehicles must be parked at designated areas.
4. Motorized travel on the ice is prohibited.
5. No ice fishing shelters may be left overnight.

NORTHWEST MONTANA WATERFOWL PRODUCTION AREAS

(Headquarters National Bison Range, Moiese, Montana)

Flathead Lake Waterfowl Production Area and Smith Lake Waterfowl Production Area are open to sport fishing in accordance with all applicable State regulations. Fishing from shore is prohibited from March 1, to July 15, on lands within the boundary of posted Waterfowl Production Areas. All islands at the mouth of the Flathead River are closed to trespass except during the waterfowl hunting season.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1976.

Special regulations: Northwest Montana Waterfowl Production Areas.

1. Vehicle travel is permitted only on designated roads and parking areas.

SWAN RIVER NATIONAL WILDLIFE REFUGE

(Headquarters National Bison Range, Moiese, Montana)

Sport fishing is permitted on those parts of the Swan River and Swan Lake which lie within the boundaries of Swan River National Wildlife Refuge. Fishing from shore within the refuge is prohibited from March 1, to July 15. Fishing will be in accordance with all applicable State regulations.

MARVIN R. KASCHKE,

Refuge Manager, National Bison Range, Moiese, Montana.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF THE TREASURY

Customs Service

[19 CFR Parts 142 and 158]

SPECIAL PERMITS FOR IMMEDIATE DELIVERY PRIOR TO ENTRY

Proposed Amendments Regarding Fresh Produce Arriving From Canada or Mexico

Notice is hereby given that under the authority of R.S. 251, as amended (19 U.S.C. 66), and sections 448, 484, 506, 552, 553, 623, and 624, 46 Stat. 714, as amended, 722, as amended, 732, as amended, 742, as amended, 759, as amended (19 U.S.C. 1448, 1484, 1506, 1552, 1553, 1623, 1624), it is proposed to amend sections 142.2 and 158.11 of the Customs Regulations (19 CFR 142.2, 158.11) to provide a special procedure in connection with the entry of fresh fruits and vegetables arriving from a contiguous foreign country. Under this procedure, special permits for immediate delivery could be issued for fresh fruits and vegetables arriving from Canada or Mexico, even though a portion thereof is subsequently to be entered for immediate transportation without appraisalment or for transportation and exportation to a foreign country.

At the present time, facilities do not always exist directly at the border for the examination and sorting of fresh fruits and vegetables which arrive by truck from a contiguous foreign country (primarily Mexico). Consequently, the merchandise must be taken to an examination point away from the border for sorting and determining which portion is to be entered for domestic consumption at the port of importation or at some other domestic port and which portion is to transit the United States in bond for exportation to a foreign country (primarily Canada). The provisions of Part 142 of the Customs Regulations (19 CFR Part 142), relating to special permits for immediate delivery prior to entry, have been interpreted to require that merchandise released pursuant to a special permit for immediate delivery subsequently be entered either for consumption, warehouse, or appraisalment. However, pursuant to sections 448(b), 552, and 553 of the Tariff Act of 1930, as amended (19 U.S.C. 1448(b), 1552, and 1553), it has been determined that merchandise for which a special permit for immediate delivery prior to entry is issued may subsequently be entered for immediate transportation without appraisalment or for transportation and exportation, provided the revenue will not be endangered.

The proposed amendment to §142.2(b) of the Customs Regulations (19 CFR 142.2(b)), as set forth below, would permit fresh fruits and vegetables arriving from a contiguous foreign country (1) to be released under a special permit for immediate delivery for examination at the importer's premises within the limits of the port of importation, but removed from the border area, (2) to be examined and sorted at those premises, with the portion without commercial value being segregated in accordance with the provisions of §158.11(b) of the Customs Regulations (19 CFR 158.11(b)), and (3) to be thereafter entered either for consumption, for immediate transportation without appraisalment to another port of entry, or for transportation and exportation to a foreign country. The merchandise would be transported from the border to the importer's premises either in the same vehicles in which the merchandise crossed the border or in other vehicles provided by the importer. Appropriate stipulations regarding all of the activities prior to entry would be incorporated in the bond required by §142.4 of the Customs Regulations (19 CFR 142.4) as a condition of the special permit for immediate delivery. The merchandise for which the special permit is issued would be considered to remain in Customs Custody.

To reflect this procedure, it is proposed to amend §142.2(b) of the Customs Regulations, relating to the issuance of special permits for immediate delivery for merchandise arriving from Canada or Mexico, by placing the provisions presently contained in that paragraph in a separate subparagraph (1), and by adding new provisions in subparagraph (2). It is also proposed to amend §158.11(b)(1) of the Customs Regulations to include an appropriate reference to the procedure to be set forth in §142.2(b).

Accordingly, it is proposed to amend paragraph (b) of §142.2 of the Customs Regulations (19 CFR 142.2(b)) and paragraph (b)(1) of §158.11 of the Customs Regulations (19 CFR 158.11(b)(1)) to read as set forth below:

§ 142.2(b) is revised to read as follows:

§ 142.2 Application for special permit for immediate delivery.

(b) *Merchandise from Canada or Mexico.* (1) *When the customhouse is closed.* In the case of merchandise arriving from Canada or Mexico when the customhouse is closed and destined to places other than the port of arrival, the application and the evidence of the right to make an entry may be submitted

to the chief Customs officer on duty and a special permit may be issued for immediate release, provided the applicant has on file in the customhouse a term bond in accordance with §142.4(b) or (c).

(2) *Fresh fruits and vegetables.* Applications for special permits for immediate delivery may be made for the transportation of fresh fruits and vegetables for human consumption arriving from Canada or Mexico to the importer's premises within the port of importation, but removed from the area immediately contiguous to the border, under an appropriate stipulation to the bond provided for in §142.4. The fresh fruits and vegetables shall be transported in the vehicles in which the merchandise crossed the border, or, if transshipment is necessary, in vehicles provided by the importer, to the importer's premises. The produce may be examined at the importer's premises, those portions without commercial value segregated in accordance with the provisions of §158.11(b) of this chapter, and the balance entered for consumption or transported in bond under an entry for immediate transportation without appraisalment or an entry for transportation and exportation. Merchandise for which a special permit has been issued under the provisions of this paragraph shall be considered to remain in Customs custody.

Section 158.11(b)(1) is revised to read as follows:

§ 158.11 Merchandise completely worthless at time of importation.

(b) * * *

(1) An application for such allowance shall be filed with the district director on Customs Form 4315 in duplicate, within 96 hours after the unloading of the merchandise and before any of the shipment involved has been removed from the pier (or other area permitted under §142.2(b)(2) of this chapter) pursuant to the entry permit.

Prior to the adoption of the foregoing proposal, consideration will be given to any relevant data, views, or arguments which are submitted to the Commissioner of Customs, Attention: Regulations Division, Washington, D.C. 20229, and received on or before January 14, 1976.

Written material or suggestions submitted will be available for public inspection in accordance with §103.8(b) of the Customs Regulations (19 CFR 103.8(b)) at the Regulations Division, Headquarters, United States Customs Service,

Washington, D.C., during regular business hours.

LEONARD LEEHMAN,
*Acting Commissioner
of Customs.*

FARM LABOR HOUSING LOAN POLICIES

Procedures and Authorizations

Notice is hereby given that the Farmers Home Administration has under consideration revisions to Sections 1822.72 and 1822.73 of Subpart C of Part 1822, Title 7, Code of Federal Regulations (31 FR 14148) to eliminate requirements that County Committees certify eligibility of Labor Housing loan applicants.

Interested persons are invited to submit written comments, suggestions, data, or arguments to the Office of the Chief, Directives Management Branch, Farmers Home Administration, U.S. Department of Agriculture, Room 6316, South Building, Washington, D.C. 20250, on or before January 14, 1976. Written comments received on or before January 14, 1976 will be considered before final action is taken on this proposal. Copies of all written comments received will be available for examination by interested persons at the Office of the Chief, Directives Management Branch during regular business hours (8:15 a.m.-4:45 p.m.).

As proposed, § 1822.72(c) is revised as follows:

§ 1822.72 Final preparation and processing of loan docket.

(c) *County Committee certification.* County Committees will not be used to review Labor Housing loan applications.

Section 1822.73(b) (1). is removed as follows:

[Docket No. 75N-0340]

MEDICAL RADIATION EXPOSURE OF WOMEN OF CHILDBEARING AGE

Advance Notice of Proposed Guideline Publication

The Commissioner of Food and Drugs announces that proposed guidelines are to be developed for medical radiation exposure of women of childbearing age. Comments and data are to be submitted before February 13, 1976, to: Division of Compliance, Bureau of Radiological Health (HF-440), 5600 Fishers Lane, Rockville, MD 20852.

The Bureau of Radiological Health of the Food and Drug Administration (FDA) announces that studies of certain diagnostic x-ray and nuclear medicine practices are to be undertaken to determine those actions that may be taken to minimize unnecessary ionizing radiation exposure of the developing human embryo and fetus. In these studies, efforts will be made to collect sufficient information to provide a basis for appropriate radiation protection guidelines for use by the clinician. Comments are invited on this subject and possible guidelines that may be developed.

The FDA, through the Bureau of Radiological Health and under authority of the Radiation Control for Health and Safety Act of 1968 (Pub. L. 90-602, 42 U.S.C. 263b et seq.) conducts and supports research, training, and operational activities to minimize unnecessary exposure of the public to electronic product radiation. In carrying out the purposes of the act, the Commissioner is authorized to make such recommendations relating to the control of electronic product

radiation as he considers appropriate (section 356(b)(1)(A)). In this capacity and under the authority of section 301 of the Radiation Control for Health and Safety Act, the Commissioner is considering the development of guidelines that would provide recommendations to health practitioners and others concerning the exposure of women of childbearing age to ionizing radiation for diagnostic purposes. These recommendations are intended to minimize unnecessary exposure of developing human embryos and fetuses to ionizing radiation that results from radiological examinations. As used in this advance notice of proposed rule making, the term "radiological" includes both x-ray and nuclear medicine procedures used in medicine for diagnosis of disease or injury.

These guidelines would be among several which will be proposed by the Commissioner concerning the hazards and control of electronic product radiation or radiation from other sources. Some of these guidelines may be established for areas or activities inappropriate for mandatory control. However, they will be developed in cooperation with national scientific and technical authorities and representatives of professional, public, and private groups that have an interest and knowledge in the field. The guidelines will therefore represent a consensus of expert opinion upon which individual practitioners and allied health personnel can rely. These guidelines, which will provide guidance on techniques for reducing unnecessary exposure to electronic product or other sources of radiation such as nuclear medicine procedures, would be implemented through educational programs and cooperative activities with professional organizations and State health agencies. This advance notice is being issued pursuant to the FDA's policy of early public participation in guideline development activities.

It presently appears that general guidance can be provided which is appropriate for all types of diagnostic procedures. Thus, as presently contemplated, the proposed guidelines would provide recommendations regarding ionizing radiation exposure from both x-ray examinations and diagnostic procedures employing radiopharmaceuticals or other sources of ionizing radiation. However, should the information developed during this study or from comments received as a result of this advance notice indicate that nuclear medicine or other non-x-ray procedures require different recommendations, appropriate guidelines may be developed for each type of procedure, and they may be published separately.

Interested persons are invited to participate in developing the proposed guidelines by submitting written comments or data on the subject. Communications on the proposed guidelines should be sent to the address noted above. Comments received on or before February 13, 1976 will be considered by the Commissioner before the proposed guidelines are written. When a determination is made on their content, the guidelines will be pub-

lished in the FEDERAL REGISTER as proposals and public comment will be invited. Comments received after February 13, 1976, will be considered with the public comment on the proposed guidelines and will be used in revising the proposed guidelines.

To assist the Commissioner in this study and the development of useful guidelines, detailed scientific and technical data, as well as comments or suggestions, supported by detailed rationale and justification are solicited on the following questions:

1. Is it advisable to schedule nonemergency radiological examinations of the abdomen of women of childbearing age only during the early part of the menstrual cycle? If such scheduling is appropriate, should this be done only when the examination could be deferred until term if a pregnancy is observed or suspected at the time the examination is scheduled to occur?

2. Is it feasible to modify radiological examinations of known or possibly pregnant women, e.g., fewer views, different technique factors, to reduce exposure of the embryo or fetus? If so, under what circumstances? To what extent does this result in an unacceptable loss of diagnostic information?

3. Is it advisable to recommend to institutions that the physician ordering the examination indicate on the referral slip whether or not the patient is or could be pregnant?

4. Is it advisable to recommend to institutions that the physician ordering the examination indicate on the referral slip whether he would be satisfied with a limited study, i.e., modified from the routine manner of performance, on a patient known or suspected to be pregnant?

5. For which abdominal x-ray examinations could fetal shielding be employed without compromising the diagnostic value of the radiograph?

6. To what extent do pelvimetry examinations affect decisionmaking in the management of delivery?

7. How much radiation exposure is received by the embryo or fetus from various diagnostic nuclear medicine procedures?

8. With what frequency are nuclear medicine diagnostic procedures performed on women of childbearing age?

9. How useful is nuclear medicine placental scanning in the medical management of pregnant women?

Individuals or organizations wishing to provide information on these questions or other relevant topics for use in the development of the guidelines, or wishing to receive information made public on the development of these guidelines, should send their comments or addresses to the address noted above.

As part of this program, the Bureau of Radiological Health will prepare a technical overview report which will include an analysis of the current recommendations regarding medical radiation exposure of women. This report will summarize information on the benefits and

limitations of the current recommendations, review the most recent scientific data relating to this question, and suggest a possible alternative approach. When completed, this technical overview report will be published and made available to interested parties, and it will serve as the basis for further discussion leading to appropriate guidelines for general clinical use.

When developed, the guidelines will be codified as voluntary recommendations in a new Subpart C of Part 1000 of Chapter I of Title 21 of the Code of Federal Regulations, Subpart C, "Guidelines and Recommendations," is being established (see the FEDERAL REGISTER of September 16, 1975 (40 FR 42749)) to provide wide dissemination and a permanent record of these radiation protection recommendations.

This advance notice of proposed guideline publication is issued under the authority of the provisions of the Public Health Service Act as amended by the Radiation Control for Health and Safety Act of 1968 (sec. 356, 82 Stat. 1174-1176 (42 U.S.C. 263d)) and under authority delegated to the Commissioner (21 CFR 2.120).

Dated: December 8, 1975.

Associate Commissioner
for Compliance.

[Docket No. 75-32; Notice 1]

FEDERAL MOTOR VEHICLE SAFETY STANDARDS

Definition of "Gross Axle Weight Rating"

This notice proposes to amend the definition of "Gross axle weight rating" and "GAWR" to require that the rating be established for 60-mph speeds or the vehicle's maximum operational speed, whichever is lower.

"Gross axle weight rating" is defined in 49 CFR § 571.3 as "the value specified by the vehicle manufacturer as the load-carrying capacity of a single axle system, as measured at the tire-ground interfaces." The GAWR value on the vehicle's certification label indicates the strength of the axle systems, as a measure of the loads that the vehicle may safely carry. Some of the safety standards depend on specific GAWR values for their application. For example, Standard No. 121, *Air Brake Systems* (49 CFR 571.121), has immediate application to trucks, buses, and trailers with GAWR values under 24,000 pounds, but does not apply to vehicles with GAWR values in excess of 24,000 pounds until September 1, 1976. Some manufacturers have been attempting to qualify for the later effective date of Standard No. 121 by certifying a vehicle at a speed less

than its maximum operational speed in order to place a higher GAWR value on the certification label. However, the operator of such a vehicle may drive it at normal highway speeds. If the vehicle is loaded in conformance with the reduced-speed GAWR value shown on the certification label, operation at higher speeds will effectively overload the vehicle with respect to its brake system, thereby creating a safety hazard. The NHTSA has no objection to the inclusion of reduced-speed GAWR values in the operation manual or on labels other than the certification label. However, in order to ensure safe operation of the vehicle at normal highway speeds, the certification label should contain the vehicle's GAWR rating at its maximum operational speed.

The NHTSA has determined that the maximum operational speed of a vehicle for purposes of determining the GAWR value should be 60 mph or the vehicle's maximum attainable speed, whichever is less. In arriving at this determination, the NHTSA considered several factors, including general vehicle capabilities, current speed limits, and the unqualified tire rating given by the Tire and Rim Association at 60 mph. In light of the foregoing, it is proposed that Part 571 of Title 49, Code of Federal Regulations, "Federal Motor Vehicle Safety Standards", be amended in part to read as follows:

§ 571.3(b) is amended as follows:

§ 571.3 Definitions.

(b) * * *

"Gross axle weight rating" or "GAWR" means the value specified by the vehicle manufacturer as the load-carrying capacity of a single axle system on the vehicle, as measured at the tire-ground interfaces, when the vehicle is operating at any speed up to 60 mph or up to the vehicle's maximum attainable speed, whichever is less.

Interested persons are invited to submit comments on the proposal. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5108, 400 Seventh Street SW., Washington, D.C. 20590. It is requested but not required that 10 copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comments filed after the closing date will also be considered. However, the rulemaking action may proceed at any time after that date, and comments received after the closing date and too late for consideration in regard to the action will be treated as suggestions for future rulemaking. The NHTSA will continue to file relevant material as it becomes available in the docket after the closing date, and it is recommended that

interested persons continue to examine the docket for new material.

Comment closing date: January 29, 1976.

Proposed effective date: Date of publication of final rule.

[49 CFR Part 571]

[Docket No. 75-9; Notice 03]

USED COMPONENTS IN TRAILER
MANUFACTURING

This notice proposes the addition of a new paragraph to 49 CFR 571.7, *Applicability*, to specify the conditions under which a trailer assembled by combining new materials with a used running gear assembly will be considered used for the purposes of the motor vehicle safety standards, associated regulations, and the National Traffic and Motor Vehicle Safety Act.

A running gear assembly is the axle or axles, wheels, suspension and related components sometimes known as a "bogie" that support the frame and upper portions of the trailer. A number of persons, including Bertolini Engineering Company and the Monon Trailer Company (Monon), have asked the National Highway Traffic Safety Administration to reconsider its letter interpretations of what constitutes the manufacture of a new trailer when a used running gear assembly from an existing vehicle is involved. Until now, the NHTSA has recognized the commercial practice of refurbishing wrecked or badly worn trailers by permitting "repair" without recertification to new standards if, at a minimum, the running gear and main frame structural members of the existing trailer are used in the rebuilding operation. A recent amendment of Part 571 permits the use of "glider kits" in truck assembly without recertification if, at a minimum, the engine, transmission, and drive axle(s) of the assembled vehicle are not new, and at least two of these components were taken from the same vehicle.

Several letters from trailer manufacturers and the Monon petition argue that the requirement for both a used running gear and main frame members does not adequately reflect the common practice of manufacturing trailers without separate main frame members that can be salvaged for reuse. More often, "monocoque" van and some tank trailer construction utilizes the walls of the cargo container as the load-bearing structural members in place of separate frame rails.

Monon Trailer Company has petitioned for reconsideration of the present NHTSA position so that a used running

gear assembly alone may be used in the assembly of a trailer without considering it to be newly-manufactured and therefore required to meet the standards. The petition argues that the value of the running gear assembly has always been sufficiently large to justify rebuilding operations of this nature. The company estimates that between 10 and 30 percent of its production has traditionally been the rebuilding of trailers using only the running gear assembly from the existing trailer. Monon points out that the rebuilding business typically falls to the smaller manufacturers and that the impossibility of rebuilding to Standard No. 121 specifications would mean the loss of most of this business. It argues that use of the running gear alone is directly comparable to the use of drive train components alone in the use of glider kits to rebuild powered vehicles.

A petition from Bertolini Engineering Company asks for limited relief of the same nature.

The Monon petition recognizes the possibility that unrestricted reuse of running gear assemblies could develop into a pervasive practice throughout the industry to evade the requirements of the air brake standard. To prevent this possibility, the petition suggests that the identity of the original trailer be continued in the refurbished trailer, that the original trailer be no more than 8 years old, and that the rebuilt trailer be sold only to the owner of the trailer from which it was rebuilt. Monon suggests also that compliance be required with regard to all new components and that the running gear be required as a minimum in the rebuilding operation. The company points out that the previous-owner requirement accords with Internal Revenue Service requirements for excise tax treatment. Additionally the 8-year criterion is intended to agree with certain industrial practices on the rebuilding of trailers.

The NHTSA has received the views of others on the economic considerations that enter into these rebuilding operations. The agency has also indicated with regard to Standard No. 121 that it would monitor the effect of the standard with a view to reducing its costs where possible without loss of significant safety benefit. The NHTSA tentatively concludes that reuse of running gear assemblies is economically justified to the degree that they have been reutilized in the past.

Therefore the agency proposes a revision of its position in this area to permit limited rebuilding of trailers from new material other than the running gear assembly without the requirement of recertification.

As safeguards against evasion of the air brake standard, the agency proposes an 8-year limit on the use of running gear assemblies for rebuilding operations. Additionally, the requirement that the trailer be sold to the original owner under its original identity would be included to prevent large-scale evasion of the standard by parties who might at-

tempt to recycle old, unreliable equipment that would normally be junked.

In consideration of the foregoing, it is proposed that a new paragraph (f) be added to 49 CFR 571.7, *Applicability*, to read as follows:

§ 571.7 *Applicability.*

(f) *Combining new and used components in trailer manufacture.* When new materials are used in the assembly of a trailer, the trailer will be considered newly manufactured for purposes of paragraph (a) of this section, the application of the requirements of this chapter, and the Act, unless, at a minimum, the trailer running gear assembly (axle(s), wheels, braking, suspension and components for attachment to the frame) is not new, and was taken from an existing trailer—

(1) Whose date of production is less than 8 years earlier than that of the reassembled vehicle;

(2) Whose identity is continued in the reassembled vehicle with respect to model, year, vehicle identification number, and any other documentation incident to the vehicle's reassembly and registration; and

(3) That is owned or leased by the user of the reassembled vehicle.

Interested persons are invited to submit comments on the proposal. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5108, 400 Seventh Street SW., Washington, D.C. 20590. It is requested but not required that 10 copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comments filed after the closing date will also be considered. However, the rulemaking action may proceed at any time after that date, and comments received after the closing date and too late for consideration in regard to the action will be treated as suggestions for future rulemaking. The NHTSA will continue to file relevant material as it becomes available in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new material.

Comment closing date: January 29, 1976.

Proposed effective date: Date of publication of final rule in the FEDERAL REGISTER.

FEDERAL MARITIME COMMISSION

[46 CFR Part 503]

[Docket No. 75-59]

RECORD OF IDENTIFIABLE PERSONAL INFORMATION

Access

Notice is hereby given that the Federal Maritime Commission proposes to amend Title 46 of the Code of Federal Regulations, Part 503, Subpart G implementing the provisions of the Privacy Act of 1974 (5 U.S.C. 552(a), P.L. 93-579). The amendments proposed herein are designed to further clarify the Commission's Rules as they relate to the protection of the personal privacy of individuals identified in records maintained by the Commission.

Section 503.64 presently states that:

Upon request for information made in accordance with section 503.63 of this subpart, the Assistant Managing Director or his delegate shall within a reasonable period of time furnish in writing to the requesting party notice of the existence or non-existence of any records described in such requests.

Section 503.65(c) (1) (i) and (ii) presently states:

(1) Upon request made in accordance with this section, the Assistant Managing Director or his delegate shall: (i) Determine whether or not such requests shall be granted;

(ii) Make such determination and provide notification within a reasonable period of time after receipt of such requests.

In order to provide a more specific time limitation within which the Commission must respond to a request for information concerning a record, or a request for access to a record, it is proposed that both section 503.64 and section 503.65(c) (1) (i) and (ii) be rewritten to include a ten day period for response (excluding Saturdays, Sundays, and legal public holidays).

Section 503.65(c) (2) now states that:

If access to a record is denied because such information has been compiled by the Commission in reasonable anticipation of a civil or criminal action or proceeding, the Assistant Managing Director shall notify the individual of such determination and his right to judicial appeal under 5 U.S.C. 552a (g).

To clarify this section, the phrase "or for any other reason" has been added in order to broaden the scope of available judicial review when access to a record has been denied.

Therefore, pursuant to section 4 of the Administrative Procedure Act (5 U.S.C. 553) and the Privacy Act of 1974 (5 U.S.C. 552a(f), P. L. 93-579), Title 46 of the Code of Federal Regulations Part 503, Subpart G is proposed to be amended as follows:

1. Section 503.64 is revised to read as follows:

§ 503.64 Commission procedure on requests for information.

Upon request for information made in accordance with section 503.63 of this subpart, the Assistant Managing Director

or his delegate shall within ten days (excluding Saturdays, Sundays, and legal public holidays) furnish in writing to the requesting party notice of the existence or non-existence of any records described in such requests.

2. Section 503.65(c) is revised as follows:

§ 503.65 Commission determination of requests for access.

(1) Upon the request made in accordance with this section, the Assistant Managing Director or his delegate shall:

(i) Determine whether or not such requests shall be granted;

(ii) Make such determination and provide notification within ten days (excluding Saturdays, Sundays, and legal public holidays) after receipt of such requests.

(iii) Notify the individual that fees for reproducing copies will be made in accordance with section 503.69.

(2) If access to a record is denied because such information has been compiled by the Commission in reasonable anticipation of a civil or criminal action or proceeding, or for any other reason, the Assistant Managing Director shall notify the individual of such determination and his right to judicial appeal under 5 U.S.C. 552a(g).

Interested parties may participate in this rulemaking by filing with the Secretary, Federal Maritime Commission, 1100 L Street NW., Washington, D.C. 20573, on or before January 14, 1976, an original and 15 copies of their views and arguments pertaining to the proposed amendments. All suggestions for changes in text should be accompanied by drafts of the language thought necessary to accomplish the desired change and should be supported by statements and arguments relating the proposed change to the Privacy Act of 1974.

By the Commission.

Secretary.

[Rel. No. 34-11874; File Nos. S7-585, S7-586]

SECURITIES INFORMATION PROCESSORS

Extension of Comment Periods

On September 23, 1975 the Commission announced in Release No. 34-11673 [40 FR 45422] the adoption of Rule 11Ab2-1 and related Form SIP to provide for the registration of securities information processors pursuant to Section 11A(b) of the Securities Exchange Act of 1934. The Commission also requested in Release No. 34-11673 that interested parties comment upon Rule 11Ab2-1, Form SIP, proposed rules 11Ab2-2, 3 and 11Ab5-1 (S7-585) and on the need to require the registration of nonexclusive securities infor-

mation processors (S7-586) [40 FR 45448]. The comment periods on the matters enumerated in Release No. 34-11673 have each elapsed.

The Commission is aware, however, that interested parties have requested additional time within which to comment upon these matters. Further, the Commission finds that the opportunity to receive additional comments would be in the public interest and may aid the Commission in exercising its regulatory authority with respect to securities information processors.

Accordingly, the Commission in Release No. 34-11874, 40 FR 56987, ordered the public comment periods established by Release No. 34-11673 extended to and including December 22, 1975.

**ENVIRONMENTAL AND SOCIAL
DISCLOSURE**

Supplemental Information Regarding Request for Public Comment on Rulemaking Proposals

On October 14, 1975, the Securities and Exchange Commission issued Securities Act Release No. 5627,¹ which contained the Commission's conclusions in its public proceeding concerning possible disclosure of environmental, equal employment, and other socially significant matters. That release also invited public comment on certain Commission rulemaking proposals concerning disclosure of registrants' compliance with certain existing environmental standards.

¹ 8 "SEC Docket" 41 (October 29, 1975); 40 FR 51656 (Nov. 6, 1975).

As discussed more fully in Release No. 5627,² this rulemaking proceeding is being conducted in response to the order and opinion of Judge Charles R. Richey in "Natural Resources Defense Council v. Securities and Exchange Commission," 389 F. Supp. 689 (D.D.C., 1974). Counsel have submitted to the Court a joint estimate of the time required to complete the rulemaking proceeding, and a draft order based thereon.³ Whether or not the district court has the authority to impose on the Commission a deadline respecting rulemaking activities, the Commission will attempt to complete this proceeding, and issue final regulations, within a relatively short period after the close of the comment period announced in Release No. 5627.

Accordingly, the Commission wishes to advise interested persons that it is unlikely that the Commission will grant an extension of the January 12, 1976, comment deadline. Further, the staff may not follow the practice, sometimes employed, of informally holding the proceeding open and considering comments received, after the announced comment deadline, but during the period of staff review of public submissions. The Commission requests, in addition, that interested persons submit their comments as far in advance of January 12, 1976, as possible.

The rulemaking proposals announced in Release No. 5627 would, among other things, require registrants to provide as an exhibit to certain documents filed with the Commission, a list of their most recently filed "environmental compliance reports" which indicate that they have not met any applicable environmental standard established pursuant to a federal statute.

For example, under the Federal Water Pollution Control Act, 33 U.S.C. 1151, *et seq.*, the Environmental Protection Agency ("EPA") and, in certain cases, the states, administer the National

² Release No. 5627, *supra* note 1, at 5-8 (Section I, Background). See, also, Securities Act Release No. 5569 (Feb. 11, 1975), 6 "SEC Docket" 25 (Feb. 25, 1975), 40 FR 7013 (Feb. 18, 1975).

³ Submission of such an estimate was required by an order of the Court entered on October 7, 1975.

Pollutant Discharge Elimination System. See 40 C.F.R. 124, 125. Sources of water pollution are required under that program to obtain a discharge permit, and to establish a schedule for compliance pursuant to its terms. The source must report at specified intervals whether it has met the compliance schedule. Further, if for any reason the source fails to comply with maximum effluent limitations specified in its permit, a report describing that occurrence must, within five days, be filed with the EPA Regional Administrator or the state. Permittees are also required to file discharge monitoring reports on a quarterly basis indicating the volume and composition of discharges.

Similarly, under the Clean Air Act, 42 U.S.C. 1857, *et seq.*, new sources of air emissions in certain categories are required to monitor and summarize excess emission data and report it to EPA. See 40 C.F.R. pt. 60. Further, EPA has recently required states to submit implementation plans which prescribe monitoring and reporting requirements for certain classes of existing air pollution sources. See 40 CFR pt. 51. EPA also has authority, pursuant to Section 114 of the Clean Air Act, to require special reports as appropriate. The EPA Office of Mobile Source Pollution has proposed regulations requiring auto manufacturers to report information concerning pollution-related defects.

To date, relatively few comments have been received with respect to the proposed rule and, for this reason, the Commission hereby again requests the views of all interested persons. In addition, it is requested that registrants who are planning to comment, identify and briefly describe the types, number and content of "environmental compliance reports" filed by them within the last 12 months. This information will be helpful in assessing various aspects of the proposed rule, including the costs and burdens which would be involved.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

TREASURY NOTES OF SERIES G-1979

Dated and Bearing Interest From Jan. 6, 1976; Due Dec. 31, 1979

DECEMBER 10, 1975.

I. INVITATION FOR TENDERS

1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites tenders on a yield basis for \$2,000,000,000, or thereabouts, of notes of the United States, designated Treasury Notes of Series G-1979. The interest rate for the notes will be determined as set forth in Section III, paragraph 3, hereof. Additional amounts of these notes may be issued at the average price of accepted tenders to Government accounts and to Federal Reserve Banks for themselves and as agents of foreign and international monetary authorities. Tenders will be received up to 1:30 p.m., Eastern Standard time, Monday, December 22, 1975, under competitive and noncompetitive bidding, as set forth in Section III hereof.

II. DESCRIPTION OF NOTES

1. The notes will be dated January 6, 1976, and will bear interest from that date, payable on a semiannual basis on June 30 and December 31, 1976, and thereafter on June 30 and December 31 in each year until the principal amount becomes payable. They will mature December 31, 1979, and will not be subject to call for redemption prior to maturity.

2. The income derived from the notes is subject to all taxes imposed under the Internal Revenue Code of 1954. The notes are subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but are exempt from all taxation

now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The notes will be acceptable to secure deposits of public moneys. They will not be acceptable in payment of taxes.

4. Bearer notes with interest coupons attached, and notes registered as to principal and interest, will be issued in denominations of \$1,000, \$5,000, \$10,000, \$100,000 and \$1,000,000. Book-entry notes will be available to eligible bidders in multiples of those amounts. Interchanges of notes of different denominations and of coupon and registered notes, and the transfer of registered notes will be permitted.

5. The notes will be subject to the general regulations of the Department of the Treasury, now or hereafter prescribed, governing United States notes.

III. TENDERS AND ALLOTMENTS

1. Tenders will be received at Federal Reserve Banks and Branches and at the Bureau of the Public Debt, Washington, D.C. 20226, up to the closing hour, 1:30 p.m., Eastern Standard time, Monday, December 22, 1975. Each tender must state the face amount of notes bid for, which must be \$1,000 or a multiple thereof, and the yield desired, except that in the case of noncompetitive tenders the term "noncompetitive" should be used in lieu of a yield. In the case of competitive tenders, the yield must be expressed in terms of an annual yield, with two decimals, e.g., 7.11. Fractions may not be used. Noncompetitive tenders from any one bidder may not exceed \$500,000.

2. Commercial banks, which for this purpose are defined as banks accepting demand deposits, and dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions with respect to Government securities and borrowings thereon, may submit tenders for account of customers provided the names of the customers are set forth in such tenders. Others will not be permitted to submit tenders except for their own account. Tenders will be received without deposit from banking institutions for their own account, Federally-insured savings and loan associations, States, political subdivisions or instrumentalities thereof, public pension and retirement and other public funds, international organizations in which the United States holds membership, foreign central banks and foreign States, dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions with respect to Government securities and borrowings thereon, and Government accounts. Tenders from others must be accompanied by payment of 5 percent of the face amount of notes applied for.

3. Immediately after the closing hour tenders will be opened, following which public announcement will be made by the

Department of the Treasury of the amount and yield range of accepted bids. Those submitting competitive tenders will be advised of the acceptance or rejection thereof. In considering the acceptance of tenders, those with the lowest yields will be accepted to the extent required to attain the amount offered. Tenders at the highest accepted yield will be prorated if necessary. After the determination is made as to which tenders are accepted, an interest rate will be established at the nearest $\frac{1}{8}$ of one percent necessary to make the average accepted price 100.000 or less. That will be the rate of interest that will be paid on all of the notes. Based on such interest rate, the price on each competitive tender allotted will be determined and each successful competitive bidder will be required to pay the price corresponding to the yield bid. Price calculations will be carried to three decimal places on the basis of price per hundred, e.g., 99.923, and the determinations of the Secretary of the Treasury shall be final. The Secretary of the Treasury expressly reserves the right to accept or reject any or all tenders, in whole or in part, including the right to accept tenders for more or less than the \$2,000,000,000 of notes offered to the public, and his action in any such respect shall be final. Subject to these reservations, noncompetitive tenders for \$500,000 or less without stated yield from any one bidder will be accepted in full at the average price (in three decimals) of accepted competitive tenders.

IV. PAYMENT

1. Settlement for accepted tenders in accordance with the bids must be made or completed on or before January 6, 1976, at the Federal Reserve Bank or Branch or at the Bureau of the Public Debt, Washington, D.C. 20226. Payment must be in cash, in other funds immediately available to the Treasury by January 6, 1976, or by check drawn to the order of the Federal Reserve Bank to which the tender is submitted, or the United States Treasury if the tender is submitted to it, which must be received at such Bank or at the Treasury no later than: (1) Wednesday, December 31, 1975, if the check is drawn on a bank in the Federal Reserve District of the Bank to which the check is submitted, or the Fifth Federal Reserve District in the case of the Treasury, or (2) Monday, December 29, 1975, if the check is drawn on a bank in another district. Checks received after the dates set forth in the preceding sentence will not be accepted unless they are payable at a Federal Reserve Bank. Payment will not be deemed to have been completed where registered notes are requested if the appropriate identifying number as required on tax returns and other documents submitted to the Internal Revenue Service (an individual's social security number or an employer identification number) is not furnished. In every case where full payment is not completed, the payment with the tender up to 5 percent of the amount of notes allotted shall, upon declaration

made by the Secretary of the Treasury in his discretion, be forfeited to the United States.

V. GENERAL PROVISIONS

1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive tenders, to make such allotments as may be prescribed by the Secretary of the Treasury, to issue such notices as may be necessary, to receive payment for and make delivery of notes on full-paid tenders allotted, and they may issue interim receipts pending delivery of the definitive notes.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

Secretary of the Treasury.

TREASURY NOTES OF SERIES P-1977

Dated and Bearing Interest From December 31, 1975; Due December 31, 1977

DECEMBER 10, 1975.

I. INVITATION FOR TENDERS

1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites tenders on a yield basis for \$2,500,000,000, or thereabouts of notes of the United States designated Treasury Notes of Series P-1977. The interest rate for the notes will be determined as set forth in Section III paragraph 3 hereof. Additional amounts of these notes may be issued at the average price of accepted tenders to Government accounts and to Federal Reserve Banks for themselves and as agents of foreign and international monetary authorities. Tenders will be received up to 1:30 p.m., Eastern Standard time, Tuesday, December 16, 1975, under competitive and noncompetitive bidding, as set forth in Section III hereof. The 7 percent Treasury Notes of Series H-1975, maturing December 31, 1975, will be accepted at par in payment, in whole or in part, to the extent tenders are allotted by the Treasury.

II. DESCRIPTION OF NOTES

1. The notes will be dated December 31, 1975, and will bear interest from that date, payable semiannually on June 30 and December 31, 1976, and June 30 and December 31, 1977. They will mature December 31, 1977, and will not be subject to call for redemption prior to maturity.

2. The income derived from the notes is subject to all taxes imposed under the Internal Revenue Code of 1954. The notes are subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or

any of the possessions of the United States, or by any local taxing authority.

3. The notes will be acceptable to secure deposits of public moneys. They will not be acceptable in payment of taxes.

4. Bearer notes with interest coupons attached, and notes registered as to principal and interest, will be issued in denominations of \$5,000, \$10,000, \$100,000 and \$1,000,000. Book-entry notes will be available to eligible bidders in multiples of those amounts. Interchanges of notes of different denominations and of coupon and registered notes, and the transfer of registered notes will be permitted.

5. The notes will be subject to the general regulations of the Department of the Treasury, now or hereafter prescribed, governing United States notes.

Federally-insured savings and loan associations, States, political subdivisions or instrumentalities thereof, public pension and retirement and other public funds, international organizations in which the United States holds membership, foreign central banks and foreign States, dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions with respect to Government securities and borrowings thereon, and Government accounts. Tenders from others must be accompanied by payment (in cash or 7 percent Treasury Notes of Series H-1975 which will be accepted at par) of 5 percent of the face amount of notes applied for.

3. Immediately after the closing hour tenders will be opened, following which public announcement will be made by the Department of the Treasury of the

amount and yield range of accepted bids. Those submitting competitive tenders will be advised of the acceptance or rejection thereof. In considering the acceptance of tenders, those with the lowest yields will be accepted to the extent required to attain the amount offered. IV. PAYMENT

1. Settlement for accepted tenders in accordance with the bids must be made or completed on or before December 31, 1975, at the Federal Reserve Bank or Branch or at the Bureau of the Public Debt. Payment must be in cash, 7 percent Treasury Notes of Series H-1975 (interest coupons dated December 31, 1975, should be detached), in other funds immediately available to the Treasury by December 31, 1975, or by check drawn to the order of the Federal Reserve Bank to which the tender is submitted, or the United States Treasury if the tender is submitted to it, which must be received at such Bank or at the Treasury no later than: (1) Monday, December 29, 1975, if the check is drawn on a bank in the Federal Reserve District of the Bank to which the check is submitted, or the Fifth Federal Reserve District in case of the Treasury, or (2) Tuesday, December 23, 1975, if the check is drawn on a bank in another district. Checks received after the dates set forth in the preceding sentence will not be accepted unless they are payable at a Federal Reserve Bank. Payment will not be deemed to have been completed where registered notes are requested if the appropriate identifying number as required on tax returns and other documents submitted to the Internal Revenue Service (an individual's social security number or an employer identification number) is not furnished. In every case where full payment is not completed, the payment with the tender up to 5 percent

of the amount of notes allotted shall, upon declaration made by the Secretary of the Treasury in his discretion, be forfeited to the United States. When payment is made with notes, a cash adjustment will be made to or required of the bidder for any difference between the face amount of notes submitted and the amount payable on the notes allotted.

V. ASSIGNMENT OF REGISTERED NOTES

1. Registered notes tendered as deposits and in payment for notes allotted hereunder are not required to be assigned if the notes are to be registered in the same names and forms as appear in the registrations or assignments of the notes surrendered. Specific instructions for the issuance and delivery of the notes, signed by the owner or his authorized representative, must accompany the notes presented. Otherwise, the notes should be assigned by the registered payees or assignees thereof in accordance with the general regulations governing United States securities, as hereinafter set forth. When the new notes are to be registered in names and forms different from those in the inscriptions or assignments of the notes presented the assignment should be to "The Secretary of the Treasury for Treasury Notes of Series P-1977 in the name of (name and taxpayer identifying number)." If notes in coupon form are desired, the assignment should be to "The Secretary of the Treasury for coupon Treasury Notes of Series P-1977 to be delivered to -----" Notes tendered in payment should be surrendered to the Federal Reserve Bank or Branch or to the Bureau of the Public Debt, Washington, D.C. 20226. The notes must be delivered at the expense and risk of the holder.

VI. GENERAL PROVISIONS

1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive tenders, to make such allotments as may be prescribed by the Secretary of the Treasury, to issue such notices as may be necessary, to receive payment for and make delivery of notes on full-paid tenders allotted, and they may issue interim receipts pending delivery of the definitive notes.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

1. *Annual Operation and Maintenance Charges for Lands Under Public Notice, Reservation Division.* The minimum annual operation and maintenance charge for calendar year 1976 and thereafter until further notice against all lands of the Reservation Division under public notice shall be \$21.50 per irrigable acre, whether water is used or not, payment of which will entitle the water user (may be landowner, lessee, and/or water right applicant or holder) to 8 acre-feet of water per acre on certain sandy areas shown on the list attached to Public Notice No. 72, dated December 1, 1955, as amended February 16, 1956, and to 5 acre-feet of water per irrigable acre on all other lands of the Division under Public Notice. Additional water, if available, will be furnished at the rate of \$5.50 per acre-foot payable in advance. Credit equivalent to the amount paid for additional water unused prior to the end of any calendar year will be applied against the minimum charges for water for the following calendar year. No credit will be given for water purchased during any calendar year at the minimum charge but undelivered at the end of said calendar year.

The minimum annual operation and maintenance charge per calendar year for each parcel of land under public notice containing less than 1 acre shall be \$21.50.

Where in the opinion of the Project Manager, Yuma Projects Office, it may be done without interference with other project requirements, upon written request filed in advance by a water user who is not delinquent in the payment of any operation and maintenance charges, water will be furnished free of charge for reclaiming lands by the usual methods; *Provided, however,* That lands for which free water was served during the preceding calendar year will not again be served free water in the absence of evidence satisfactory to the Project Manager that although the water so served free of charge during such preceding year was applied to the lands in sufficient quantities over a period of

not more than 3 months, the results accomplished during such preceding year were not satisfactory.

All minimum annual operation and maintenance charges shall be due and payable on January 1, 1976, and on January 1 of each year thereafter.

2. *Annual Water Rental Charges for Other Lands, Reservation Division.* Irrigation water will be furnished during the calendar year 1976 and thereafter until further notice for lands in the Reservation Division not under Public Notice which can be irrigated from the present distribution system without further construction expense by the Bureau, upon a rental basis under approved applications at the following rates:

A. The minimum annual charge shall be \$21.50 per irrigable acre, payment of which will entitle the applicant to 8 acre-feet of water per acre on certain sandy areas listed in Public Notice No. 86, Supplement No. 1, dated July 10, 1970, and to 5 acre-feet of water per irrigable acre on all other lands in the Division not under Public Notice.

B. Additional water, if available, will be furnished at the rate of \$5.50 per acre-foot.

All charges shall be payable in advance of the delivery of water. Credit will be given for additional water paid for but not used.

3. *Damages and Termination of Water Deliveries.* Upon failure of any water user in the Reservation Division, including for purposes of this paragraph only, lessees of Indian lands, to comply with the regulations for ordering and delivery of irrigation water in the Division, or to pay any bill rendered by the United States for costs of extra maintenance of or repairs to the irrigation and drainage systems of the Reservation Division of the Yuma Project which are required as a result of faulty irrigation practices of the water user, all as established and determined by the Project Manager after consultation with the water user, the United States reserves the right to withhold the delivery of water to the lands of any water user who is in default thereof, or to stop the delivery of water thereto if water is being so delivered during any period in which said user is in violation of the provisions of the regulations, or has failed to pay said bills.

4. *Penalties.* On all payments not made on or before the due dates, there shall be added on the following day a penalty of one-half of one percent of the amount unpaid and a like penalty of one-half of one percent of the amount unpaid on the first day of each calendar month thereafter so long as such default shall continue.

5. *Place of Payment.* All payments should be made to the Bureau of Reclamation, Office of Project Manager, Yuma Projects Office, Yuma, Arizona, or mailed to Bureau of Reclamation, P.O. Bin 5569, Yuma, Arizona 85364.

WAKEFIELD NATIONAL MEMORIAL ASSOCIATION

Intention To Issue Concession Permit

Pursuant to the provisions of Section 5 of the Act of October 9, 1965 (79 Stat. 969; 16 U.S.C. 20), public notice is hereby given that after January 14, 1976, the Department of the Interior, through the Superintendent, George Washington Birthplace National Monument, proposes to issue a concession permit to Wakefield National Memorial Association authorizing it to provide concession facilities and services for the public at George Washington Birthplace for a period of one year from January 1, 1976, through December 31, 1976.

An assessment of the environmental impact of this proposed action has been made, and it has been determined that it will not significantly affect the quality of the environment and that it is not a major Federal action having a significant impact on the environment under the National Environmental Policy Act of 1969. The environmental assessment may be reviewed in the Office of the Superintendent, George Washington

Birthplace National Monument, Washington's Birthplace, Virginia.

The foregoing concessioner has performed its obligations under the expired permit to the satisfaction of the National Park Service, and therefore, pursuant to the Act cited above, is entitled to be given preference in the renewal of the permit and in the negotiation of a new contract. However, under the Act cited above, the Secretary is also required to consider and evaluate all proposals received as a result of this notice. Any proposal to be considered and evaluated must be submitted on or before January 14, 1975.

Interested parties should contact the Superintendent, George Washington Birthplace National Monument, Washington's Birthplace, Virginia, for information as to the requirements of the proposed permit.

Dated: December 12, 1975.

WEIN AIR ALASKA

Intention To Extend Concession Contract

Pursuant to the provisions of Section 5 of the Act of October 9, 1965 (79 Stat. 969; 16 U.S.C. 20), public notice is hereby given that after January 14, 1975 the Department of the Interior, through the Director of the National Park Service, proposes to extend the concession contract with Wein Air Alaska, Inc., authorizing it to provide concession facilities and services for the public at Katmai National Monument for a period of one (1) year, from January 1, 1976, through December 31, 1976.

An assessment of the environmental impact of this proposed action has been made, and it has been determined that it will not significantly affect the quality of the environment and that it is not a major Federal action having a significant impact on the environment under the National Environmental Policy Act of 1969. The environmental assessment may be reviewed in the Office of the Regional Director, Pacific Northwest Region, Fourth and Pike Building, Seattle, Washington 98101.

The foregoing concessioner has performed its obligations under the expired contract to the satisfaction of the National Park Service, and therefore, pursuant to the Act first cited above, is entitled to be given preference in the renewal of the contract and in the negotiation of a new contract. However, under the Act cited above, the Secretary is also required to consider and evaluate all proposals received as a result of this notice. Any proposal to be considered and evaluated must be submitted on or before January 14, 1975.

Interested parties should contact the Assistant Director of Concessions Management, National Park Service, Wash-

ington, D.C. 20240, for information as to the requirements of the proposed action.

SAMUEL R. MCKELVIE NATIONAL FOREST GRAZING ADVISORY BOARD

Intent To Establish

The Department of Agriculture proposes to establish the Samuel R. McKelvie National Forest Grazing Advisory Board for the period ending January 5, 1977, under Forest Service regulation 36 CFR 231.10.

This is to be a local advisory board of the Forest Service to provide National Forest range users a means for the collective expression of their views and recommendations concerning the management and administration of the Samuel R. McKelvie National Forest grazing lands and to develop local interest and responsibility in better range management.

The Assistant Secretary for Conservation, Research and Education determined that establishment of this board is necessary and in the public interest in connection with duties imposed on the Department by law.

Comments of interested persons concerning establishment of this board may be submitted to the Forest Supervisor of the Nebraska National Forest, 270 Pine Street, Chadron, Nebraska 69337, on or before December 30, 1975.

All written submissions made pursuant to this notice will be available for public inspection in the Forest Supervisor's office during regular business hours (7 CFR 1.27(b)).

CADRON CREEK WATERSHED PROJECTS, ARKANSAS

Availability of Draft Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; Part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); and Part 650 of the Soil Conservation Service Guidelines (39 FR 19650, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental impact statement for the Cadron Creek Watershed Projects, Cleburne, Conway, Faulkner, Van Buren, and White Counties, Arkansas, USDA-SCS-EIS-WS-(ADM)-76-1-(D)-AR.

The draft environmental impact statement concerns a plan for watershed protection, flood prevention, and recreation on three adjacent watersheds for which individual work plans have been developed. They are North Fork Cadron Creek, East Fork Cadron Creek, and Lower Cadron Creek. The planned works of improvement include the accelerated application of conservation land treatment measures, 15 floodwater retarding structures, and public recreation development at Woolly Hollow State Park. The planned flood prevention measures will reduce flooding on 24,002 acres. The recreational development will provide 125,480 annual recreational days.

A limited supply of the draft environmental impact statement is available at the following location to fill single copy requests:

Soil Conservation Service, USDA, 700 West Capitol, Little Rock, Arkansas 72201.

Copies of the draft environmental impact statement have been sent for comments to various federal, state, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action or requests for additional information should be addressed to M. J. Spears, State Conservationist, Soil Conservation Service, Post Office Box 2323, Little Rock, Arkansas 72203.

Comments must be received on or before February 2, 1976, in order to be considered in the preparation of the final environmental impact statement.

DEFINITIONS SUBCOMMITTEE OF THE NUMERICALLY CONTROLLED MACHINE TOOL TECHNICAL ADVISORY COMMITTEE

Partially Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. IV, 1974), notice is hereby given that a meeting of the Definitions Subcommittee of the Numerically Controlled Machine Tool Technical Advisory Committee will be held on Tuesday, January 13, 1976, at 3:30 p.m. in Room 1851, Main Commerce Building, 14th and Constitution Avenue, N.W., Washington, D.C.

The Numerically Controlled Machine Tool Technical Advisory Committee was initially established on January 3, 1973. On December 20, 1974, the Acting Assist-

ant Secretary for Administration approved the recharter and extension of the Committee for two additional years, pursuant to Section 5(c)(1) of the Export Administration Act of 1969, as amended, 50 U.S.C. App. Section 2404(c)(1) and the Federal Advisory Committee Act. The Definitions Subcommittee of the Numerically Controlled Machine Tool Technical Advisory Committee was initially established on July 10, 1973. On July 15, 1975, the Director, Office of Export Administration, approved the reestablishment of this Subcommittee pursuant to the charter of the Committee.

The Committee advises the Office of Export Administration, Bureau of East-West Trade, with respect to questions involving technical matters, world-wide availability and actual utilization of production and technology, and licensing procedures which may affect the level of export controls applicable to numerically controlled machine tools, including technical data related thereto, and including those whose export is subject to multilateral (COCOM) controls. The Definitions Subcommittee was formed to provide universally acceptable numerically controlled nomenclature for machine tool systems.

The Subcommittee meeting agenda has four parts:

GENERAL SESSION

- (1) Opening remarks by the Subcommittee Chairman.
- (2) Presentation of papers or comments by the public.
- (3) Further review of current definitions.

EXECUTIVE SESSION

- (4) Discussion of matters properly classified under Executive Order 11652, dealing with the U.S. and COCOM control program and strategic criteria related thereto.

The public will be permitted to attend the General Session, at which a limited number of seats will be available. To the extent time permits members of the public may present oral statements to the Subcommittee. Written statements may be submitted at any time before or after the meeting.

With respect to agenda item (4), the Acting Assistant Secretary of Commerce for Administration, with the concurrence of the delegate of the General Counsel, formally determine on November 25, 1975, pursuant to section 10(d) of the Federal Advisory Committee Act that the matters to be discussed in the Executive Session should be exempt from the provisions of the Act relating to open meetings and public participation therein, because the Executive Session will be concerned with matters listed in 5 U.S.C. 552(b)(1), i.e., it is specifically required by Executive Order 11652 that they be kept confidential in the interest of the national security. All materials to be reviewed and discussed by the Subcommittee during the Executive Session of the meeting have been properly classified under the Executive Order. All Subcommittee members have appropriate security clearances.

Copies of the minutes of the open portion of the meeting will be available upon

written request addressed to the Freedom of Information Officer, Domestic and International Business Administration, Room 3100, U.S. Department of Commerce, Washington, D.C. 20230.

For further information, contact Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, Domestic and International Business Administration, Room 1620, U.S. Department of Commerce, Washington, D.C. 20230, telephone: A/C 202-967-4196.

In accordance with paragraph (4) of the Order of the United States District Court for the District of Columbia in *Aviation Consumer Action Project, et al. v. C. Langhorne Washburn, et al.*, September 10, 1974, as amended, September 23, 1974 (Civil Action No. 1838-73), the Complete Notice of Determination to close portions of the series of meetings of the Numerically Controlled Machine Tool Technical Advisory Committee and of any subcommittees thereof is published elsewhere in this issue.

Dated: December 1, 1975.

ELECTRONIC INSTRUMENTATION TECHNICAL ADVISORY COMMITTEE

Partially Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. IV, 1974), notice is hereby given that a meeting of the Electronic Instrumentation Technical Advisory Committee will be held on Tuesday, January 13, 1976, Room 3817, 9:30 a.m., Main Commerce Building, 14th and Constitution Avenue, N.W., Washington, D.C.

The Electronic Instrumentation Technical Advisory Committee was initially established on October 23, 1973. On October 7, 1975, the Acting Assistant Secretary for Administration approved the recharter and extension of the Committee for two additional years, pursuant to Section 5(c)(1) of the Export Administration Act of 1969, as amended, 50 U.S.C. App. section 2404(c)(1) and the Federal Advisory Committee Act.

The Committee advises the Office of Export Administration, Bureau of East-West Trade, with respect to questions involving technical matters, world-wide availability and actual utilization of production and technology, and licensing procedures which may affect the level of export controls applicable to electronic instrumentation, including technical data related thereto, and including those whose export is subject to multilateral (COCOM) controls.

The Committee meeting agenda has five parts:

GENERAL SESSION

- (1) Opening remarks by the Chairman.
- (2) Presentation of papers or comments by the public.

(3) Discussion of on-going Committee work programs.

(4) Discussion regarding new members and new Chairman.

EXECUTIVE SESSION

(5) Discussion of matters properly classified under Executive Order 11652, dealing with the U.S. and COCOM control program and strategic criteria related thereto.

The public will be permitted to attend the General Session, at which a limited number of seats will be available. To the extent time permits members of the public may present oral statements to the Committee. Written statements may be submitted at any time before or after the meeting.

With respect to agenda item (5), the Acting Assistant Secretary of Commerce for Administration, with the concurrence of the delegate of the General Counsel, formally determined on September 29, 1975, pursuant to section 10(d) of the Federal Advisory Committee Act that the matters to be discussed in the Executive Session should be exempt from the provisions of the Act relating to open meetings and public participation therein, because the Executive Session will be concerned with matters listed in 5 U.S.C. 552(b)(1), i.e., it is specifically required by Executive Order 11652 that they be kept confidential in the interest of the national security. All materials to be reviewed and discussed by the Committee during the Executive Session of the meeting have been properly classified under the Executive Order. All Committee members have appropriate security clearances.

Copies of the minutes of the open portion of the meeting will be available upon written request addressed to the Freedom of Information Officer, Domestic and International Business Administration, Room 3100, U.S. Department of Commerce, Washington, D.C. 20230.

For further information, contact Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, Domestic and International Business Administration, Room 1620, U.S. Department of Commerce, Washington, D.C. 20230, telephone: A/C 202/967-4196.

In accordance with paragraph (4) of the Order of the United States District Court for the District of Columbia in *Aviation Consumer Action Project, et al. v. C. Langhorne Washburn, et al.*, September 10, 1974, as amended, September 23, 1974 (Civil Action No. 1838-73), the Complete Notice of Determination to close portions of the series of meetings of the Electronic Instrumentation Technical Advisory Committee and of any subcommittees thereof is hereby published.

Dated: December 9, 1975.

LAWRENCE J. BRADY,
Acting Director, Office of Export Administration, Bureau of East-West Trade, U.S. Department of Commerce.

Notice of Determination

In response to written requests of representatives of a substantial segment of the electronic industry, the Electronic Instrumentation Technical Advisory Committee was established by the Secretary of Commerce pursuant to Section 5(c)(1) of the Export Administration Act of 1969, 50 U.S.C. App. Section 2404(c)(1) (Supp. III, 1973), as amended, Public Law No. 93-500, Section 5(b) (October 29, 1974), to advise the Department of Commerce with respect to questions involving technical matters, worldwide availability, and actual utilization of production and technology, and licensing procedures which may affect the level of export controls applicable to electronic instrumentation, including technical data related thereto, and including those whose export is subject to multilateral (COCOM) controls.

The Committee, which currently has twelve members representing industry and eight members representing government agencies, will terminate no later than October 23, 1977, unless extended by the Secretary of Commerce or his designee. All members of the Committee have the appropriate security clearance.

The Committee's activities are conducted in accordance with the provisions of Section 5(c)(1) of the Export Administration Act of 1969, as amended, the provisions of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. III, 1973), and Office of Management and Budget Circular A-63 (Revised), Advisory Committee Management, effective May 1, 1974. Section 10 of the Federal Advisory Committee Act provides, among other things, that the meetings of advisory committees are to be open to the public, and to public participation, unless the head of the agency (or his delegate) to which the committee reports determines in writing that all, or some portion, of the agency of the meeting of the Committee is concerned with matters listed in Section 552(b) of Title 5 of the United States Code.

Section 552(b)(1) of Title 5, United States Code, provides that information may be withheld from the public if it concerns matters specifically required by Executive Order to be kept secret in the interest of national security or foreign policy, and are in fact properly classified pursuant to such Executive Order.

Notices of Determination authorizing the closing of meetings, or portions thereof, of the Electronic Instrumentation Technical Advisory Committee and its formal subcommittees, dealing with security classified matters, were approved on March 12, 1974 for the Committee's first meeting on April 9, 1974; on April 25, 1974 for the meeting of May 9, 1974; and on May 28, 1974, covering a series of meetings for the period May 28, 1974 through January 3, 1975; and on December 16, 1974 for a series of meetings from January 4, 1975 through October 22, 1975.

In order to provide advice to the Department under the terms of its charter, the Committee and formal subcommittees thereof will continue to hold a series of meetings dealing with the matters set forth in the first paragraph of this Determination. These meetings will include discussions of the COCOM control list as it relates to the commodities and technical data under its purview, and with the foreign availability of these commodities and technical data. In addition, the Committee and its formal subcommittees will be preparing recommendations for the Department's consideration relating to the U.S. Government's negotiating position on COCOM-related matters. Much of the information relating to the COCOM control list, as well as proposed changes, is

now or will be security classified for national security or foreign policy reasons, pursuant to Executive Order No. 11652, 3 CFR 339 (1974). In order for the Committee and its formal subcommittees to provide required advice to the U.S. Government, it will be necessary to provide the Committee and its formal subcommittees with such classified material. Therefore, the portions of the series of meetings of the Committee and of subcommittees thereof that will involve discussions of matters specifically authorized under criteria established by an executive order to be kept secret in the interest of national security or foreign policy and are in fact properly classified pursuant to such executive order, must be closed to the public. The remaining portions of the series of meetings will be open to the public.

Accordingly, I hereby determine, pursuant to Section 10(d) of the Federal Advisory Committee Act that those portions of the series of meetings of the Committee and of any subcommittees thereof, dealing with the aforementioned classified materials shall be exempt, for the period October 23, 1975, to October 22, 1976, from the provisions of Section 10(a)(1) and (a)(3), relating to open meetings and public participation therein, because the Committee and subcommittee discussions will be concerned with matters listed in Section 552(b)(1) of Title 5, United States Code. The remaining portions of the meetings will be open to the public.

Dated: September 29, 1975.

GUY W. CHALMERS,
Assistant Secretary for
Administration, Acting.

Dated: September 30, 1975.

Acting General Counsel.

Economic Development Administration
WRAPPER TOBACCO
Study of the Producing Firms
SUMMARY

The U.S. Department of Commerce has conducted a study of the wrapper tobacco industry as required by section 264 of the Trade Act of 1974. It has attempted to determine the number of firms in the industry which have been or are likely to be certified as eligible to apply for adjustment assistance and the extent to which the orderly adjustment of the firms may be facilitated through the use of existing programs. Such a study by the Department is required whenever the U.S. International Trade Commission makes an "escape-clause" investigation under section 201 of the Trade Act.

The Commission reported to the President on November 5, 1975, the results of its investigation to determine whether increased imports of wrapper tobacco represents a substantial cause (or threat) of injury to the domestic industry producing like or directly competitive products. The Commission made a unanimous negative determination, primarily on the basis that a marked decline in United States production and consumption of large cigars, the major product using wrapper tobacco, is more important than increased imports as a cause of any serious injury that may have oc-

curred to the domestic producers of wrapper tobacco.

There are currently a total of approximately 77 domestic growers of shade-grown wrapper tobacco, including 55 growers in southwestern Georgia and the central part of northern Florida and 22 in the Connecticut River Valley of Connecticut and Massachusetts. The tobacco from the two areas, grown under tents of light-weight cloth, has distinct characteristics caused by differences in varieties, soil, and climatic conditions. Wrapper tobacco is used by cigar makers as the smooth outer wrapping of large cigars, i.e., those that weigh more than three pounds per thousand. Domestic production of large cigars rose in the 1960's and then declined sharply in the 1970's as production of small, cigarette-size cigars grew rapidly. Output in 1974 amounted to 6.5 million large cigars, or 32 percent less than the 1964 output, and the decline continued in 1975, with an annual rate of less than 6 billion units in January-August 1975.

To be certificated eligible to apply for adjustment assistance, a firm must demonstrate that increased imports of like or directly competitive articles contributed importantly to declines in sales or production, or both, and separation, or threat of separation of the firm's workers. U.S. imports of wrapper tobacco, chiefly from Nicaragua, Honduras and the Cameroon Republic, increased by 69 percent between 1970 and 1974 to 977,300 pounds, valued at \$3.8 million. Imports in the first seven months of 1975 rose 27 percent over the comparable period of 1974 to 728,300 pounds. Increases have also been recorded in terms of imports relative to domestic production.

As of the date of this report, none of the wrapper tobacco growers has petitioned the Department of Commerce for certification of eligibility to apply for adjustment assistance and the Department has no means of determining which of the producers could qualify for certification. However, it is possible that a petitioning firm could be certified, even though the industry of which it is a member received a negative determination on a section 201 investigation by the International Trade Commission. In determining whether imports "contributed importantly" among possible causes for worker separation and decreases in sales or production for a petitioning firm, the influence of imports as a cause would be considered by the Department on the basis of the totality and inter-relationship of all possible causes affecting the operations of the individual firm. The "contributed importantly" criterion which must be met for the firm to be certified is somewhat less stringent than the "substantial cause" criterion which is required for a positive determination in an industry investigation.

Under the program of adjustment assistance for firms authorized by the Trade Act, financial assistance to certified firms may take the form of direct loans and loan guarantees, and technical assistance, to enable a firm to

establish a competitive position in the same or a different industry. Financial assistance may be used for the acquisition, construction, installation, modernization, expansion or conversion of fixed assets, or for working capital necessary for a firm to implement its adjustment plan. Technical assistance may be used for management and operational assistance, feasibility studies and related research to aid in developing and implementing a firm's recovery plan.

Firms may also benefit indirectly from financial assistance available to trade-impacted communities under provisions of the Trade Act in a manner similar to the public works, business development and Title IX programs administered by the Department's Economic Development Administration ("EDA") pursuant to the *Public Works and Economic Development Act of 1965*. These other programs of EDA provide business development loans to assist firms in certain designated areas identified on the basis of adverse employment factors; loans and grants to states, local governments and nonprofit organizations for acquiring, developing and improving public works and public service facilities; and grants to states and local areas for a comprehensive program of adjustment to an actual or threatened economic dislocation or adjustment problem.

Other Federal programs which might be of interest to growers of wrapper tobacco include those administered by the Farmers Home Administration, Department of Agriculture, of guaranteed loans to operators of family farms, either to make more efficient use of their land, labor and other resources; or to assist farmers in enlarging, improving and purchasing family farms, and to refinance debt so as to place the farming operation on a sound basis.

Additional information about the adjustment assistance program and copies of the report, *Prospects for Adjustment Assistance for Producers of Wrapper Tobacco*, are available from the Office of Public Affairs, Economic Development Administration, Room 7019, U.S. Department of Commerce, Washington, D.C. 20230 (telephone 202/967-5113).

Food and Drug Administration

[Docket No. 75N-0202; DESI 366]

PROTOKYLOL HYDROCHLORIDE INJECTION AND EPINEPHRINE SUSPENSION IN OIL FOR INJECTION

Notice of Opportunity for Hearing on Proposal To Withdraw Approval of New Drug Applications or Pertinent Parts Thereof

A notice (DESI 366) was published in the FEDERAL REGISTER of July 11, 1972 (37 FR 13564), in which the Food and

Drug Administration announced the following conclusions: that protokylol hydrochloride for injection is less than effective (probably effective) for the symptomatic relief of acute and chronic bronchial asthma and for bronchospasm associated with emphysema, chronic bronchitis, and bronchiectasis; that it lacks substantial evidence of effectiveness for pulmonary fibrosis; and that epinephrine oil suspension is less than effective (probably effective) for symptomatic treatment of bronchial asthma, urticaria, angioedema, and hay fever. No additional data to support effectiveness were submitted and this notice proposes to withdraw approval of the drug products described below. Persons wishing to request a hearing may do so on or before January 14, 1976.

1. NDA 366; Adrenalin in Oil for injection containing epinephrine in suspension; formerly marketed by Parke, Davis and Co., Joseph Campau at the River, Detroit, MI 48232.

2. NDA 1-225; Epinephrine Suspension (in oil); formerly marketed by Endo Laboratories, Inc., 1000 Stewart Ave., Garden City, NY 11533.

3. That part of NDA 11-469 pertaining to Caytine Injection, an aqueous solution containing protokylol hydrochloride; Lakeside Laboratories, Division of Richardson-Merrell, Inc., 1707 E. North Ave., Milwaukee, WI 53203.

Sus-Phrine Suspension, an aqueous suspension of epinephrine (NDA 7-942), was also included in the July 11, 1972 DESI announcement. Data which were submitted for this product are under review and conclusions concerning it will be published in a future issue of the FEDERAL REGISTER.

Both Endo Laboratories, holder of NDA 1-225 for Epinephrine Suspension (in oil) and Parke, Davis and Co., holder of NDA 366 for Adrenalin in Oil have, by letters of August 2, 1972 and October 31, 1975, respectively, waived opportunity for a hearing, stating that those products are no longer being marketed. The purpose of naming those two products in this notice is to offer an opportunity for hearing to persons who manufacture or distribute a drug product which is identical, related, or similar to them, as defined in 21 CFR 310.6. Upon expiration of the time allowed for requesting a hearing, a final order will be published withdrawing approval of NDA 1-225 and NDA 366.

On the basis of all of the data and information available to him, the Director of the Bureau of Drugs is unaware of any adequate and well-controlled clinical investigation, conducted by experts qualified by scientific training and experience, meeting the requirements of section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355) and 21 CFR 314.111(a) (5), demonstrating the effectiveness of the drug products.

Therefore, notice is given to the holder(s) of the new drug application(s) and to all other interested persons that the Director of the Bureau of Drugs proposes to issue an order under section 505 (e) of the Federal Food, Drug, and Cos-

metic Act (21 U.S.C. 355(e)), withdrawing approval of the new drug application(s) (or if indicated above, those parts of the application(s) providing for the drug product(s) listed above) and all amendments and supplements thereto on the ground that new information before him with respect to the drug product(s), evaluated together with the evidence available to him at the time of approval of the application(s), shows there is a lack of substantial evidence that the drug product(s) will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling.

In addition to the holder(s) of the new drug application(s) specifically named above, this notice of opportunity for hearing applies to all persons who manufacture or distribute a drug product which is identical, related, or similar to a drug product named above, as defined in 21 CFR 310.6. It is the responsibility of every drug manufacturer or distributor to review this notice of opportunity for hearing to determine whether it covers any drug product he manufactures or distributes. Any person may request an opinion of the applicability of this notice to a specific drug product he manufactures or distributes that may be identical, related, or similar to a drug product named in this notice by writing to the Food and Drug Administration, Bureau of Drugs, Division of Drug Labeling Compliance (HFD-310), 5600 Fishers Lane, Rockville, MD 20852.

In addition to the ground(s) for the proposed withdrawal of approval stated above, this notice of opportunity for hearing encompasses all issues relating to the legal status of the drug products subject to it (including identical, related, or similar drug products as defined in § 310.6) e.g., any contention that any such product is not a new drug because it is generally recognized as safe and effective within the meaning of section 201(p) of the act or because it is exempt from part or all of the new drug provisions of the act pursuant to the exemption for products marketed prior to June 25, 1938, contained in section 201(p) of the act, or pursuant to section 107(c) of the Drug Amendments of 1962; or for any other reason.

In accordance with the provisions of section 505 of the act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR 310, 314), the applicant(s) and all other persons subject to this notice pursuant to 21 CFR 310.6 are hereby given an opportunity for a hearing to show why approval of the new drug application(s) should not be withdrawn and an opportunity to raise, for administrative determination, all issues relating to the legal status of a drug product named above and of all identical, related, or similar drug products.

If an applicant or any other person subject to this notice pursuant to 21 CFR 310.6 elects to avail himself of the opportunity for a hearing, he shall file (1) on or before January 14, 1976, a written notice of appearance and request for hearing, and (2) on or before February

[Docket No. 75N-0357]

13, 1976, the data, information, and analyses on which he relies to justify a hearing, as specified in 21 CFR 314.200. Any other interested person may also submit comments on this notice. The procedures and requirements governing this notice of opportunity for hearing, a notice of appearance and request for hearing, a submission of data, information, and analyses to justify a hearing, other comments, and a grant or denial of hearing, are contained in 21 CFR 314.200.

The failure of an applicant or any other person subject to this notice pursuant to 21 CFR 310.6 to file timely written appearance and request for hearing as required by 21 CFR 314.200 constitutes an election by such person not to avail himself of the opportunity for a hearing concerning the action proposed with respect to such drug product and a waiver of any contentions concerning the legal status of any such drug product. Any such drug product may not thereafter lawfully be marketed, and the Food and Drug Administration will initiate appropriate regulatory action to remove such drug products from the market. Any new drug product marketed without an approved NDA is subject to regulatory action at any time.

A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that there is a genuine and substantial issue of fact that requires a hearing. If it conclusively appears from the face of the data, information, and factual analyses in the request for the hearing that there is no genuine and substantial issue of fact which precludes the withdrawal of approval of the application, or when a request for hearing is not made in the required format or with the required analyses, the Commissioner will enter summary judgment against the person(s) who requests the hearing, making findings and conclusions, denying a hearing.

All submissions pursuant to this notice shall be filed in quintuplicate with the Hearing Clerk, Food and Drug Administration, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852.

All submissions pursuant to this notice, except for data and information prohibited from public disclosure pursuant to 21 U.S.C. 331(j) or 18 U.S.C. 1905, may be seen in the office of the Hearing Clerk Monday through Friday from 9 a.m. to 4 p.m., except on Federal legal holidays.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 505, 52 Stat. 1052-1053, as amended; 21 U.S.C. 355), and under authority delegated to the Director of the Bureau of Drugs (21 CFR 2.121).

Dated: December 5, 1975.

J. RICHARD CROUT,
Director, Bureau of Drugs.

[FR Doc.75-33650 Filed 12-12-75; 8:45 am]

On March 20, 1974, Dr. Sidney Wolfe, Director of the Health Research Group, filed suit in the United States District Court for the District of Columbia to obtain copies of verbatim transcripts of closed sessions of the over-the-counter (OTC) drug review panel on antacid drug products. *Wolfe v. Weinberger*, No. 74-454. The suit was based on the Freedom of Information Act (5 U.S.C. 552) and the Federal Advisory Committee Act (5 U.S.C. App. D). The Food and Drug Administration had denied access to the transcripts on the ground that they reflected internal deliberations of the antacid panel, and so were exempt from disclosure under both statutes pursuant to exemption 5 of the Freedom of Information Act (5 U.S.C. 552(b)(5)).

On October 31, 1975, the District Court (Richey, J.) ordered the transcripts to be produced. The court held that the transcripts are not exempt under 5 U.S.C. 552(b)(5). However, since all but one of the panel's meetings had occurred before January 5, 1973, the court expressly declined to reach any issue involving the Federal Advisory Committee Act, which was not effective until that date.

For this reason, and because the issue of the availability of exemption 5 to close deliberative sessions of advisory committees (and, by implication, to protect advisory committee transcripts) under the Federal Advisory Committee Act is presented in a case now pending in the United States Court of Appeals for the District of Columbia Circuit (*Aviation Consumer Action Project v. Washburn*, No. 75-1086), the Government has decided not to appeal the District Court's decision in *Wolfe v. Weinberger*. Moreover, the transcripts at issue were made available to the staff of the Subcommittee on Intergovernmental Relations and Human Resources of the House Committee on Government Operations. As a result, substantial portions of the transcripts about which some controversy had developed were introduced into the public record of hearings held before the subcommittee on May 9 and 12, 1975.

Accordingly, although no appeal of the narrow ruling in *Wolfe* will be taken, and the antacid panel's transcripts are therefore now available, the Commissioner of Food and Drugs does not regard the decision as necessitating a modification in existing policy, and where necessary and appropriate, will continue to authorize the closing of the deliberative portions of advisory committee meetings pursuant to exemption 5. The basis for this policy has been set forth numerous times; see, e.g., Notice of Meetings of Food and Drug Administration Advisory Committees published in the FEDERAL REGISTER of February 5, 1973 (38 FR 3345,

3347). The Department of Justice has advised the Food and Drug Administration that, because the decision in *Wolfe* is explicitly not based on the Federal Advisory Committee Act, the agency may adhere to its existing policy and, if necessary, defend that policy in court.

for Compliance.

YOGI BEAR JELLYSTONE PARK CAMP RESORT

Notice of Hearing

In the matter of Yogi Bear Jellystone Park Camp Resort, OILSR No. 0-3524-41-37, 0-3524-41-37(A), Doc. No. 75-241-IS. Pursuant to 15 U.S.C. 1706(d) and 24 CFR 1720.160(d) notice is hereby given that:

1. Land Unlimited, Inc., B. J. Bryant, President, its officers and agents, hereinafter referred to as "Respondent," being subject to the provisions of the Interstate Land Sales Full Disclosure Act (Pub. Law 90-448) (15 U.S.C. 1701 et seq.), received a Notice of Proceedings and Opportunity for Hearing issued October 15, 1975, which was sent to the developer pursuant to 15 U.S.C. 1706(d), 24 CFR 1710.45(b) (1) and 1720.125 informing the developer of information obtained by the Office of Interstate Land Sales Registration alleging that the Statement of Record and Property Report for Yogi Bear Jellystone Park Camp Resort, located in Ohio State, contain untrue statements of material fact or omit to state material facts required to be stated therein or necessary to make the statements therein not misleading.

2. The Respondent filed an Answer received October 31, 1975, in response to the Notice of Proceedings and Opportunity for Hearing.

3. In said Answer the Respondent requested a hearing on the allegations contained in the Notice of Proceedings and Opportunity for Hearing.

4. Therefore, pursuant to the provisions of 15 U.S.C. 1706(d) and 24 CFR 1720.160(d), **IT IS HEREBY ORDERED** that a public hearing for the purpose of taking evidence on the questions set forth in the Notice of Proceedings and Opportunity for Hearing will be held before Judge James W. Mast, in Room 7146, Department of HUD, 451 7th Street, SW., Washington, D.C., on January 19, 1976, at 10:00 a.m.

The following time and procedure is applicable to such hearing: All affidavits and a list of all witnesses are requested to be filed with the Hearing Clerk, HUD Building, Room 10150, Washington, D.C., 20410 on or before January 5, 1976.

6. The Respondent is HEREBY NOTIFIED that failure to appear at the above scheduled hearing shall be deemed a default and the proceedings shall be determined against Respondent, the allegations of which shall be deemed to be true, and an ORDER Suspending the Statement of Record, herein identified, shall be issued pursuant to 24 CFR 1710.45(b) (1).

This Notice shall be served upon the Respondent forthwith pursuant to 24 CFR 1720.440.

By the Secretary.

Dated: December 4, 1975.

DEPARTMENT OF TRANSPORTATION

[Docket No. EX74-4; Notice 4]

AM GENERAL CORP.

Petition for Temporary Exemption From Motor Vehicle Safety Standard

AM General Corporation of Detroit, Michigan, has been granted an exemption until February 1, 1976, of its temporary exemption from Motor Vehicle Safety Standard No. 103, *Windshield Defrosting and Defogging Systems*.

Notice of the company's petition was published on October 10, 1975, (40 FR 47826) and an opportunity afforded for comment.

On August 26, 1974, notice was published in the FEDERAL REGISTER (39 FR 30853) of AM General's petition to manufacture 300 electric delivery vans for the U.S. Postal Service without windshield defrosting systems. The basis of the petition was that an exemption would facilitate the development and field evaluation of a low-emission motor vehicle. The Administrator granted AM General's petition on November 7, 1974 (39 FR 39439), issuing an exemption. Because "numerous 'in-house' and vendor oriented problems have slowed down our anticipated monthly production schedule" and "a safety related defect . . . has further delayed production of these vehicles," AM General "found it impossible to finish

production of the remaining vehicles by the deadline of November 1, 1975" and requested an extension of its exemption to February 1, 1976.

No comments were received on the petition.

The vehicles for which AM General Corporation seeks an extension of its exemption are those that it intended to produce under the original exemption and represent the completion of its contract with the US Postal Service. Therefore, there is no valid reason not to allow it to do so.

In consideration of the foregoing, the Administrator finds that an extension of NHTSA Exemption No. 74-4 would facilitate the development and field evaluation of a low emission motor vehicle, and that such extension would be in the public interest and consistent with the objectives of the National Traffic and Motor Vehicle Safety Act. Accordingly, NHTSA Exemption No. 74-4, from 49 CFR 571.103, Motor Vehicle Safety Standard No. 103, *Windshield Defrosting and Defogging Systems*, is hereby extended to February 1, 1976.

(Sec. 3, Pub. L. 92-548, 88 Stat. 1159 (15 U.S.C. 1410); delegation of authority at 49 CFR 1.50.)

Issued on December 10, 1975.

JAMES B. GREGORY,
Administrator.

RED CARPET FLYING SERVICE AND
MOUNTAIN AIR AVIATION, INC.

Order Designating Applications for
Consolidated Hearing on Stated Issues

In the matter of applications of Red Carpet Flying Service, Walla Walla, Washington (Docket No. 20635; File No. 59-A-L-85) and Mountain Air Aviation, Inc., Walla Walla, Washington (Docket No. 20636; File No. 20-A-L-95) For an aeronautical advisory station to serve the Walla Walla City-County Airport, Walla Walla, Washington.

1. Red Carpet Flying Service (hereinafter called Red Carpet) and Mountain Air Aviation, Inc. (hereinafter called Mountain Air) have each filed a new application for authority to operate an aeronautical advisory station at the same airport. Since § 87.251(a) of the Commission's rules provides that only one aeronautical advisory station may be authorized at a landing area, the above-captioned applications are mutually exclusive. Accordingly, it is necessary to designate the applications for comparative hearing in order to determine which application should be granted. Except for the issues specified herein, each applicant is otherwise qualified.

2. In view of the foregoing, IT IS ORDERED, That pursuant to the provisions of § 309(e) of the Communications Act of 1934, as amended, and § 0.331 of the Commission's rules, the above-captioned applications ARE HEREBY DESIGNATED FOR HEARING IN A CONSOLIDATED PROCEEDING at a time and place to be specified in a subsequent Order on the following comparative issues: (a) to determine which applicant would provide the public with better aeronautical advisory service based on the following considerations:

- (1) Location of the fixed-base operation and proposed radio station in relation to the landing area and traffic patterns;
- (2) Hours of operation;
- (3) Personnel available to provide advisory service;
- (4) Experience of applicant and employees in aviation and aviation communications;
- (5) Ability to provide information pertaining to primary and secondary communications as specified in § 87.257 of the Commission's rules.
- (6) Proposed radio system including control and dispatch points; and
- (7) The availability of the radio facilities to other fixed-base operators.

(b) To determine in light of the evidence adduced on the foregoing issues which of the applications should be granted.

3. It is further ordered, That to avail themselves of an opportunity to be heard, Red Carpet and Mountain Air, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall within 20 days of the mailing of this Order, file with the Commission, in triplicate, a written appearance stating an intention to appear on the date set for hearing and present evidence on the issues specified in this Order. Failure to file a written appearance within the time specified may result in dismissal of the application with prejudice.

Adopted: November 21, 1975.

Released: November 25, 1975.

[Docket No. RP76-18]

ARKANSAS LOUISIANA GAS CO.

Order Denying Motion for Reconsideration

DECEMBER 8, 1975.

On October 31, 1975 Arkansas Louisiana Gas Company (Arkla) filed an Answer to Petition to Intervene and Protest of Arkansas-Missouri Power Company and Motion for Consideration of Order requesting the Commission to suspend the proposed change in rates for transportation service¹ for one day rather than five months as ordered. Arkansas-Missouri Power Company (Ark-Mo) filed an Answer to Motion for Reconsideration on November 7, 1975.

Arkla contends that "no justification can be given for a five-month suspension." However, the holding in *Municipal Light Boards of Reading and Wakefield v. F.P.C.*, 450 F.2d 1341 (D.C. Cir. 1971) indicates that the length of suspension is a non-reviewable and discretionary determination of the Commission. Moreover, our Order of October 31, 1975 stated, *inter alia*, that the following issues should be given "careful consideration" by the parties to this proceeding: "propriety of charging Ark-Mo on the basis of system-wide transportation and storage costs, the claimed increases in wages and employee benefits, materials and supplies expenses, and the claimed overall return of 12.23%." Based on our review and reconsideration of Arkla's filing and motion we have concluded that a five-month suspension was justified.

Arkla asserts in its motion that because the Commission failed to address the issue of the justness and reasonableness of the existing transportation charge of 3.56 cents per Mcf we "implicitly recognize that the 3.56 cents per Mcf rate is too low".

This assertion clearly misinterprets our order. Under the Natural Gas Act, the Commission's power to suspend is limited to "new schedules" filed by any natural gas company after thirty days notice to the Commission and the public. Section 4 (d) and (e) of the Act, 15 U.S.C. §§ 717c(d) and (e). By suspending a proposal, we make no decision concerning the justness and reasonableness of an existing rate. Accordingly, our Order of October 31, 1975 in this proceeding does not address the issue of Arkla's existing rate, but relates to the propriety of Arkla's proposed rate.

The Commission finds. Good cause exists to deny Arkla's Motion for Reconsideration.

¹Second Revised Sheet No. 44 and First Revised Sheet No. 47 to First Revised Volume No. 2 of Arkla's FPC Gas Tariff.

The Commission orders. (A) Arkla's Motion for Consideration is hereby denied.

(B) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

[Docket No. ER76-311]

CENTRAL ILLINOIS PUBLIC SERVICE CO.
Proposed Changes in FPC Electric Service Tariffs

DECEMBER 8, 1975.

Take notice that Central Illinois Public Service Company (Company) on December 1, 1975, tendered for filing changes in its FPC Electric Tariffs proposing to revise (1) Rate Schedule W-1 for wholesale electric service to electric cooperatives, (2) Rate Schedule W-2 for wholesale electric service to municipal customers purchasing their total requirements and (3) Service Schedule W-3 for wholesale electric service to customers purchasing partial requirements to supplement their own generation. Company also filed a new service agreement with Mt. Carmel Public Utility Co. which provides that the charges for service under the agreement will be based upon Company's Service Schedule W-3. The proposed tariff changes would increase revenues from jurisdictional sales and service by an aggregate of \$2,881,424.42 based on calendar year 1975.

Company proposes to make the tariff changes effective January 1, 1976, for some customers and for other customers upon the expiration of the various effective periods for the rates and charges currently specified in the agreements between the Company and those customers.

Company states that the proposed tariff revisions contain an upward adjustment in the rate level to more adequately reflect current and anticipated economic conditions. Company states further that the proposed revisions to Rate Schedule W-1 resulted from a settlement which was reached after extended negotiations.

Copies of the filing were served upon Company's jurisdictional customers.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 19, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this

filing are on file with the Commission and are available for public inspection.

[Docket No. C 176-254]

GENERAL AMERICAN OIL COMPANY OF TEXAS, ET AL.
Application

DECEMBER 8, 1975.

Take notice that on November 4, 1975, American General Oil Company of Texas (Operator), et al., Meadows Building, Dallas, Texas 75206, filed in Docket No. CI76-254 an application pursuant to Section 7(b) of the Natural Gas Act for permission and approval to abandon the sale for resale of natural gas in interstate commerce from the Lawson Field, Acadia Parish, Louisiana, to Texas Gas Transmission Corporation (Texas Gas), all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant states that the reserves dedicated to the contract on file as its FPC Gas Rate Schedule No. 73 are depleted and that the well has been plugged and abandoned. Applicant states further that the leases covered by the contract have expired and have been released.

It is also stated that Texas Gas has agreed not to object to the abandonment of the subject sale on the condition Applicant grant Texas Gas' the exclusive option to purchase any gas which may ever be produced in the future from the properties by Applicant, which option Applicant states it is unwilling to grant although it has no present intention of acquiring an interest in said properties. It is further stated that Texas Gas also insists on said condition as a condition precedent to its concurrence in contract termination.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 19, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on

this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[Docket No. CI76-354]

GENERAL AMERICAN OIL COMPANY OF TEXAS, ET AL.
Application

DECEMBER 8, 1975.

Take notice that on November 4, 1975, General American Oil Company of Texas (Operator), et al. (Applicant), Meadows Building, Dallas, Texas 75206, filed in Docket No. CI76-254 an application pursuant to Section 7(b) of the Natural Gas Act for permission and approval to abandon sales for resale of natural gas in interstate commerce from the Lawson Field, Acadia Parish, Louisiana, to Texas Gas Transmission Corporation (Texas Gas), all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant states that the reserves dedicated to the contract on file as its FPC Gas Rate Schedule No. 81 are depleted and that the well has been plugged and abandoned. Applicant states further that the leases covered by the contract have expired and have been released. It is also stated that Texas Gas has agreed not to object to the abandonment of the subject sales on the condition that Applicant grant Texas Gas the exclusive option to purchase any gas which may ever be produced in the future from the properties by Applicant, which option Applicant states it is unwilling to grant although it has no present intention of acquiring an interest in said properties. It is further stated that Texas Gas also insists on said condition as a condition precedent to its concurrence in contract termination.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 18, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not

serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

GRANITE STATE GAS TRANSMISSION, INC.
Proposed Changes in Rates Pursuant to
Purchased Gas Adjustment Provision

DECEMBER 8, 1975.

Take notice that Granite State Gas Transmission, Inc. (Granite State), on December 1, 1975, tendered for filing Tenth Revised Sheet No. 3A and Substitute Tenth Revised Sheet No. 3A in its FPC Gas Tariff, Original Volume No. 1, containing proposed changes in rates to be effective January 1, 1976.

According to Granite State, the instant filing is made pursuant to a purchased gas cost adjustment provision in its tariff, previously approved by the Commission on December 14, 1972, in Docket No. RP73-17 and the proposed changes, submitted on alternate sheets, reflect alternate changes in the cost of gas purchased from its sole supplier, Tennessee Gas Pipeline Company, a Division of Tenneco, Inc., which Tennessee has proposed to make effective January 1, 1976.

Granite State further states that its proposed purchased gas cost changes are applicable to its sales to Northern Utilities, Inc. (Northern) which is Granite State's sole jurisdictional customer. According to Granite State, the annual effect on Northern of the proposed rates contained on Tenth Revised Sheet No. 3A is \$152,604 and the annual effect of the proposed rates contained on Substitute Tenth Revised Sheet No. 3A is \$167,633. Both estimates are based on

purchases from Tennessee and sales to Northern for the twelve months ended October 31, 1975.

According to Granite State, copies of the filing were served upon Northern and the regulatory commissions of the States of Maine and New Hampshire.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 23, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

MISSISSIPPI POWER & LIGHT CO.
Agreement

DECEMBER 8, 1975.

Take notice that on November 18, 1975, Mississippi Power & Light Company (MP&L) tendered for filing an Agreement for Municipal Wholesale Electric Service dated October 21, 1975, providing for delivery of power to the City of Itta Bena, Mississippi (City). This Agreement incorporates MP&L's Rate Schedule MW-13 (Revised) which is presently effective, subject to refund, pending the outcome of the proceeding in Docket No. E-9058.

MP&L requests that the Agreement become effective on the date initial service may actually be rendered. MP&L states it will advise the Commission of that date.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 19, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. [Docket No. ER76-17]

OHIO POWER CO.

Order Extending Procedural Dates and
Requiring Submission of Data

DECEMBER 8, 1975.

On July 21, 1975, Ohio Power Company (Ohio) tendered for filing a proposed rate increase to Wheeling Electric Company, a corporate affiliate. On August 29, 1975, the Commission accepted the proposed tariff sheets for filing and suspended their effectiveness until November 1, 1975. By order of November 6, 1975, the procedural dates in this docket were extended five weeks. This was done in response to Staff's motion asking for a twelve week extension, which motion was opposed by Ohio.

On November 13, 1975, Staff filed this motion asking for a further extension of procedural dates and asking the Commission to set a date for Ohio to submit a response to Staff's data request of October 31, 1975. Staff points out that the requested data is necessary for Staff to prepare testimony and accordingly it will need time to evaluate the data after it is submitted. Ohio's response indicates that they will serve a response to Staff's data request but they oppose a further extension of time.

Our review of this motion indicates that the public interest will best be served by granting Staff's motion for extending procedural dates and fixing a date certain for submission of the data.

The Commission finds. The granting of Staff's motion will be in the public interest and it should be granted.

The Commission orders. (A) The motion of Staff is granted.

(B) Ohio shall respond to Staff's data request on or before December 12, 1975.

(C) The procedural dates in this proceeding are extended as follows:

Service of Staff Testimony, January 13, 1976.

Service of Intervenor Testimony, February 3, 1976.

Service of Company Rebuttal, February 24, 1976.

Hearing, March 9, 1976.

OHIO RIVER PIPELINE CORP.
Request for Waiver

DECEMBER 8, 1975.

Request for waiver of requirements to file Form 16 Reports in accordance with Order Nos. 489 and 523.

By Order Nos. 489 and 523 issued in Docket No. R-472 on August 24, 1973, and February 6, 1975, respectively, the Commission promulgated § 260.12 of Statements and Reports (Schedules), (18 CFR 260.12), which requires interstate natural gas pipeline companies

making sales of natural gas for resale in interstate commerce to file a semi-annual report of gas supply, requirements and curtailments, designated as FPC Form No. 16.

Ohio River Pipeline Corporation (Ohio), a Class A pipeline company, has requested, by letter dated September 18, 1975, that it be granted a waiver of the reporting requirements of § 260.12. Ohio purchases all of its natural gas from Texas Gas Transmission Corporation (Texas Gas) and sells all of its gas to Indiana Gas Corporation (Indiana). Ohio's gas supply, requirements and curtailments are reflected in the FPC Form No. 16 filed by Texas Gas.

Ohio also has requested that it be exempted from filing FPC Form No. 17. By letter from the Secretary dated November 10, 1972, the Commission staff requested that natural gas companies file FPC Form No. 17. The language of the aforementioned letter requests that such information, a *Monthly Report of Natural Gas Pipeline Curtailments*, be submitted. The report is one generated by the staff and not by direction of the Commission. The filing of Form No. 17 is voluntary. Since it is filed on a voluntary basis, no exemption from filing the Form is required.

The Commission finds. (1) Ohio has demonstrated good cause for the waiver of the reporting requirements of § 260.12 of Statements and Reports (Schedules).

(2) A waiver of the reporting requirements of FPC Form No. 17 is not necessary because such filing is not mandatory.

The Commission orders. (A) The request of Ohio for a waiver of the reporting requirements of Form No. 16 under Order No. 489 and 523 is granted, subject to further review should its operations change in the future.

(B) The request for waiver of Form No. 17 is rejected as unnecessary.

By the Commission.

**OKLAHOMA GAS AND ELECTRIC CO.
Amended Fuel Clause**

DECEMBER 8, 1975.

Take notice that on November 24, 1975, Oklahoma Gas and Electric Company (OG&E) tendered for filing an amended Fuel Cost Adjustment clause which replaces the Fuel clause in its standard rate schedules PN-1 and PN-2. This amended clause affects 26 FPC Rates of OG&E.

OG&E requests an effective date of January 1, 1976, for this clause.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol

Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 19, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

**OKLAHOMA GAS AND ELECTRIC CO.
Agreement**

DECEMBER 8, 1975.

Take notice that on November 24, 1975, Oklahoma Gas and Electric Company (OG&E) tendered for filing an Agreement between it and Red River Valley Rural Electric Association, dated July 23, 1975, which provides for wholesale electric service at a new point of delivery, called the Wolfe Creek point.

OG&E states that this Agreement will be under its Standard Rural Electric Cooperative Rate Schedule, PN-2 which is its standard schedule for service to Rural Electric Cooperatives. OG&E also included a Fuel Cost Adjustment clause to conform to the requirements of § 35.14 of the Commission's Regulations as amended by Order No. 517.

OG&E requests an effective date of July 24, 1975, and that the notice requirement be waived to allow this date.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). [Docket No. CI73-617]

PIONEER PRODUCTION CORP.

Order Granting Petition for Special Relief

NOVEMBER 21, 1975.

On March 6, 1974, Pioneer Production Corporation (Pioneer) filed in Docket No.

CI73-617 a petition for special relief from the Hugoton-Anadarko Area rate ceiling pursuant to Opinion No. 586¹ and § 1.7 (b) of the Commission's Rules of Practice and Procedure (18 CFR 1.7(b)) for a sale of natural gas to Northern Natural Gas Company (Northern) from the McQuiddy No. 1 and McQuiddy No. 2 wells located in Hemphill County, Texas.

Pioneer owns a 25% working interest in the McQuiddy No. 1 and No. 2 wells. By letter orders of August 30, 1973 and March 1, 1974, the Commission issued temporary certificates authorizing Pioneer to sell its interest in the gas produced from the subject wells to Northern at the applicable area rate ceiling for new gas of 21.5 cents per Mcf pursuant to a gas sales contract dated February 27, 1973 and designated as Pioneer's FPC Gas Rate Schedule No. 43. In its petition for special relief Pioneer stated that the operator of the wells had entered into an agreement with a compression contractor for compression of the gas from the two wells in order that the gas could be delivered against the pressures in Northern's lines. Pioneer requested that the Commission grant it special relief from the area rate ceiling and allow Pioneer to collect either (a) 5 cents per Mcf for compression charges as provided by its contract with Northern, or (b) the amount actually incurred by Pioneer for compression charges.

Following the issuance of Opinion No. 699 and subsequent orders in Docket No. R-389-B, Pioneer filed for rate increases to the nationwide rate as established by Opinion No. 699-H for its sales from the subject wells to Northern. Subsequently, on June 2, 1975, Pioneer filed an amended petition for special relief in Docket No. CI73-617, seeking special relief from the nationwide rate, and again requesting that the Commission authorize Pioneer to collect either 5 cents per Mcf or the amounts actually incurred by Pioneer for compression charges. Pioneer avers that it cannot economically continue to absorb its compression costs and still maintain service.

Notice of Pioneer's petition for special relief was issued on March 14, 1974, and appeared in the Federal Register on March 21, 1974, at 39 FR 10666. No protests or petitions to intervene have been filed.

Pioneer's contract with Northern provides for Northern to pay 5 cents per Mcf to Pioneer in the event that Pioneer must compress the gas produced from the subject wells. Consequently, Pioneer is entitled to receive no more than 5 cents per Mcf for compression charges.

In seven previous special relief proceedings involving only expenditures for

¹44 F.P.C. 761 (1970).

compression facilities,² we granted relief based on consideration of the incremental cost of compression and the additional reserves recoverable as a result thereof. In this proceeding Pioneer seeks similar relief, i.e., an increase in its current rate to correspond to the added expense of compression.

Based on its analysis of data submitted by Pioneer, Staff estimates that 103,869 Mcf remain to be produced as of July 1, 1975, and concludes that, based on the incremental cost of compression, Pioneer is entitled to collect 5 cents per Mcf for compression costs in addition to the national rate it is currently collecting. After a careful review of the costs to be incurred and the reserves to be recovered, we conclude that it is in the public interest to grant Pioneer's amended petition.³

The Commission orders. (A) Pioneer's amended petition for special relief filed June 2, 1975, is hereby granted.

(B) Pioneer is authorized to collect an additional 5.0 cents per Mcf at 14.65 psia, in addition to the national rate it is collecting pursuant to Opinion No. 699-H, for gas produced from the McQuiddy No. 1 and No. 2 wells, effective on the date that Pioneer files an appropriate notice of rate change filing pursuant to § 154.94 of the Commission's Regulations under the Natural Gas Act (18 CFR Section 154.94).

Texas Eastern Transmission Corp. (Docket No. G-6508).

Findings and Order After Statutory Hearing Consolidating Applications, Granting Permission and Approval To Abandon, Issuing Certificate of Public Convenience and Necessity, Amending Orders and Granting Interventions

NOVEMBER 21, 1975.

On April 15, 1975, Texas Eastern Transmission Corporation (Texas Eastern) filed in Docket No. CP75-306 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon a portion of its interstate gas transmission facilities for the purpose of using such abandoned facilities in connection with the transportation of petroleum products.

In order to implement the proposed pipeline conversion, Texas Eastern, in conjunction with several other interstate pipelines, has filed four related applications requesting exchange and/or construction authorization to enable Texas Eastern to continue service from existing sources of gas supply or exchange gas now connected to its Provident City—Beaumont line proposed to be abandoned in Docket No. CP75-306.

Texas Eastern requests authorization in Docket No. CP75-306 to abandon approximately 202 miles of its Provident City—Beaumont pipeline along with 6,200 horsepower of compression at two compressor stations located along said pipeline. Texas Eastern states that after grant of abandonment it will transfer the Provident City—Beaumont line to its Products Pipeline Division for use as a common carrier of petroleum products. Texas Eastern intends to reconnect gas supplies currently being transported through its Provident City—Beaumont line by reconnection to Texas Eastern's parallel 30-inch McAllen pipeline or connection to the systems of other interstate pipeline companies with whom it proposes to engage in exchange arrangements. Texas Eastern proposes to charge the total cost of such reconstructions, estimated at \$605,000, to its Products Pipeline Division and will not include such costs in Texas Eastern's rate base. Texas Eastern further proposes to remove the net depreciated cost of the facilities to be abandoned from its gas plant in service account and transfer such costs to its Products Pipeline Division.¹

To implement the proposed reallocation of existing gas supply along the pipeline to be abandoned in Docket No. CP 75-306 the following applications and amendments have been filed.

¹ Texas Eastern states that the total gross amount of investment attributable to the facilities proposed to be abandoned is \$13,183,700, and indicates that removal of the net depreciated cost of the facilities from its gas plant in service account will result in a reduction in Texas Eastern's net rate base of \$2,831,900.

1. On June 4, 1975, Texas Eastern and Tennessee Gas Pipeline Company, a Division of Tenneco, Inc. (Tennessee) filed in Docket No. CP75-355 a joint application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity to construct and operate interconnections on three of Tennessee's pipelines, the 6-inch Nader pipeline in Colorado County, Texas, the 6-inch Bonus-Frnka pipeline in Wharton County, Texas, and the 30-inch No. 1 pipeline in Wharton County, Texas. Applicants state that the facilities to be constructed (1.88 miles of 3-inch pipeline, valves and taps) would consist of three interconnections that would be connected to five existing sources of gas supply. Texas Eastern proposes to deliver to Tennessee approximately 550 Mcf of gas per day at the proposed taps under an existing exchange agreement on an Mcf-for-Mcf basis as authorized by the certificate issued in Docket No. CP63-177 on March 18, 1963, as amended February 7, 1974. Tennessee would redeliver an equal volume of gas at existing points of interconnection that are mutually agreeable.

Volumes to be delivered and redelivered are limited to 1,500 Mcf per day. The estimated cost of the facilities is \$257,321 which would be borne by Texas Eastern's Products Pipeline Division as part of the cost of conversion of the Provident City—Beaumont pipeline to common carrier products service.

2. On June 6, 1975, Texas Eastern filed in Docket No. CP73-297 a petition to amend the order of the Commission issued December 10, 1973, as amended August 23, 1974, to authorize the construction and operation of additional facilities for the previously authorized exchange of gas with Natural Gas Pipeline Company of America (Natural). Texas Eastern states that pursuant to an agreement with Natural dated November 17, 1972, as amended February 6, 1974, and December 3, 1974, Natural delivers gas to Texas Eastern at a point near Texas Eastern's 16-inch Provident City—Beaumont pipeline and that Texas Eastern redelivers an equivalent volume at the intersection of Natural's 12-inch Chocolate Bayou Lateral and Texas Eastern's 30-inch McAllen Line in Brazoria County, Texas.

Texas Eastern proposes that the deliveries from Natural made at its Provident City—Beaumont pipeline delivery point (proposed to be abandoned in Docket No. CP75-306) be authorized to be made to Texas Eastern's Provident City—Blessing 24-inch pipeline in Lavaca County, Texas. To effectuate the proposed change, Texas Eastern proposes to construct and operate 2.5 miles of 3-inch pipeline, a tap and a valve at an estimated cost to the Products Pipeline Division of \$156,150.

3. On June 3, 1975, Texas Eastern and Trunkline Gas Company (Trunkline)

filed in Docket No. G-6508 a joint petition to amend further the order issued on January 3, 1956, as amended June 1, 1970, in said docket by deleting therefrom authorization to exchange natural gas and operate facilities therefor at an interconnection of their pipelines in Wharton County, Texas. Petitioners have agreed to delete the Wharton exchange point from their exchange agreement while agreeing that in all other respects the exchange agreement will remain unchanged. Petitioners state that the subject exchange point is on the pipeline proposed to be abandoned in Docket No. CP75-306 and that because of depletion of gas it has been inactive for a number of years. Petitioners propose to continue their exchange agreement using the remaining authorized delivery points.

4. On June 26, 1975, Texas Eastern and United Gas Pipe Line Company (United) filed in Docket No. CP67-26 a joint petition to amend the order of the Commission issued on July 22, 1969, as amended, by deleting therefrom authorization to exchange natural gas at an authorized exchange point near Beaumont, Jefferson County, Texas. The petition states that although Petitioners are authorized to exchange gas at a point near Beaumont, that permission and approval to abandon facilities were granted United by the Commission on August 14, 1970, in Docket No. CP70-103 (44 FPC 292). United no longer has facilities at the authorized point of exchange and said point is included in that portion of Texas Eastern's system proposed to be abandoned in Docket No. CP75-306.

In order to convert its existing natural gas pipeline into products transportation service Texas Eastern proposes in Docket No. CP75-306 to abandon the following facilities:

(1) 16.21 miles of 16-inch pipeline No. 23, looping the Wilcox Trend pipeline No. 21, terminating at the Provident City junction, located in Lavaca County Texas;

(2) 109.05 miles of 16-inch pipeline No. 5, Provident City to Baytown, located in Lavaca, Colorado, Wharton, Fort Bend, Galveston and Harris Counties, Texas;

(3) 61.58 miles of 20-inch pipeline No. 8, Baytown to Beaumont, located in Harris, Chambers, and Jefferson Counties, Texas;

(4) 2,200 H.P. Booth Compressor Station located on the 16-inch pipeline No. 5 in Fort Bend County, Texas;

(5) 4,000 H.P. Hankamer Compressor Station (Station B) located on the 20-inch pipeline No. 8 in Chambers County, Texas; and

(6) 15.6 miles of gathering line and miscellaneous facilities.

In order to reconnect existing sources of supply, Texas Eastern proposes the following changes be made on its system:

(1) On the 16-inch line No. 23 loop west of Provident City reconnect the 6-inch Salem, 6-inch North Morales, and Blohm Laterals to the 16-inch line No. 21;

(2) On the 16-inch line No. 5, Provident City to Baytown;

(a) Gas supply sources, M&R 581, 1647, 1515, 1611, 1656, will be reconnected to the system of Tennessee for exchange.³

(b) Relocate a delivery of gas (M&R 1633) made for the account of Natural Gas Pipeline Company of America for exchange.³

(c) Eliminate an exchange interconnection with Trunkline. Applicant states that this small volume exchange point has been inactive for some time and that Trunkline has agreed that any future use of this exchange location is doubtful.⁴

(3) On the 20-inch line No. 8, Baytown to Beaumont:

(a) Reconnect supply sources 207, 210, 393, 233, 228 to the 30-inch McAllen pipeline No. 16;

(b) Eliminate the exchange point M&R 076, for exchange deliveries to United. Applicant states that this small volume exchange point has been inactive for some time and that United has agreed that any future use of this exchange location is doubtful.⁵

Texas Eastern asserts that its proposed abandonment and consequent conversion of the subject facilities are justified by the perceived benefit of gas customers from the optimization of available capacity, by reduction in the cost of service with no effect on the level of service to existing gas customers, and by the perceived benefit to the markets served by the products pipeline.

The application by Texas Eastern in Docket No. CP75-306 was noticed on April 25, 1975, with protests or petitions to intervene due by May 16, 1975. A petition for leave to intervene was filed by Natural Gas Pipeline Company of America (Natural) on May 16 and on May 19 a late petition to intervene was filed by Public Service Electric and Gas Company (Public Service).

The application by Texas Eastern in Docket No. CP73-297 was noticed on June 17, 1975, with protests or petitions to intervene due by July 7, 1975. On June 27 Natural filed a petition for leave to intervene in Docket Nos. CP73-297 and CP75-306 in support of both applications.

The applications in Docket Nos. G-6508, CP67-26 and CP75-355 were noticed on June 19, July 7, and June 20, 1975, respectively. No petitions to intervene or notices of intervention have been filed in said dockets.

On July 7, 1975, Texas Eastern filed a motion for consolidation and request for expeditious action in Docket Nos. CP75-306, CP75-355, CP73-297, G-6508 and CP67-26. Texas Eastern submits consolidation is appropriate inasmuch as the authorizations sought in these applica-

tions are related to, and necessitated only by the abandonment application in Docket No. CP75-306. The motion further urges expedited hearing and determination in these hearings to allow the midwestern and northeastern market served by Texas Eastern's Products Pipeline to benefit by conversion by the 1975-76 heating season. On July 11, 1975, Tennessee filed a motion in support of consolidation and expeditious action.

On September 17, 1975, Texas Eastern filed a motion pursuant to the provisions of Section 1.17 of the Commission's Rules of Practice and Procedure, for expedited consideration and decision on its application in Docket No. CP75-306 or alternatively for interim authorization to convert 61.58 miles of 20-inch pipeline and related facilities to liquid transportation service pending hearings on its application. In support of its motion, Texas Eastern alleges that grant of abandonment and conversion by early to mid-October 1975 will make the Btu equivalent of more than 200,000 Mcf⁶ of gas per day available to energy users in the Midwest and Northeast during the 1975-76 heating season while resulting in no reduction in level of natural gas deliveries. The motion alleges that the Commission's Uniform System of Account (Paragraph 5F of Gas Plant Instructions 1, Chap. 1, 18 CFR § 201) requires that the pipeline be transferred at its depreciated original cost and that by following this procedure there will result a reduction in Texas Eastern's cost of service and consequently its rates. Texas Eastern estimates that 18 months would be required for it to acquire the necessary right-of-way and construct new facilities to provide capacity equal to that of the proposed pipeline after conversion.

Alternatively, Texas Eastern requests that the Commission issue an order on an interim basis and pending final decision, authorization to convert to liquid transportation service 61.58 miles of 20-inch pipeline from Baytown to Beaumont. Texas Eastern states that this will provide 50,000 barrels per day capacity from the Houston-Baytown-Texas City

⁶ Texas Eastern's Products Pipeline Division operates a 3,263 mile common carrier products pipeline system transporting refined petroleum products. The main line of the products system extends from Beaumont, Texas to Lebanon, Ohio. The pipeline to be abandoned in Docket No. CP75-306 is proposed to be utilized as a common carrier to transport petroleum products from refineries and other sources of supply in the Texas Gulf Coast area (including the Houston, Baytown-Texas City refinery complex area) to Texas Eastern's Beaumont terminal for further transportation to the Midwestern and Northeastern markets. The requested conversion will make an additional 50,000 barrels per day capacity available to transport petroleum products. The Btu equivalent of 50,000 barrels of No. 2 fuel oil is approximately 300,000 Mcf per day of 1,000 Btu gas while 50,000 barrels of butane is equivalent to approximately 222,000 Mcf of gas and 50,000 barrels of butane is equivalent to approximately 190,000 Mcf of gas.

refinery area for deliveries to the Midwest and Northeast.⁷

Due to the interrelated nature of the applications in Docket Nos. G-6508, CP67-26, CP73-297, CP75-355 and CP75-306 it is appropriate to consolidate said filings.

The record indicates that there is only approximately 6,400 Mcf of gas per day available to Texas Eastern's 16 and 20-inch Provident City-Beaumont pipeline. Of this volume, 600 Mcf of gas per day can be reconnected to adjacent pipelines through exchange arrangements with other pipeline companies. The remaining 5,800 Mcf of gas per day can be reconnected to Texas Eastern's parallel 30-inch McAllen pipeline. It appears that Texas Eastern's 30-inch McAllen line has sufficient excess capacity to accommodate this volume of gas as well as other gas supplies which may be developed adjacent to those lines.

Since gas service will continue after abandonment of the Provident City-Beaumont pipeline without impairing natural gas service we will authorize abandonment and the related certificate applications at this time to allow Texas Eastern to convert said line to transport much needed petroleum products to the Midwestern and Northeastern markets for the 1975-76 heating season. We do so, however, on a conditional basis reserving the issues of appropriate transfer value and proper accounting procedure for later determination.

This Commission has the authority to require a transfer at a price other than net undepreciated original cost.⁸ The Uniform Systems of Accounts does not require transfer of the Provident City-Beaumont pipeline at its depreciated original cost. The Uniform Systems of Accounts is but an instrument to be used by the Commission in meeting its statutory obligation of granting abandonment only when and under such conditions that the public convenience or necessity is served. We therefore put Texas Eastern on notice that we reserve the issues of proper transfer value and accounting.⁹ We may ultimately find that

⁷ Texas Eastern states that by far the greater portion of product availability is anticipated from this area and that it anticipates that the full 50,000 barrel per day capacity can be provided and utilized through this connection.

⁸ Plant Instruction No. 5 of the Commission's Uniform System of Accounts provides that when gas plant constituting an operating unit or system is sold, the difference between the net undepreciated book value of the property sold and the consideration received should be recorded in Account 421.1, Gain on Disposition of Property, unless otherwise ordered by the Commission. (Emphasis added) There is nothing in the Uniform System of Accounts which prohibits a transfer at a value in excess of net undepreciated book value of the property. In fact if the Commission deemed it appropriate the Commission could "otherwise order" that the difference between the net undepreciated book value of the line and a transfer value in excess of that be treated as, in effect, a reduction in expense to Texas Eastern's gas customers.

⁹ In an order issued in Florida Gas Transmission Company, Docket No. CP74-192 on

Texas Eastern's proposed transfer value is proper and so order or that transfer should be made at some value above or below net undepreciated book value. Similarly we may authorize Texas Eastern's proposed accounting for said transfer or find that some different accounting procedure is necessary such as one which might flow any transfer value in excess of net undepreciated book value to the natural gas consumer.

At a hearing held on November 12, 1975, the Commission on its own motion received and made a part of the record in this proceeding all evidence, including the application and exhibits thereto, submitted in support of the authorization sought herein, and upon consideration of the record,

The Commission finds: (1) It is necessary and appropriate that the applications in Docket Nos. G-6508, CP67-26, CP73-297, CP75-355 and CP75-306 should be consolidated.

(2) Participation by Natural Gas Pipeline Company of America and Public Service Electric and Gas Company in this proceeding may be in the public interest.

(3) Applicants, Texas Eastern Transmission Corporation, Trunkline Gas Company, United Gas Pipe Line Company, and Tennessee Gas Pipeline Company, a Division of Tenneco, Inc. are "natural-gas companies" within the meaning of the Natural Gas Act.

(4) The facilities hereinbefore described, as more fully described in the application, are used in the transportation and sale of natural gas in interstate commerce subject to the jurisdiction of the Commission, and the abandonment thereof is subject to the requirements of Subsection (b) of section 7 of the Natural Gas Act.

(5) The abandonment proposed by Applicants are permitted by the public convenience or necessity and should be approved as hereinafter ordered.

(6) The proposed facilities hereinbefore described, as more fully described in the application in this proceeding, are to be used in the transportation of natural gas in interstate commerce subject to the jurisdiction of the Commission, and the construction and operation thereof by Applicants are subject to the requirements of subsections (c) and (e) of section 7 of the Natural Gas Act.

(7) Applicants are able and willing properly to do the acts and to perform the service proposed and to conform to the provisions of the Natural Gas Act and the requirements, rules and regulations of the Commission thereunder.

(8) The construction and operation of facilities by Applicants are required by the public convenience and necessity and certificates therefor should be is-

February 10, 1975, we ordered a formal hearing to develop a record, *inter alia*, regarding: "the full cost of the proposed products pipeline, including necessary conversion costs, as compared to the full cost of a new such pipeline, in order to determine the propriety of the sale to an affiliate company at depreciated original cost of jurisdictional facility for conversion to a non-jurisdictional use; . . .".

sued as hereinafter ordered and conditioned.

(9) It is necessary and appropriate to require Texas Eastern to file a separate accounting proposal within six months after abandonment, which proposal shall require Commission approval.

The Commission orders. (A) Certificates of public convenience and necessity are issued authorizing Applicants in Docket Nos. CP75-355 and CP75-306 to construct and operate the proposed facilities as hereinbefore described, all as more fully described in the application in this proceeding, upon the terms and conditions of this order.

(B) The certificates issued by paragraph (A) above and the rights granted thereunder are conditioned upon Applicants' compliance with all applicable Commission regulations under the Natural Gas Act and particularly the general terms and conditions set forth in paragraphs (a), (c) (3), (c) (4), (e), (f) and (g) of § 157.20 of such Regulations.

(C) The facilities authorized by paragraph (a) above shall be constructed and placed in actual operation, as provided by paragraph (b) of § 157.20 of the Regulations under the Natural Gas Act, within one year of the date of this order.

(D) The orders issued in Docket Nos. G-6508 and CP67-26 are further amended by allowing abandonment of the facilities and service hereinbefore described, all as more fully described in the applications in this proceeding. In all other respects said orders shall remain in full force and effect.

(E) Permission for and approval of the abandonment by Applicant of the facilities in Docket No. CP75-306 hereinbefore described, as more fully described in the application are granted subject to Applicant's filing a separate accounting proposal within six months after abandonment, which proposal shall require Commission approval.

(F) The order issuing a certificate of public convenience and necessity in Docket No. CP73-297 is further amended authorizing the construction and operation of additional facilities as hereinbefore described, all as more fully described in the application. In all other respects said order shall remain in full force and effect.

(G) Texas Eastern shall notify the Commission of its acceptance of a certificate of public convenience and necessity and abandonment authorization as conditioned in Docket No. CP75-306 within 30 days. Applicants shall advise the Commission of the dates of abandonment within 10 days thereof.

By the Commission.

UNION ELECTRIC CO.

Letter Agreement

DECEMBER 8, 1975.

Take notice that on November 20, 1975, Union Electric Company (Union) ten-

dered for filing a letter Agreement dated September 24, 1975, between Union and Associated Electric Cooperative, Inc. (Associated). Union states the Agreement modifies the provisions of the Interchange Agreement dated March 27, 1968, between Associated and Union by providing for a new delivery point between the parties and establishing charges to be paid for use of Union's facilities.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.10). All such petitions or protests should be filed on or before December 19, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

UNITED ILLUMINATING CO.
Termination

DECEMBER 8, 1975.

Take notice that on November 26, 1975, the United Illuminating Company (the Company) filed a notice that the initial rate schedule submitted to the Commission on September 12, 1975 by the Company (Docket No. ER76-120) providing for the sale of power by the Company to the City of Holyoke, Massachusetts Gas and Electric Department (Holyoke) pursuant to a contract dated as of August 1, 1975, (the Contract) has terminated by its own terms effective October 31, 1975.

The Company states that the reason for the termination is that the Contract, by Paragraph 2 thereof, provided that it would "expire at 11:59 P.M. on the date prior to the effective date of that certain Agreement" pursuant to which Holyoke

would purchase a joint ownership interest in the Company's New Haven Harbor Station Unit No. 1 (the Unit). The Contract was limited to the wholesale sale of electric energy for the brief period of time commencing with the commercial operation of the Unit and ending, when Holyoke could complete its financing program to enable it to purchase a joint ownership share in the Unit. Holyoke completed its financing program by the sale of revenue bonds on October 29, 1975 and purchased a joint ownership share in the Unit on November 1, 1975.

The Company requests that the Commission order this notice be effective as of October 31, 1975.

A copy of this notice has been mailed to the City of Holyoke, Massachusetts Gas and Electric Department.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 17, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

TEXAS GAS TRANSMISSION CORP.
Proposed Refund Plan

DECEMBER 4, 1975.

Take notice that on November 20, 1975, Texas Gas Transmission Corporation (Texas Gas) tendered for filing its proposed plan for the flow-through of refunds received from producers pursuant to Opinion No. 598 in Docket Nos. AR61-2 and AR69-1, et al. Texas Gas states that the refunds, totaling \$200,453, are applicable to gas purchases from various producers¹ during the period October 1,

1968 to January 11, 1970 in Docket No. RP-67-10 and the period January 12, 1970 to December 31, 1970 in Docket No. RP69-41. Texas Gas proposes to flow-through these refunds by crediting the balance in its Purchase Gas Cost Clearing Account pursuant to Section 23.10(c) of its FPC Gas Tariff, Third Revised Volume No. 1.

Texas Gas states that a copy of this filing was sent to all its jurisdictional customers.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's rules of practice and procedure. All such petitions or protests should be filed on or before December 18, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

FEDERAL RESERVE SYSTEM

FEDERAL OPEN MARKET COMMITTEE

Domestic Policy Directive

In accordance with § 271.5 of its rules regarding availability of information, there is set forth below the Committee's Domestic Policy Directive issued at its meeting held on October 21, 1975.¹

The information reviewed at this meeting suggests that output of goods and services—which had turned up in the second quarter—increased sharply further in the third quarter. In recent months retail sales have been maintained at the higher levels reached in early summer, and industrial production has strengthened progressively. Nonfarm payroll employment continued to expand in September, and the unemployment rate edged down from 8.4 to 8.3 percent. In September, as in August, average wholesale prices of industrial commodities rose somewhat faster than earlier in the year, in part because of increases in prices of energy products; prices of farm

and food products rose sharply in September. The advance in average wage rates in recent months has remained somewhat less-rapid than in 1974 and early 1975.

After rising further in late September, the exchange value of the dollar against leading foreign currencies has declined to about its mid-September level. In August the U.S. foreign trade surplus increased as agricultural exports rose. Bank-reported private capital movements showed a further net inflow, while U.S. liabilities to foreign official agencies declined again.

M₁ rose slightly on the average in September but declined in the latter part of the month and in early October. From the second to the third quarter, however, M₁ grew at a 6.9 per cent annual rate. Inflows of consumer-type time and savings deposits to banks and to nonbank thrift institutions continued to moderate in September, reflecting in part the attractiveness of alternative investments, and growth in M₂ and M₃ slowed further. Although conditions in markets for State and local government securities continued to be adversely affected by New York's financial problems, most short- and long-term interest rates have declined in recent weeks. On October 15 the Board of Governors announced a reduc-

tion of member bank reserve requirements on long-term time deposits.

In light of the foregoing developments, it is the policy of the Federal Open Market Committee to foster financial conditions that will encourage continued economic recovery, while resisting inflationary pressures and contributing to a sustainable pattern of international transactions.

To implement this policy, while taking account of developments in domestic and international financial markets, the Committee seeks to achieve bank reserve and money market conditions consistent with moderate growth in monetary aggregates over the months ahead.

By order of the Federal Open Market Committee, December 9, 1975.

ARTHUR L. BROWDA,
Secretary.

(COAL MINE HEALTH AND SAFETY)

APPLICATIONS FOR RENEWAL PERMITS, ELECTRIC FACE EQUIPMENT STANDARD

Opportunity for Public Hearing

Applications for Renewal Permits for Noncompliance with the Electric Face Equipment Standard prescribed by the Federal Coal Mine Health and Safety Act of 1969 have been received for items of equipment in underground coal mines as follows:

ICP Docket No. 4195-000, DILSTON CORPORATION, Mine No. 3, Mine ID No. 15 01549 0, Grundy, Virginia, ICP Permit No. 4195-004-R-2 (Bailey 4-Wheel Tractor, I.D. No. 4), ICP Permit No. 4195-007-R-2 (Bailey 4-Wheel Tractor, I.D. No. 7).

In accordance with the provisions of § 504.7(b) of Title 30, Code of Federal Regulations, notice is hereby given that

requests for public hearing as to an application for a renewal permit may be filed within 15 days after publication of this notice. Requests for public hearing must be filed in accordance with 30 CFR Part 505 (35 FR 11296, July 15, 1970), as amended, copies of which may be obtained from the Panel upon request.

A copy of each application is available for inspection and requests for public hearing may be filed in the office of the Correspondence Control Officer, Interim Compliance Panel, Room 800, 1730 K Street NW., Washington, D.C. 20006.

INTERNATIONAL JOINT COMMISSION—UNITED STATES AND CANADA

ROSEAU RIVER DRAINAGE Public Hearings

The International Joint Commission, a permanent Canada and United States body established under the Boundary Waters Treaty of 1909, will hold public hearings on the Main Report of the International Roseau River Engineering Board at the times and places noted below.

The studies were made pursuant to a Reference from the two Governments dated January 16, 1929. The original Reference had not been fully reported upon by the Commission in its Interim Report dated June 8, 1929, and no final report was made. Various measures for land drainage and flood control had been undertaken independently by the two countries in the years between the Commission's Interim Report and the re-constitution of the present Board in the summer of 1971.

Therefore, on August 26, 1971, the Commission directed the Board to determine:

- The effect of the control works set in place along the river since 1929;
- What co-ordinated plan or plans could provide effective use and control of the water;
- What the effects of the plan or plans would be on the environment and on flood flows in both the Roseau and Red Rivers;
- What additional works and/or measures would be required by these plans, what their cost would be and how the costs should be allocated between the two countries.

The purpose of these public hearings is to receive the views and advice of the public on the Board's report to assist the Commission in preparation of its final report to the Governments of Canada and the United States on the Reference. The hearings are international in nature and irrespective of the location in which they are held, the citizens of both the United States and Canada are invited to attend and participate.

Anyone wishing to present views on the substance of the report, either on

his own behalf or as a representative of others, will be given an opportunity to do so. Statements may be given orally or in writing. Allocation of time may be required for oral statements; therefore, witnesses should be prepared to summarize written statements. Written statements may be of any length. If written statements are submitted, it is requested that, if possible, thirty (30) copies be provided for the Commission's use. Additional copies may be deposited with the Secretaries for representatives of the news media and others present. Also, where possible, advance notice of persons or parties wishing to make a statement would be appreciated by the Commission.

Copies of the report may be obtained from the Secretaries of the Commission or from:

Mr. P. A. Fischer, U.S. Army Corps of Engineers, 1135 U.S. Post Office and Custom House, St. Paul, Minnesota 55101.

INTERNATIONAL TRADE COMMISSION

[No. 337-TA-5]

CHAIN DOOR LOCKS

Notice of Prehearing Conference

Notice is hereby given that the United States International Trade Commission will hold a prehearing conference in connection with investigation No. 337-TA-5, Chain Door Locks, on Tuesday, January 6, 1976, at 10:00 a.m., EST, in Room 206 of the United States International Trade Commission Building, 701 E Street, Northwest, Washington, D.C. 20436.

The proposed agenda for the prehearing conference is: 1. Stipulation to proposed Commission Rules (40 FR 40173, Sept. 2, 1975) for this investigation, and to evidence of record.

2. The scope of a proposed additional hearing.

3. A proposed protective order (to be furnished prior to the prehearing conference) and distribution of material submitted in confidence to the parties.

4. Collection of additional economic data.

5. Discussion as to proposed witnesses.
6. Discussion of dates relevant to the hearing.

7. Any other matters mentioned in documents served in accordance with the paragraph below!

To include additional items on the prehearing conference agenda, each participant should serve written proposals on the presiding officer and all parties before December 30, 1975.

Parties with like interests will be grouped and a spokesman appointed for their common interests at the prehearing conference.

At the conference the participants should be prepared to discuss problems involved in the proceeding, procedural and substantive, and should be authorized to make commitments with respect thereto. Among the specific items to be discussed within the framework of the agenda listed above are: stipulations as to facts, authentication of documents, future procedural dates, including dates for the service of direct and rebuttal evidence, dates for trial briefs and dates for the hearing.

Failure to attend the prehearing conference may result in waiver of your right to receive data or to object to rules, dates, or procedure ordered at such conference, or object to stipulations entered into by the parties.

Issued: December 9, 1975.

NUCLEAR REGULATORY COMMISSION

[Docket No. P-564-A]

PACIFIC GAS AND ELECTRIC CO.

Receipt of Partial Application for Construction Permits and Facility License: Time for Submission of Views on Antitrust Matters

Pacific Gas and Electric Company (the applicant), pursuant to section 103 of the Atomic Energy Act of 1954, as amended, has filed one part of an application, dated August 14, 1975, in connection with their plans to construct and operate two reactors in Stanislaus County, California. The portion of the application filed contains the information requested by the Attorney General for the purpose of an antitrust review of the application as set forth in 10 CFR Part 50, Appendix L.

The remaining portions of the application consisting of an Environmental Report and the Preliminary Safety Analysis Report (PSAR) pursuant to § 2.101 of Part 2, are expected to be filed in September 1976 and April 1977, respectively. Upon receipt of the remaining portions of the application dealing with radiological health and safety and environmental matters, separate notices of receipt will be published by the Commission including an appropriate notice of hearing.

A copy of the partial application will be available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20555, and at the Local Public Document Room, Stanislaus County Free Library, 1500 I Street, Modesto, California 95345. Docket No. P-564-A has been assigned to the application and it should be referenced in any correspondence relating to it.

Any persons who wishes to have his views on the antitrust matters of the application presented to the Attorney General for consideration should submit such views to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Chief, Office of Antitrust and Indemnity, Office of Nuclear Reactor Regulation, on or before January 30, 1976.

Dated at Bethesda, Md., this 21st day of November 1975.

**POWER AUTHORITY OF THE STATE OF
NEW YORK**

[Docket No. 50-549]

Receipt of Partial Application for Construction Permit and Facility License; Time for Submission of Views on Antitrust Matters

Power Authority of the State of New York (the applicant), pursuant to Section 103 of the Atomic Energy Act of 1954, as amended, has filed a part of an application dated July 25, 1975, in connection with their plans to construct and operate a reactor in Greene County, New York, Greene County Nuclear Power Plant (the facility), will be a pressurized water reactor designed for operation at 3600 thermal megawatts with a net electrical output of approximately 1273 megawatts. This portion of the application filed contains the information requested by the Attorney General for the purpose of an antitrust review of the application as set forth in 10 CFR Part 50, Appendix L.

In addition, the general information portion of the application and the Environmental Report were docketed on September 15, 1975, but without the full Preliminary Safety Analysis Report in accordance with 10 CFR 2.101. The Preliminary Safety Analysis Report was tendered but initially rejected and is expected to be re-submitted for docketing in the near future. A separate notice of receipt for this remaining portion will be published at that time. A notice of hearing is also being published separately dealing with radiological health and safety and environmental matters.

Copies of the individual portions of the application, as noted above, are avail-

able for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20555, and at the Catskill Public Library, Franklin Street, Catskill, New York 12414.

BALTIMORE GAS AND ELECTRIC CO.

Notice of Issuance of Amendment to
Facility Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 11 to Facility Operating License No. DPR-53, issued to Baltimore Gas and Electric Company (the licensee), which revised Technical Specifications for operation of the Calvert Cliffs Nuclear Power Plant Unit 1 (the facility) located in Calvert County, Maryland. The amendment was effective as of November 30, 1975.

The amendment incorporates an exemption from the requirements of Section III.D.3 of Appendix J of 10 CFR Part 50. It changes the Technical Specifications for the facility to extend the first retest interval of approximately 47% of the containment isolation valves until the next plant shutdown and cooldown following issuance of this amendment, but no later than December 30, 1975.

The application complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. The Commission also concluded that the granting of the exemption from the requirements of Section III.D.3 of Appendix J for the above-referenced test is authorized by law and will not endanger life or property or the common defense and security and is otherwise in the public interest. Prior public notice of this amendment is not required since the

amendment does not involve a significant hazards consideration.

For further details with respect to this action, see (1) the application for amendment dated November 18, 1975, (2) the letter from the Director of the Nuclear Reactor Regulation to Baltimore Gas and Electric Company (issued concurrently with this Notice), (3) Amendment No. 11 to License No. DPR-53, with Change No. 10, and (4) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., and at the Calvert County Library, Prince Frederick, Maryland 20678. NEBRASKA PUBLIC POWER DISTRICT

Notice of Issuance of Amendment to
Facility License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 15 to Facility Operating License No. DPR-46, issued to the Nebraska Public Power District (the licensee), which revised Technical Specifications for operation of the Cooper Nuclear Station (the facility) located in Nemaha County, Nebraska. The amendment is effective as of its date of issuance.

This amendment revises the Administrative Controls Section of the Technical Specifications for the facility to change the record retention period (for principal maintenance activities and reportable occurrences) from "for the life of the plant" to "for at least five years" consistent with current requirements.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment is not required since the amendment does not involve a significant hazards consideration.

PHILADELPHIA ELECTRIC CO., ET AL.

Notice of Issuance of Amendment to Facility Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 15 to Facility Operating License No. DPR-44 issued to Philadelphia Electric Company, Public Service Electric & Gas Company, Delmarva Power and Light Company, and Atlantic City Electric Company, which revised Technical Specifications for operation of the Peach Bottom Atomic Power Station Unit 2, located in Peach Bottom, York County, Pennsylvania. The amendment is effective as of its date of issuance.

The amendment modifies the provisions in the Technical Specifications relating to Limiting Conditions for Operation associated with the Emergency Core Cooling System (ECCS) and Reactor Core Power Distribution Limits; and provides for modification of the ECCS to improve its performance in accordance with the licensees' application for amendment dated July 9, 1975.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Notice of Proposed Issuance of Amendment to Facility Operating License in connection with this action was published in the FEDERAL REGISTER on August 18, 1975 (40 FR 34647). No request for a hearing or petition for leave to intervene was filed following notice of the proposed action.

For further details with respect to this action, see (1) the application for amendment dated July 9, 1975, September 10, October 30, November 7, 18 and 20, 1975, (2) Amendment No. 15 to License No. DPR-44, with Change No. 15,

PHILADELPHIA ELECTRIC CO.

Negative Declaration

The U.S. Nuclear Regulatory Commission (the Commission) has reviewed a change to the Appendix A Technical Specifications of Facility Operating License DPR-44 as proposed by the licensee, Philadelphia Electric Company. This change would authorize the licensee to operate the Peach Bottom Atomic Power Station Unit 2 in York County, Pennsylvania, with certain revisions to the present limiting conditions for operation as specified in Appendix A of the referenced license. These revisions would result from implementing the Acceptance Criteria for the Emergency Core Cooling Systems for Light Water Power Reactors (ECCS) as specified in § 50.46 of Part 50 CFR. No revisions to the Environmental Technical Specifications (Appendix B) were requested in connection with the proposed action.

The proposed action would be carried out in conjunction with a planned shutdown for the purpose of correcting a channel box wear problem within the reactor core. The proposed ECCS action would result in a reduced power level of no more than 15 percent for no more than 12 months.

The Commission's Division of Reactor Licensing has evaluated the expected environmental impact of the proposed change. On the basis of this appraisal, the Commission has concluded that an environmental impact statement is not warranted for this particular action. There would be no environmental impact attributable to the proposed action other than those impacts described in the Commission's Final Environmental Statement for Peach Bottom, Units 2 and 3, issued April 1973. The environmental impact appraisal is available for public inspection at the Commission's Public

Document Room, 1717 H Street, NW., Washington, D.C., and at the Martin Memorial Library, 159 East Market Street, York, Pennsylvania.

[Docket No. 50-277]

PHILADELPHIA ELECTRIC CO.

Order for Modification of License

I. Philadelphia Electric Company (PECO or Licensee) is the holder of Facility Operating License No. DPR-44 which authorizes operation of Peach Bottom Atomic Power Station Unit 2 (Unit 2 or the Facility) at steady-state reactor core power levels not in excess of 3295 megawatts thermal (rated power). The Facility is a boiling water reactor (BWR) located at the Licensee's site in Peach Bottom, York County, Pennsylvania.

II. 1. On July 23, 1975, the Nuclear Regulatory Commission (the Commission) issued an "Order for Modification of License" (40 FR 32179 of July 31, 1975) which confirmed a plan for limited additional operation of the facility. As explained in the Order of July 23, 1975, the Facility's channel box wear, as indicated by the noise-to-signal ratio recorded by the traversing incore probe (TIP), had exceeded the threshold for remedial action. The remedial action, confirmed by the Order, limited operation of the facility at not more than 40 percent of rated core flow and with a maximum fuel bundle power of 3.35 MWT. In addition, the Order permitted operation up to full flow and power for a brief period of time needed to collect flow vibration data and to conduct fuel preconditioning. The Order further stipulated that the Licensee was to shutdown the facility following approximately 45 equivalent full flow days from June 21, 1975 unless within that period certain specified tests have been completed which demonstrated the efficacy of the 40% flow limit.

2. By letter dated October 24, 1975, the Licensee proposed a plan, previously discussed with the NRC staff, setting forth a course of remedial action, which would allow operation with flow rates above 40 percent of rated flow and maximum bundle power above 3.35 MWT. The plan would involve shutdown of the reactor and appropriate replacement of worn channel boxes and plugging of the core support plate bypass holes. The reactor was shutdown on October 31, 1975, for visual inspection of the channel boxes and the necessary repairs.

3. By its letter dated September 29, 1975, the Licensee provided details relating to the fuel channel inspection program and the installation of core bypass

flow plugs in the lower core plate and supplied analyses to demonstrate the adequacy of the procedures for plug installation. Additionally, by its letter dated October 24, 1975, the Licensee referenced modifications previously approved and implemented at the Duane Arnold and Vermont Yankee reactors.

4. On November 4, 1975, the Commission issued an "Order for Modification of License" (40 FR 52671 November 11, 1975) that approved the repair program and authorized the installation of bypass hole plugs in the facility's lower core plate. As discussed in the November 4, 1975 Order, the NRC staff concluded that the plugs will reduce the vibration of the instrument thimbles caused by flow through the bypass holes. By telecon on November 18, 1975, Philadelphia Electric Company confirmed that the licensee's inspection and repair program was completed. The inspection program resulted in the rejection of 128 channel boxes with unacceptable wear as defined in the repair program. These channel boxes were replaced. Eighty-four channel boxes with indications of wear, but within the criteria of the repair program, were also replaced. Philadelphia Electric Company also confirmed that all flow bypass holes in the core plate were plugged.

5. By letters dated November 7,¹ 18, and 20, 1975, the licensee provided analyses, including an emergency core cooling performance analysis, for reactor power operation with the plugs installed in the bypass holes. The November 7, 1975 letter supplemented letters of July 9, September 10, October 1 and 30, 1975 related to ECCS analyses.

6. The Commission's staff has reviewed the analyses submitted by the licensee on November 7, 1975 and supplements thereto to support operation with the bypass flow hole plugs installed. As discussed in the Commission's concurrently issued Safety Evaluation for Amendment No. 15 to the license the proposed operation with plugs will require modified limits relating to emergency core cooling system performance. The modified limits specified in the concurrently issued Amendment No. 15 would be based upon an evaluation of ECCS performance calculated in accordance with an acceptable evaluation model that conforms to the requirements of the Commission's regulations in 10 CFR § 50.46. The amendment would modify various limits established in accordance with the Commission's Interim Acceptance Criteria, and would, with respect to the facility, terminate the further restrictions imposed by the Commission's December 27, 1974 Order for Modification of License (40 FR 1772, January 9, 1975), and would impose instead, limitations established in accordance with the Commission's Ac-

ceptance Criteria for Emergency Core Cooling Systems for Light Water Nuclear Power Reactors, 10 CFR Section 50.46. The amendment would also revise the Technical Specifications to permit operation of the facility using operating limits based on the General Electric Thermal Analysis Basis (GETAB) and with the Low Pressure Coolant Injection System modified in accordance with the licensee's application for license amendment dated July 9, 1975 as supplemented.

It also should be noted that plugs identical to those to be used in Peach Bottom Unit 2 have been installed in the Cooper, Vermont Yankee, Duane Arnold and Pilgrim reactors. The plugs installed in Vermont Yankee were removed during a refueling operation after ten months of successful service. No abnormalities or loose pieces were reported. Vermont Yankee has since reinstalled the plugs.

7. Based on our review of the licensee's submittals of November 7, 18, and 20, 1975, and the prior related experience at the Pilgrim and Vermont Yankee reactors, the NRC staff concluded in its concurrently issued Safety Evaluation that operation of Peach Bottom Unit 2 in accordance with the additional restrictions set forth in Amendment No. 15 to the license would provide reasonable assurance that the public health and safety would not be endangered.

III. Accordingly, pursuant to the Atomic Energy Act of 1954, as amended, and the Commission's Rules and Regulations in 10 CFR Parts 2 and 50, it is ordered, That Facility Operating License No. DPR-44 is hereby amended by substituting the following provisions for the provisions set out in the Commission's Orders for Modification of License dated December 27, 1974 and November 4, 1975:

1. Operation of Peach Bottom Atomic Power Station Unit 2 with plugged bypass flow holes is hereby authorized subject to the conditions set forth in the concurrently issued Amendment No. 15 to the Facility License No. DPR-44 incorporating Change No. 15 to the Technical Specifications, and

2. A monitoring program using LPRM and TIP traces and available accelerometers on incore instrument guide tubes shall be performed for the purpose of detecting any instrument tube-channel box interaction.

For the Nuclear Regulatory Commission.

BEN C. RUSCHE,
Director, Office of
Nuclear Reactor Regulation.

Dated at Bethesda, Maryland, this 28th day of November, 1975.

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS

Notice of Proposed Subcommittee and Full Committee Meetings

In order to provide advance information regarding proposed ACRS Subcommittee and full Committee meetings, the

following preliminary schedule is being published. This preliminary schedule reflects the current situation, taking into account additional meetings which have been scheduled and meetings which have been postponed or cancelled since the last list of proposed Subcommittee and full Committee meetings published in FR Vol. 40, No. 223, pg. 53446, November 18, 1975. Those meetings that are definitely scheduled have had, or will have, an individual notice published in the FEDERAL REGISTER approximately 15 days (or more) prior to the meeting. Those Subcommittee meetings for which it is anticipated that there will be a portion or all of the meeting open to the public are indicated by an asterisk (*). It is expected that the sessions of the full Committee meeting designated by an asterisk (*) will be open in whole or in part to the public. Information as to whether a meeting has been firmly scheduled, cancelled, or rescheduled, or whether changes have been made in the agenda for the January 8-10, 1976 ACRS full Committee meeting can be obtained by a prepaid telephone call to the Office of the Executive Director of the Committee (telephone 202/634-1406, Attn: Mary E. Vanderholt) between 8:15 a.m. and 5:00 p.m. EST.

SUBCOMMITTEE MEETINGS

* *Diablo Canyon Nuclear Power Station, Units 1 and 2*, December 17, 1975, San Luis Obispo, CA. Postponed. Tentatively scheduled to be held February 20, 1976 in San Luis Obispo, CA.

* *Hartsville Nuclear Power Plant, Units 1, 2, 3, and 4*, December 17-18, 1975, Hartsville, TN. Postponed. Scheduled to be held February 26-27, 1976 in Nashville, TN.

* *Emergency Core Cooling Systems (ECCS)*, December 19, 1975. Washington, D.C., to discuss "A Critique of the Computer Safety Prediction Methods," by C. J. Hocevar. Notice published in Federal Register, Vol. 40, page 56500, December 3, 1975.

* *Emergency Core Cooling Systems (ECCS)*, December 20, 1975, Washington, D.C., to discuss the status of the review of Westinghouse Upper Head Injection (UHI). Notice published in Federal Register Vol. 40, page 56499, December 3, 1975.

* *General Electric Water Reactors*, December 29-30, 1975, Washington, D.C. to discuss on December 29 the design and performance of the Mark I, II, and III Pressure Suppression Containments, and to discuss on December 30 the status of the General Electric Standard Safety Analysis Report (GESSAR). Notice published in Federal Register Vol. 40, page 57721, December 11, 1975.

* *Inspection and Enforcement Activities*, January 6, 1976, Chattanooga, TN. Postponed. Scheduled to be held January 23, 1976 in Chattanooga, TN.

* *Anticipated Transients Without Scram (ATWS)*, January 6, 1976, Washington, D.C., to continue the review of certain proposed reactor design changes for Class B plants, as proposed by reactor vendors.

¹ Copies of the November 7, 1975 filing by the Licensee are available for public inspection in the Commission's Public Document Room, 1717 H Street NW., Washington, D.C., and are being placed in the Martin Memorial Library, 189 E. Market Street, York, Pennsylvania.

Safeguards for Special Nuclear Material and Security of Nuclear Facilities, January 6, 1976, Washington, D.C., to discuss access control, diversion detection, and contingency planning.

**D. C. Cook Nuclear Plant, Unit 1*, January 7, 1976, Washington, D.C. Postponed. Scheduled to be held February 4, 1976 in Washington, D.C.

**Regulatory Guides*, January 7, 1976, Washington, D.C. Postponed. Scheduled to be held February 4, 1976 in Washington, D.C.

**Safety of Operating Reactors*, January 7, 1976, Washington, D.C., to discuss how operating experiences is factored into continuing operation and new designs, and to obtain a report on operating experience.

**Stone and Webster Standard Safety Analysis Report (SWESSAR)*, January 22, 1976, Washington, D.C., to review the application of the Stone and Webster Engineering Corporation for a preliminary design approval of its Standard Safety Analysis Report.

**Inspection and Enforcement Activities*, January 23, 1976, Chattanooga, TN, to continue the discussion of third-party inspection and the roles of inspection and examination organizations in relation to nuclear safety.

**Davis-Besse Nuclear Power Station, Unit 1*, January 29-30, 1976, Toledo, OH, to review the application of the Toledo Edison Company for an operating license.

**North Anna Power Station, Units 1 and 2*, February 3, 1976, tentative, Wash., D.C., to review the application of the Virginia Electric and Power Company for an operating license.

**D. C. Cook Nuclear Plant, Unit 1*, February 4, 1976, Washington, D.C., to review the application of the Indiana-Michigan Electric Company for a permit to increase the power level of Unit 1.

**Regulatory Guides*, February 4, 1976, Washington, D.C., to review working papers regarding future Regulatory Guides and proposed changes to existing Guides.

**Sequoyah Nuclear Power Plant, Units 1 and 2*, February 12-13, 1976, tentative, Chattanooga, TN, to review the application of the Tennessee Valley Authority for an operating license.

**Clinch River Breeder Reactor Plant*, February 18, 1976, Hanford, WA, and February 19, 1976, Los Angeles, CA, to discuss the research and development programs at the Hanford Engineering and Development Laboratory and the Atomics International Facility for liquid metal fast breeder reactors, particularly those aspects of interest relative to the Clinch River Breeder Reactor Plant.

**Diablo Canyon Nuclear Power Station, Units 1 and 2*, February 20, 1976, tentative, San Luis Obispo, CA, to continue the review of the application of the Pacific Gas and Electric Company for an operating license.

**Cherokee Nuclear Station, Units 1, 2, and 3*, February 20, 1976, Charlotte, NC, to review the application of the Duke Power Company for a permit to construct Units 1, 2, and 3.

**Perkins Nuclear Station, Units 1, 2, and 3*, February 21, 1976, Charlotte, NC,

to review the application of the Duke Power Company for a permit to construct Units 1, 2, and 3.

**Washington Public Power Supply Systems, Projects 3 and 5*, February 24, 1976, Richland, WA, to review the application of the Washington Public Power Supply Systems to construct Projects 3 and 5.

**Hartsville Nuclear Power Plant, Units 1, 2, 3, and 4*, February 27, 1976, Nashville, TN, to review the application of the Tennessee Valley Authority for a permit to construct Units 1, 2, 3, and 4.

FULL COMMITTEE MEETINGS

NATIONAL SCIENCE FOUNDATION

ADVISORY COMMITTEE FOR SCIENCE EDUCATION

Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, the National Science Foundation announces the following meeting:

Name: Advisory Committee for Science Education. Date: January 5 and 6, 1976. Time: 9 a.m. each day. Place: Rm. 651, 5225 Wisconsin Avenue, NW., Washington, D.C. Type of meeting: Part Open—January 5—Closed; January 6—Open.

Contact person: Ms. Fran Watts, Staff Assistant, Science Education Directorate, National Science Foundation, Rm. W-600, Washington, D.C. 20550, telephone (202) 282-7930.

Summary minutes (open portion): May be obtained from the Committee Management Coordination Staff, Management Analysis Office, National Science Foundation, Rm. 248, Washington, D.C. 20550.

Purpose of advisory committee: To provide advice and recommendations concerning the impact of all Foundation activities (including research, scientific information; and international programs; as well as, specifically, "education" programs) relating to education in the sciences in U.S. schools, colleges and universities.

Agenda:

January 5—Closed

Science Education Directorate budget for fiscal year 1977.

January 6—Open

Review of Background and Status of Science for Citizens Program.

Recommendations and Development of Plans for Science for Citizens Program.

Reason for closing: The Committee will be reviewing and discussing internal budgetary plans for fiscal year 1977 that have been prepared by full-time officers of the Science Education Directorate.

Authority for closing: The Director of the National Science Foundation determined on December 4, 1975, that the portion of the meeting dealing with the fiscal year 1977 budget is within exemption 5 of Section 552(b), 5 U.S. Code, and should, therefore, be closed to the public. This determination was made in accordance with the provisions of Section 10(d) of Pub. L. 92-463.

ADVISORY PANEL FOR ENGINEERING MECHANICS

Open Meeting

In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, the National Science Foundation announces the following:

Name: Advisory Panel for Engineering Mechanics. Date: January 7 and 8, 1976. Time: 9:00 a.m. to 5:00 p.m. each day. Place: Rm. 543, National Science Foundation, 1800 G Street NW., Washington, D.C. Type of meeting: Open.

Contact person: Dr. Michael P. Gaus, Head, Engineering Mechanics Section, Rm. 419, National Science Foundation, Washington, D.C. 20550, telephone (202) 632-5787.

Summary minutes: May be obtained from the Committee Management Coordination Staff, Management Analysis Office, Rm. 248, National Science Foundation, Washington, D.C. 20550.

Purpose of advisory panel: To provide advice and counsel concerning the status and new directions of Engineering Mechanics research.

Agenda:

January 7

9:00 a.m. Introduction.

9:30 a.m. Review: NSF Organization, Recent Changes in Engineering Mechanics Section, Overview of grant activity.

1:30 p.m. Interaction with other agencies.

2:30 p.m. Discussion: Should the Section Consider Supporting Technology Transfer Efforts.

3:30 p.m. Interdisciplinary Research.

4:30 p.m. Future Research Directions.

January 8

9:00 a.m. University - Industry Cooperation.

10:00 a.m. Future Research Directions (Continued).

2:30 p.m. Further Discussion of Agenda Items.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 11916; (SR-MSRB-75-2)]

MUNICIPAL SECURITIES RULEMAKING BOARD

Order Approving Proposed Rule Change

DECEMBER 11, 1975.

In the matter of Municipal Securities Rulemaking Board, 1629 K Street, NW., Suite 700, Washington, D.C. 20006.

On November 5, 1975, the Municipal Securities Rulemaking Board (the "MSRB") filed with the Commission, pursuant to Section 19(b) of the Securities Exchange Act of 1934 (the "Act") and Rule 19b-4 thereunder, copies of pro-

posed Rule A-12. Proposed Rule A-12 provides for an initial assessment of \$100 payable by each municipal securities broker and each municipal securities dealer, presently or hereafter registered with the Commission, to be paid to the MSRB not later than (1) December 15, 1975, or (2) ten days from the date of registration with the Commission, whichever shall occur later.

Notice of MSRB Rule A-12 together with the terms of substance of the proposed rule change was given by publication of a Commission Release (Securities Exchange Act Release No. 11809 (November 7, 1975)) and by publication in the FEDERAL REGISTER (40 FR 52896 (November 13, 1975)).

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to the MSRB, and in particular, the requirements of Section 15B of the Act. The Commission further finds that MSRB Rule A-12 should be approved on the twenty-eighth day after the date of publication of notice of the filing thereof because, as a rule establishing a fee, it need not have been published prior to effectiveness and, further, because adequate time has been provided for public comment on the Rule in view of the relative simplicity of its terms and consequences.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, for good cause found that the proposed rule change filed with the Commission on November 5, 1975 be approved.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

MOTOR CARRIER TRANSFER PROCEEDINGS

DECEMBER 15, 1975.

Application filed for temporary authority under Section 210a(b) in connection with transfer application under Section 212(b) and Transfer Rules, 49 C.F.R. Part 1132:

No. MC-FC-76193. (Correction) (DONALD L. KERBS, doing business as C & R TRUCK LINE—Transferee—DONALD L. KERBS AND NEAL J. LOVIN, doing business as C & R TRUCK LINE—Transferor—), on November 25, 1975, the above-entitled application was published in the FEDERAL REGISTER. The notice stated that Donald L. Kerbs, doing business as C & R Truck Line, intends to temporarily operate the motor carrier properties of Donald L. Kerbs and Neal J. Lovin, doing business as C & R Truck Line. This notice inaccurately described the nature of the transaction. In this proceeding Donald L. Kerbs, doing business as C & R Truck Line, intends to acquire the certificate of registration underlying, intrastate authority of Donald L. Kerbs and Neal J. Lovin doing business as C & R Truck Line.

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

DECEMBER 15, 1975.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to Sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 C.F.R. Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before January 5, 1975. Pursuant to Section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-76161. By order of December 9, 1975, the Motor Carrier Board

approved the transfer to Aurora Delivery, Inc., Anchorage, Alaska, of the operating rights in certificate No. MC-110402 (Sub-No. 2) issued June 19, 1970, to Ferman L. MARINE SANITATION DEVICES

Certifications Granted

The purpose of this document is to notify interested persons that the Commandant, U.S. Coast Guard, has certified the design of certain marine sanitation devices or has authorized the manufacturer to label certain devices in accordance with the U.S. Coast Guard Marine Sanitation Device Regulations (33 CFR, Part 159).

When the Coast Guard determines that a device successfully satisfies the Design, Construction and Testing requirements of Subpart C of 33 CFR, Part 159, the manufacturer is authorized by the Coast Guard to label each device that he manufactures that is in all material respects substantially the same as the test device. This label serves as the purchaser's verification of the certification on such devices.

Existing equipment that is certified under 33 CFR 159.12 cannot be labelled under 33 CFR 159.16 as being certified. Because of this fact, purchasers of these devices are urged to request from the manufacturer or dealer a copy of the

Coast Guard letter granting certification of the device. The "verification" column in the list below shows the date of the Coast Guard letter granting certification. A copy of the certification letter or this Notice should be retained by the owner of such equipment as evidence that the device has been certified by the Coast Guard.

(33 U.S.C. 1322, 49 CFR 1.46 (l) and (m)).

Dated: December 4, 1975.

FEDERAL ELECTION COMMISSION

INDEX OF NOTICES

**Interim Guidelines, Proposed Regulations,
Advisory Opinion Requests and
Advisory Opinions**

FEDERAL ELECTION COMMISSION

[Notice 1975-89]

INDEX OF NOTICES PUBLISHED IN THE
"FEDERAL REGISTER" BY THE FEDERAL
ELECTION COMMISSION

Today, the Federal Election Commission publishes an index for all *interim guidelines*, *proposed regulations*, *advisory opinion requests*, and *advisory opinions* which have been published by the Commission through November 19, 1975. This index includes numerical, subject matter, and publication date notation for each published item. In every case, the FEDERAL REGISTER notice number will be the common reference to each entry.

For a full text of any of the entries included in this index, you may write to the Information Office, Federal Election Commission, 1325 K Street NW., Washington, D.C. 20463, or call Area Code (202) 382-4733. When ordering any of these items, *please specify and order only by the Federal Register notice number*.

To follow regularly the activities of the Commission, you may refer directly to the FEDERAL REGISTER. With this index, every item published by the Commission can be located by *Federal Register notice number* in the FEDERAL REGISTER for the appropriate date. The FEDERAL REGISTER is available for inspection at any Public Library which is also a Federal depository, or by subscription through the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. For subscribers to the FEDERAL REGISTER, a suggested method to follow the activities of the Commission is to keep Commission notices arranged chronologically by *Federal Register notice number* and use this index to locate any particular entry.

This index is divided into two general categories: (1) *Interim guidelines* and *proposed regulations*; and (2) *advisory opinion requests* and *advisory opinions*. A brief explanation of each category follows:

(1) *Interim guidelines* and *proposed regulations*. Under the Federal Election Campaign Act of 1971, as amended, (FECA, as amended) the Commission has power to prescribe suitable rules and regulations to carry out certain provisions and to formulate general policy for the administration of the Act. The FECA, as amended, prescribes that any rule or regulation which is proposed by the Commission must be submitted to the Congress for review (see 2 U.S.C. § 438 (c)). If the proposed regulation is not disapproved by Congress within 30 legislative days, it assumes the full force and effect of law as promulgated by the Commission.

Pending the completion of regulations to implement the Act, the Commission adopted an interim guideline procedure whereby a notice of general applicability is provided for certain matters which need immediate clarification. These *interim guidelines* serve as a basis upon which persons affected by the law can rely in making decisions during the period in which formal regulations are being developed.

This index lists the *interim guidelines* and the *proposed regulations* first, in the chronological order in which they have been published in the FEDERAL REGISTER, and second, in alphabetical order by subject matter.

(2) *Advisory opinion requests* and *advisory opinions*. The FECA, as amended, provides that upon the request of (a) any individual holding Federal office, (b) any candidate for Federal office, (c)

any political committee, the Commission can render an *advisory opinion* as to whether any specific transaction or activity by that individual or committee would constitute a violation of the FECA, as amended (see 2 U.S.C. § 437f). Any person receiving an *advisory opinion* who acts in good faith in accordance with provisions and findings of the *advisory opinion* will be presumed to be in compliance with the Act.

This index lists the following:

(a) *Advisory opinion requests (AORs)* by number, in the order in which they are published;

(b) *Advisory opinions (AOs)* which have been issued by the Commission in response to these AORs. (Each AO number will correspond to its respective AOR number. Issuance of AOs by the Commission is not necessarily in the order in which the AORs have been published. Every AOR and corresponding AO, when issued, can be located by referring to its FEDERAL REGISTER Notice Number).

(c) AORs and AOs listed alphabetically by subject matter;

(d) Relevant sections of the U.S. Code with a reference to the AOs which deal with these sections; and

(e) A brief description of each AO.

(This is the first publication of this index. It will be published monthly. Its purpose is to assist those who have a current need to be up-to-date on Federal election campaign laws and policies issued by the Commission. The Commission welcomes comments on the format and contents of this index, and any suggestions for change to make it more beneficial to its users.)

Dated: December 4, 1975.

THOMAS B. CURTIS,
Chairman, for the
Federal Election Commission.

AO 1975-29 POLITICAL PARTIES. Applicability of contribution limitations to county committees.

AO 1975-30 OFFICE ACCOUNTS AND CONSTITUENT SERVICE FUNDS. A principal campaign committee may make expenditures to purchase newspaper subscriptions and to reimburse the candidate for travel expenses.

AO 1975-35 ORGANIZATION OF POLITICAL COMMITTEES. Individuals may serve as officers of more than one political committee.

AO 1975-37 INCORPORATED POLITICAL COMMITTEES. Committees organized solely for political purposes may incorporate.

AO 1975-40 REPORTING OF POLITICAL CONTRIBUTIONS. Political committees and candidates must report all contributions from all political committees no matter how small the amount.

AO 1975-41 INVESTMENT OR DEPOSIT OF CONTRIBUTIONS INTO SAVINGS ACCOUNTS.

Committees may make internal transfers of funds between checking and savings accounts without listing transactions on the report.

AO 1975-45 MULTI-CANDIDATE COMMITTEES. Application of contribution limitations to multi-candidate committees.

AO 1975-47 CLARIFICATION OF AO 1975-1. Expenditures of corporate funds by host committee to attract a national party convention. Supplements AO 1975-1 and deals with the purposes for which national conventions host committees may make expenditures and the application of convention spending limitations to such expenditures.

AO 1975-51 OFFICE ACCOUNTS. Use of excess campaign funds to purchase Congressional office equipment. Use of computer terminal to aid in handling of Congressman's constituent mail.

AO 1975-52 STATE COMMITTEE AID TO RETIRE DEBTS. Extent to which a State Committee may assist a successful Federal candidate in retiring a 1974 election campaign debt.

AO 1975-57 REPAYMENT OF LOANS. Contributions to repay loans made before January 1, 1975 which were received prior to issuance of the Commission's Interim Guidelines on retiring past debts.

AO 1975-62 CONTRIBUTIONS TO DEFRAY FUNDRAISING COSTS. The portion of a donation which covers the actual costs of a fundraising dinner must be counted as a contribution.

AO 1975-64 FUNDRAISING EVENTS TO RETIRE DEBTS. A single fundraising function may be held to retire a 1972 campaign debt and a 1973-74 office account deficit.

AO 1975-67 CAMPAIGN BILLBOARDS. Use of name of campaign committee chairman and treasurer is not required on billboard signs.

AO 1975-74 CONTRIBUTION IN NON-ELECTION YEARS. A contribution made to a multi-candidate committee in a non-election year is not counted against the contributor's \$25,000 aggregate limit for the election year.

AO 1975-77 ROYALTIES. Royalties from publication of a book are not an honorarium.

AO 1975-78 FUNDRAISING EXEMPTION. The 20% fundraising exemption applies broadly to fundraising costs, not just to the actual solicitation of contributions.

DEPARTMENT OF LABOR

Office of the Secretary

■
PRIVACY ACT OF 1974

Notice of Systems of Records

Department of Labor
Office of the Secretary
Privacy Act of 1974

Supplemental Notice of Proposed Systems of Records

Pursuant to the requirements of sections (e) (4) and (11) of the Privacy Act of 1974 (Pub. L. 93-579, 88 Stat. 1896), the Department of Labor hereby gives notice of the maintenance of systems of records designated DOL/OASA-6, DOL/OASA-8 and DOL/MA-14. These systems of records were in existence on September 27, 1975, and should have been published in the notice of proposed systems published by Department of Labor on September 8, 1975 (40 FR 41739), but due to administrative oversight, were inadvertently omitted from that notice. The routine uses set forth in the prefatory statement accompanying the initial publication of systems of records (40 FR 41739) applies to the newly designated systems of records contained herein and is hereby incorporated by reference. In addition, the Department proposes to amend the notice of systems of records designated DOL/MA-8 and DOL/MA-9 published in the Federal Register on September 8, 1975 (40 FR 41748).

Pursuant to sections (j) and (k) of the Privacy Act of 1974, it is proposed to adopt exemptions for two previously noticed systems of records, DOL/OASA-3 (40 FR 41750) and DOL/LMSA-1 (40 FR 47981). The reasons for, and the scope of the exemptions are set forth below.

The Department invites public comment on all parts of this notice. Interested persons are invited to submit written data, views and arguments to Seth Zinman, Associate Solicitor of Labor, Division of Legislation and Legal Counsel, Room N2428, New Department of Labor Building, 200 Constitution Avenue, N. W., Washington, D. C. 20210, on or before January 12, 1976. Written material received from the public through said date will be considered by the Department before taking action on a final notice. Submissions will be available for public inspection at the above address during normal working hours.

Signed in Washington, D. C. this 3rd day of December, 1975.

John T. Dunlop,
Secretary of Labor.

1. Notice is hereby given by the Department of Labor of its maintenance of the following systems of records: DOL/OASA-6 Executive Assignment System File DOL/OASA-8 Executive Candidacy Self-Nomination Application File DOL/MA-14 Corp-member Personnel File

-DOL/LMSA1

System name: LMSE index cards Division of Enforcement.

System location: U.S. Department of Labor, 200 Constitution Avenue, N.W., Room N5416, Washington, D.C. 20216; all Area Offices.

Categories of individuals covered by the system: Union Officers, individuals investigated, and individuals interviewed.

Categories of records in the system: Primarily investigative material relating to investigations under the LMRDA-1959 and EO 11491.

Authority for maintenance of the system: LMRDA - 1959 and EO 11491.

Routine uses of records maintained in the system, including categories of users and the purposes of such uses: Information is disclosed to other Federal, state and local law enforcement agencies; to various congressional committees; in the President's Anti-Organized Crime Program including but not limited to reports of investigation, reports of interview and memoranda relating to investigations and intelligence information.

Storage: Manual file.

Retrievability: By name of individual.

Safeguards: Cards are in rolodex machine which is locked at night. In addition, cards are number-coded so that only an authorized employee can find a desired file.

Retention and disposal: Cards are retained indefinitely; files are kept for three years, at which time they are sent to Federal Records Center for two years, after which except for those records with historical value, they are destroyed.

System manager(s) and address: Acting Director, LMSE, U.S. Department of Labor, 200 Constitution Avenue, Room N5408, Washington, D.C. 20216.

Notification procedure: Mail all inquires to Systems Manager at above address.

Record access procedures: As above.

Contesting record procedures: As above.

Record source categories: Information compiled from interviews conducted during investigations, written complaints, and written reports received from other agencies.

Systems exempted from certain provisions of the act:

a. Criminal law enforcement. In accordance with paragraph 3 (j) (2) of the Privacy Act, information maintained in the system of records consisting of the card index and case files in the Division of Enforcement of the Office of Labor-Management Standards Enforcement which relates to criminal investigations is exempt from all provisions contained in 5 U.S.C. 552a except those requirements set forth in paragraphs (b), (c) (1) and (2), (e) (4) (A) through (F), (e) (6), (7), (9), (10) and (11), and paragraph (i) of the Act. Two of the three branches in the Division of Enforcement perform activities primarily relating to the enforcement of criminal laws including activities carried out under the provisions of the President's Anti-Organized Crime Program and Titles II, V, and VI of the Labor-Management Reporting and Disclosure Act of 1959, As Amended. The disclosure of information contained in the criminal investigative files, including the names of persons or agencies to whom the information has been transmitted, would substantially compromise the effectiveness of the Division's investigations. Knowledge of such investigations could enable subjects to take such action as is necessary to prevent detection of criminal activities, conceal evidence, or to escape prosecution. Disclosure of this information could lead to the intimidation of, or harm to, informants, witnesses, and their respective families, and could jeopardize the safety and well-being of investigative personnel and their families. The imposition of certain restrictions on the manner in which investigative information is collected, verified, or retained would impede significantly the effectiveness of the Divisions' investigatory activities, and in addition, may often preclude the apprehension and successful prosecution of persons engaged in criminal activity in the labor-management area.

b. Other law enforcement. In accordance with paragraph 3(k) (2) of the Privacy Act, investigatory material compiled for law enforcement purposes other than material declared exempt under paragraph 3(j) (2) of the Act, which is maintained in the card index and case files of the Division of Enforcement of the Office of Labor-Management Standards Enforcement is exempt from paragraphs (c) (3), (d), (e) (4) (G), (H) and (I), and paragraph (f) of 5 U.S.C. 552a. The disclosure of information contained in civil investigative files, including the names of persons or agencies to whom the information has been transmitted, would substantially compromise the effectiveness of the Division's investigations. Knowledge of such investigations would enable subjects to take such action as is necessary to prevent detection of illegal activities, conceal evidence, or otherwise escape civil enforcement action. Disclosure of this information could lead to the intimidation of, or harm to, informants, witnesses, and their respective families, and, in addition, could jeopardize the safety and well-being of investigative personnel and their families. The imposition of certain restrictions on the manner in which investigative information is collected, verified, or retained would also impede significantly the effectiveness of the Division's investigatory activities.

Contesting record procedures: Same as above.

Record source categories: The information contained in this system was received from individual complaints, witnesses, respondents, Federal, state, and local government records, and individual or company records.

Systems exempted from certain provisions of the act:

a. Criminal law enforcement: In accordance with paragraph 3(j) (2) of the Act, information maintained in the files of the Office of Investigations (OI) is exempt from all provisions set forth in 5 U.S.C 552a except those requirements contained in paragraphs (b), (c) (1) and (2), (e) (4) (A) through (F), (e) (6), (7), (9), (10) and (11), and paragraph (i). The primary function of OI is that of enforcement of the criminal laws within the meaning of 5 USC 552a (j) (2). The file maintained by OI contains information compiled in connection with such criminal investigations. The confidential nature of this information is essential to the conduct of effective investigations into alleged unlawful activity and crime conducive situations. Knowledge of OI investigations could enable subjects to take such action as is necessary to prevent detection of criminal activities, conceal evidence, or to escape prosecution. In addition, it could lead to the intimidation of, or harm to, sources, informants, witnesses and their respective families. While the information from this system is to be withheld, it will only be withheld to the extent necessary to protect the integrity of such investigations.

b. Other Law Enforcement: In accordance with paragraph 3(k) (2) of the Act, other investigatory material including certain material compiled from reciprocal investigations is exempt from the requirements set forth in paragraphs (c) (3) (d), (e) (4) (G), (H), and (I), and (l) of the Act until such time as a determination is made based upon such information, at which time the information will only be withheld to the extent necessary to protect the identity of a confidential source who has furnished information under an express promise that his or her identity would be held in confidence (or prior to September 27, 1975, under an implied promise that the source's identity would be protected). This exemption is necessary in order to protect the integrity of law enforcement investigations as well as to protect the identities of sources who would not otherwise provide information.

c. Protective service. In accordance with paragraph 3 (k) (3) of the Act, OI investigatory material maintained in connection with assisting the U.S. Secret Service (USSS) to provide protective services to the President of the United States or other individuals pursuant to section 3056 of Title 18 is exempt from paragraphs (c) (3), (d), (e) (4) (G), (H) and (I) and paragraph (f) of the Act. This exemption will enable OI to continue its support of the U.S. Secret Service without compromising the effectiveness of either agency's activity.

d. Contract investigations. In accordance with paragraph 3(k) (5) of the Act, investigatory material compiled in connection with contract investigations solely for the purpose of determining suitability, eligibility, or qualifications for a DOL contract is exempt from paragraphs (c) (3), (d) and (f) of the Act to the extent that disclosure of such material would reveal the identity of a confidential source when an express promise has been given to withhold the identity of the source (or prior to September 27, 1975, under an implied promise that the source's identity would not be revealed). This exemption is necessary for OI to collect information from certain sources who would otherwise be unwilling to provide information necessary to conduct such investigations.

AND DEFERRALS DECEMBER 1975**

This report is submitted in fulfillment of the requirements of section 1014 (e) of the Impoundment Control Act of 1974 (Pub. L. 93-344). Section 1014(e) provides for a monthly report listing all current year budget authority with respect to which, as of the first day of the month, a special message has been transmitted to the Congress.

This month's report gives the status as of December 1, 1975, of the rescissions and deferrals contained in the first eight special messages transmitted to the Congress for fiscal year 1976. These messages were transmitted to the Con-

gress on July 1 and 25, September 10 and 24, October 3 and 20, November 18, and December 1, 1975.

RESCISSIONS (ATTACHMENT A)

During the month of November, two additional special messages were transmitted to Congress bringing the total number of pending rescissions to 19 (\$2,127.7 million in budget authority).

DEFERRALS (ATTACHMENT B)

As of December 1, 1975, \$3,354.7 million in 1976 budget authority was being deferred from obligation and another \$87.7 million in 1976 obligations was being deferred from expenditure.

The 85 deferrals transmitted in the eight 1976 special messages are tabulated in Attachment B.

INFORMATION FROM SPECIAL MESSAGES

The six special messages containing information on each of the rescissions and deferrals covered by the cumulative report are contained in the FEDERAL REGISTERS of:

Wednesday, July 9, 1975 (Vol. 40, No. 132, Part V).
Wednesday, July 10, 1975 (Vol. 40, No. 147, Part II).
Monday, September 15, 1975 (Vol. 40, No. 179, Part V).
Monday, September 29, 1975 (Vol. 40, No. 189, Part V).
Wednesday, October 8, 1975 (Vol. 40, No. 196, Part VII).
Thursday, October 23, 1975 (Vol. 40, No. 206, Part III).
Thursday, November 20, 1975 (Vol. 40, No. 225, Part VI).
Thursday, December 4, 1975 (Vol. 40, No. 234, Part II).
